Scope and Content

The materials in FOIA 2006-0184-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA request 2006-0184-F consists of memoranda, correspondence, reports, forms, notes, articles, and printed electronic emails, regarding William A. ("Bill") Halter. Bill Halter served as Senior Advisor in the Office of Management and Budget (OMB) from 1993 to 1999. As Senior Advisor, he provided counsel to OMB on policy issues, including review and evaluation of the management practices and budgets of federal departments. He worked closely with the President's Management Council (PMC) on initiatives to improve the management of the federal government. In September, 1999, Bill Halter was named Deputy Commissioner of the Social Security Administration (SSA), and served in that capacity until the end of the administration. The records processed for this FOIA request reflect Halter's responsibilities and involvement in the various issues addressed by OMB and SSA.

System of Arrangement

Records that were responsive to this FOIA were found in five collections – Clinton Presidential Records: WHORM Alpha File; Clinton Presidential Records: WHORM Subject File – General; Clinton Presidential Records: White House Staff and Office Files; Clinton Presidential Records: Automated Records Management System (Email); and Clinton Presidential Records: NSC Cables, Emails, and Records Management. As policy, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. WHORM Subject and WHORM Alpha files are processed at the document level.

The WHORM Subject file was compiled by the White House of Records Management and is a series of categories designated by a letter/number combination. A complete listing of the categories with detailed descriptions is provided in our research room.

The WHORM Alpha file was compiled by the White House Office of Records Management and is a series of documents arranged by name of persons, organizations, or events.

The Automated Records Management System (ARMS) is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential Records email. The ARMS dataset is comprised of 6 sub-series of email records called “Buckets.” The buckets include NPR, OPD, POTUS, WHO, CEA, and Default. ARMS emails are arranged chronologically by creation date.
