Scope and Content Note

The materials in FOIA 2013-1025-F are a selective body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related material. Due to Mr. McAuliffe’s personal as well as political relationship with the President the majority of this collection is closed under PRM (personal record misfile) as defined by 44 U.S.C. 2201 (3). “The term personal records means all documentary materials, … of a purely private or nonpublic character which do not relate to or have an effect upon the carrying out of the constitutional, statutory, or other official or ceremonial duties of the President.” The personal records misfile (PRM) term also includes “materials relating exclusively to the President’s own election to the office of the presidency”, and “materials relating to private political associations, having no relation to or direct effect upon the carrying out of constitutional, statutory, or other official or ceremonial duties of the President”. This collection contains personal gift correspondence for Christmas and birthdays as well as thank you notes for Mr. McAuliffe’s work on the 1996 inaugural committee and an invitation for Mr. McAuliffe to attend a conference on trade and investment in Ireland. It also includes a thank you note for Mr. McAuliffe’s work for the Americorps program.

System of Arrangement

Records that are responsive to this FOIA request were found in these collection areas—Clinton Presidential Records: White House Office of Records Management (WHORM) Subject Files, Clinton Presidential Records: WHORM (OP) and Clinton Presidential Records: White House Staff and Office Files. The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject file was compiled by the White House Office of Records Management and is a series of categories designated by a letter/number combination. In addition, there are WHORM (OP) series. Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity. WHORM files are processed at the document level; whereas, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. FOIA 2013-1025-F includes WHORM records from these subject
