TEXT:

To ensure that we are all engaged in the development of the policy and budget ideas, if any, for the Race Report, I would like to schedule a meeting for Tues 7/21 or Weds 7/22. What I thought we could do is to have the PIR summarize the list of ideas that have come out of the Advisory Board meetings and other work. Below is that summary as an attachment. We could, if all read the summary, use that as a starting point to discuss ideas and ensure that the policy/budget process will be working on things that can then fed into the report, if appropriate. We also should ask the policy shops for ideas to add to the mix. It would seem to me that we need OPL, PIR, DPC, NEC, OMB and Counsel's office. Does anyone think we need to include any other office at this time--which is really the preliminary, brainstorming period? After this initial meeting, the policy/budget shops could probably continue the work, periodically coming back together so we're all on the same team.

Subject: PIR Advisory Board Information

Since Audrey is on vacation, Judy asked me to forward you the following information:

1. ABRECS.WPD is a summary of Advisory Board policy recommendations to date, provided to the POTUS via letters from the Advisory Board.
2. POTUSLET.WPD is the planned schedule for completion of the outstanding letters from the Advisory Board to the POTUS: administration of justice, June meeting, health, and immigration.

3. OUTLINE.WPD is the working outline for the document that the Advisory Board will submit to the POTUS in September. The schedule for completing this document is as follows:

July 31	Complete draft and send to Advisory Board for comment.
Aug 7	Deadline for receiving comments, other information from members of the Advisory Board.
Aug 19	Complete revisions and send to AB for final comments.
Aug 24	Deadline for receiving final AB comments.
Wk of 8/24	Send document out to put in camera-ready format.
Sept 1	Send out for publication.
Sept 15(?)	Present document to POTUS.

If you have any questions or need to reach me for any other reason while Audrey is out, my phone number is 395-1016. Rob

**Summary of Policy Recommendations from  
Advisory Board Letters to POTUS**

Following each meeting of the President's Advisory Board on Race, Dr. John Hope Franklin, Chairman of the Advisory Board, has sent a letter to the President on behalf of the full Board reporting on the meeting and providing preliminary policy recommendations on the substantive issues discussed. To date, Dr. Franklin has sent **six letters** to the President concerning the following substantive areas:

1. Civil Rights Enforcement (November 1997 meeting/College Park, Md)
2. Race and Education (December 1997 meeting/ Fairfax, Va)
3. Race and Employment (January 1998 meeting/Phoenix)
4. Race and Poverty (February 1998 meeting/San Jose)
5. Race and Stereotypes (March 1998 meeting/Denver)
6. Race and Housing (April 1998 meeting with HUD/Newark)

In addition, Dr. Franklin will likely send **additional letters** to the President in the following substantive areas:

- Race and Criminal Justice (May 1998 meeting)
- Follow-Up on Education, Economic Development, Leadership, and Vision (June 1998 meeting)
- Race and Health (July 1998 meeting with HHS)
- The Immigrant Experience

In September, the Advisory Board will forward to the President its **final report**, which will likely reiterate, expand, and supplement the Board's initial, preliminary recommendations in the above critical areas.

The major preliminary recommendations made in the seven letters that have been sent to the President are summarized below:

**1. Civil Rights Enforcement (November 1997 Meeting)**

- **Strengthen Civil Rights Enforcement:** "The data we have received and reviewed makes it clear that actionable illegal discrimination on the basis of race and national origin is still active and the source of harmful consequences. . . . [F]or the last two decades, civil rights enforcement agencies have had their budgets and staffing reduced while many of their responsibilities have been increased. . . . Strengthen[] civil rights enforcement throughout the United States: in the FY 1999 budgets, help create partnerships with States and localities that enforce comparable laws. . ." The Board has also recommended devoting additional resources to training staff and offering technical assistance to recipients of Federal funds to help prevent discrimination.
- **Expand Data Collection on Racial/Ethnic Discrimination:** "Expand[] and strengthen[] the Federal government's ability to collect, analyze, and disseminate reliable data on the nature and extent of discrimination based upon race and national origin. . ."
- **Implement Initiatives from White House Hate Crimes Conference:** "Implement[] fully the series of bold new initiatives announced at the White House Hate Crimes Conference aimed at better data collection, enforcement, and prevention."

