Inventory for FOIA Request 2009-1007-F

Records related to Judge Sonia Sotomayor

Extent

82 Folders, approximately 6,263 pages

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201, et seq.) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (17 USC 101, et seq.), which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton's presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed by

Staff Archivist, 2009. Previously restricted materials are added as they are released.

Scope and Content

The materials in FOIA 2009-1007-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA request 2009-1007-F contains materials relating to the nomination of Judge Sonia Sotomayor to the U.S. Court of Appeals for the Second Circuit. President Clinton nominated Judge Sotomayor to the position in 1997, and she was confirmed by the Senate in 1998. The records contain biographical information, court opinions as Judge for the U.S. District Court for the Southern District of New York and letters in support of her nomination. This series also includes court records, correspondence, news clippings, articles, and emails concerning her nomination.

System of Arrangement

Records that were responsive to this FOIA request were found in four collection areas—Clinton Presidential Records: WHORM Subject Files, Clinton Presidential Records: White House Staff and Office Files, Clinton Presidential Records: Automated Records Management System (ARMS) Emails,

Clinton Presidential Records: Tape Restoration Project (TRP) Email, and Clinton Presidential Records: NSC Cable and Email Systems. As policy, Staff and Office files are processed at the folder level, meaning that individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. WHORM Subject and WHORM Alpha files are processed at the document level.

The WHORM Subject file was compiled by the White House Office of Records Management and is a series of categories designed by a letter/number combination. A complete listing of the categories with detailed descriptions is provided in our research room.

The Automated Records Management System (ARMS) Email is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential Records email. The ARMS dataset is comprised of 6 sub-series of email records called "Buckets." The buckets include NPR, OPD, POTUS, WHO, CEA, and Default. ARMS emails are arranged chronologically by creation date.

The Tape Restoration Project (TRP) is a database consisting of restored emails from the Automated Records Management System from July 1994 through June of 2000. The TRP is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential record email. The TRP dataset is comprised of 6 sub-series of email records called "Buckets." The buckets include NPR, OPD, POTUS, WHO, CEA, and Default. ARMS emails are arranged chronologically by creation date.
