Subject: Few things DoJ events

Here are a few Justice Dept. items that will be showing up in the news:

1. When Justice got sued over the IG report on the FBI lab, they told the judge that they would be releasing it on April 15th.

Reno and Freeh are testifying the same day on terrorism before the Senate Appropriations Committee. I think the point of the hearing is to rip into the Administration for sending up a \$1 billion Anti-terrorism supplemental last year without having any real plan/strategy on how to spend it. But the committee Members will not have time to tear into us on that because they will be too busy crucifying DoJ and FBI on the lab report.

2. Reno is testifying before Senate Judiciary Committee on April 16th on Victims Constitutional Amendment.