**2. Race and Education (December 1997 Meeting)**

*Draft/June 24, 1998*

- **Promote Teacher Equity and Preparation:** “There seems to be substantial agreement that high-quality teachers are our most valuable educational resource. However, the data show that lesser-qualified teachers are overrepresented in high-poverty, high-minority communities. In addition, teachers are often ill-prepared to promote high expectations for students of all races, to create settings in which students of all races can learn effectively, and to teach in increasingly diverse environments. We recommend that you look at ways that the federal government can help bridge racial disparities in student access to quality teachers and support the professional development of teachers to serve minority students better.”
- **Develop Education Pipeline Programs:** “It is our understanding that programs that expose students at an early age to future educational opportunities and that provide mentoring, tutoring, and other support for students who aspire to take advantage of those future opportunities have shown positive results in improving educational outcomes for minority youth. We understand that you are presently considering a proposal to expand existing pipeline programs, such as the TRIO programs, and to promote new programs, such as college-school partnerships, to increase expectations, improve achievement, and increase college access for minority students. We want to offer our support for such a proposal.”
- **Teach Racial Understanding Through Diversity:** “As we saw firsthand during our visit to Annandale High School, many of our schools are rapidly becoming more racially diverse. This diversity can be a great asset in teaching students how to get along with people different than themselves and about how our cultural diversity enriches America. We have had the opportunity to learn about many programs, several of which the Initiative has featured as promising practices, that are working in our schools to teach children the tolerance and understanding necessary for them to function as good citizens in our multicultural, democratic society. . . . We must think of creative ways that the federal government can further support primary and secondary schools in their efforts to implement such programs and to promote understanding through diversity.”
- **Enhance Public School Choice:** “While many of us have substantial concerns about using public school money to fund private schools, there seemed to be some consensus among Board members and panel participants on the efficacy of exploring public school choice as one strategy for increasing educational opportunity and overcoming racial disparities in education. I know that you are a strong proponent of public school choice. We wish only to offer our support for your continuing efforts in this regard.”
- **Other Recommendations:** Other recommendations made more briefly included the need to **promote school construction** and the need to **address Hispanic dropout rates**, both of which are issues that the Advisory Board has focused on more urgently since the December meeting.

3. *Race and Employment (January 1998 meeting)*

- **Evaluate the Effectiveness of Job Training Programs:** The Board recommended that the Department of Health and Human Services and the Department of Labor evaluate the relative effectiveness of various employment training programs for different minority and immigrant communities that will highlight the commonalities and, where they exist, the differences in their training needs.
- **Support Multiple Forms of Testing to Create a Citizens’ Progress Report on Race:** The Board lent its support for a HUD-funded project to systematically measure racial discrimination

*Draft/June 24, 1998*

through testing in the areas of employment, housing, credit and other areas of social life so that there is a periodic progress report on racial disadvantage and disparities.

- **Improve Racial Data Collection:** The Board advised that Federal statistical data gathering agencies make every effort to create large enough periodic samples of all minority groups so that post-censal information on race is systematically available for all groups. This could be achieved by over-sampling Asian-Americans and American Indians as part of such key annual data series as the Current Population Surveys.
- **Require the Bureau of Indian Affairs to Address Indian Economic Development Needs:** Of particular concern to the Board was the difficulty that tribes interested in economic development and access to credit continue to face in gaining access to credit and investment resources due to confusion by investors about the jurisdictional rules or conditions for adjudicating mortgages and foreclosure procedures. The Bureau of Indian Affairs needs to make every effort to address this issue through the voluntary cooperation of major lenders and secondary market actors, including Fannie Mae and Freddie Mac. Memoranda of Understanding could be executed with major tribal associations, as well as individual tribes, which foster the necessary long-term process of building programs to inform and educate investors and lenders about the range of realistic, culturally sensitive lending and investment opportunities available in Indian Country.
- **Other Recommendations:** The Advisory Board also recommended that the Bureau of Indian Affairs fund a major, independent assessment of the fairness and effectiveness of all federal program resources intended to assist tribes and Alaska Native villages with their economic future.

