Summary

This collection covers the years 1993-2001 and consists of records that either did not have a place in or were processed after previously-released Bruce Reed series. The records include agendas, briefing books, meeting notes, memos, mementos, and press clips and cover subjects such as welfare reform, the crime bill, the Vice President’s Urban Issues Dinner series and a binder containing thoughts and essays about the future from leading thinkers of the day.

Scope and Content Note

The materials in FOIA 2012-0770-F are a selective body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. Southern Utah Wilderness Alliance is a wilderness preservation organization in the United States based in Salt Lake City, Utah. The organization formed in 1983 and is a partner in the Utah Wilderness Coalition, a coalition of organizations nationwide that support federal wilderness designation for deserving public lands in Utah. Their mission is the preservation of the outstanding wilderness at the heart of the Colorado Plateau, and the management of these lands in their natural state for the benefit of all Americans. Since 1983, SUWA has been the only independent organization working full-time to defend America’s redrock wilderness from oil and gas development, unnecessary road construction, rampant off-road vehicle use, and other threats to Utah’s wilderness-quality lands. The collection contains email, memoranda, correspondence, and news articles. It also contains background material relating to Southern Utah Wilderness Alliance and a packet of information about the America’s Redrock Wilderness Act.

System of Arrangement

Records that are responsive to this FOIA request were found in these collection areas – Clinton Presidential Records: WHORM Subject Files, Clinton Presidential Records: White House Staff and Office Files The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Alpha file was compiled by the White House Office of Records Management from 1993 – 1996 and is a series of documents arranged by name of persons, organizations, or events. The WHORM Subject file was compiled by the White House Office of Records Management and is a series of categories designated by a letter/number combination. In addition, there are WHORM, WHORM Counsel, WHORM (CL), WHORM (OP), WHORM (Too Late); WHORM (Various Offices); and WHORM (Alpha Project) series. Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity. WHORM files are processed at the document level; whereas, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. The Automated Records Management System (ARMS) is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential email. The ARMS dataset is comprised of 6 sub-series of email records called “Buckets.” The buckets include NPR, OPD, POTUS, WHO, CEA, and Default. ARMS emails are arranged chronologically by creation date. The Tape Restoration Project (TRP) is a database consisting of restored emails from the Automated Records Management System from July 1994 through June of 2000. The TRP is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential record email. The TRP dataset is comprised of 6 sub-series of email records called “Buckets.” The buckets include NPR, OPD, POTUS, WHO, CEA, and Default. TRP emails are arranged chronologically by creation date. FOIA 2012-0770-F includes WHORM records from these subject