4. ***Race and Poverty (February 1998 meeting)***

- **Examine Income Inequality:** The Board heard evidence about long term patterns of income inequality and suggested that the President initiate discussions among senior policy makers and Congressional leaders, as well as the private sector, as to potentially available means to reduce the extremes of this persistent pattern of inequality that so notably limits this country's ability to reduce systemic poverty and concomitant racial disadvantage.
- **Support Supplements for SBA Programs:** The Board learned of the importance of strong encouragement for tax credits and supports for corporations to provide philanthropic support for micro-credit development programs. Such financing is critically important since many, if not all, of the clients for such programs bring with them damaged or limited credit histories that prevent them from seeking funding from regular lending institutions or from the Small Business Administration.
- **Use the Current Economic Boom to Provide Necessary Job Training and Minimum Wage Increases:** The Board found that it is important to take advantage of the current economic boom to reach out to, educate, train, and place as many people as possible for positions in the new economy as additional efforts aimed at welfare to work transition are put into place along with a commitment to ever higher minimum wages.

*Draft/June 24, 1998*

- **Evaluate Anti-poverty Program Effectiveness:** The Board recommended the establishment of a White House task force involving those Federal agencies engaged in addressing various aspects of the anti-poverty problem to have them carefully and jointly assess and evaluate which of these current programs, or those programs which have recently lapsed, have proven utility in successfully reducing poverty on a sustained basis. They should use available data to assess whether programs are equally effective for all minority groups, and if they are not to seek answers to the question of why they are not succeeding. This cross-agency evaluation would assess how better to coordinate or integrate local level programs so that tools managed by different agencies could have a better, cumulative impact when targeted in tandem rather than in isolation.

5. *Race and Stereotypes (March 1998 meeting)*

- **Hold a Presidential Event On Stereotypes and What Can Be Done About Them:** “The issue of racial stereotypes is a core element of the problems of racial division and the lack of inclusion. Stereotypes influence how people of different races and ethnicities view each other, and as a consequence, treat each other. . . . As the nation’s leader and as a leading authority figure, you are in a unique position to underscore the link between racial discord in society and the stereotypes that lurk in the very private realm of our hearts and minds. . . . The event -- whether a speech, fireside chat, or other format -- would need to include a call to action. This call to action would remind people that all of us -- especially local leaders -- are in a position to advocate for changes in the ways that stereotypes become unconsciously institutionalized into virtually every organization in society.”
- **Institutionalize the Administration’s Promotion of Racial Dialogue:** “In a variety of ways, the Initiative is promoting involvement in small group racial dialogue. . . . In addition to helping Americans learn more about racial issues, these efforts help reduce stereotypes by creating interdependencies and a common mission between people of different racial groups. We urge you to continue your commitment to racial dialogue so that it is institutionalized after the end of the Initiative.”
- **Convene a High-Level Meeting on the Problem of Racial Stereotypes with Leaders from the Media:** “The primary purpose of the meeting would not be to assign blame, but rather to focus Presidential and public attention on the role of the media in both helping and hindering societal progress about the issue of stereotypes. . . . During the meeting, you could encourage participants to pursue a number of strategies so that the media could play a more positive role with respect to stereotypes.”
- **Promote Inclusion of the American Indian Community:** The Board also made several recommendations to promote inclusion of American Indians in the Initiative and beyond, including conducting a **Presidential visit to an Indian reservation**, convening a **White House Conference on economic development in Indian country**, and/or convening a **report on American Indian issues**.

6. *Race and Housing (April 1998 meeting with HUD)*

- **Continue to Use Testing to Develop Evidence of Continuing Discrimination:** The Board noted the persistence of discrimination in housing and the important role which Federally funded testing

*Draft/June 24, 1998*

programs have played in combating overt and subtle forms of disparate treatment. The Board supports HUD's decision to double housing complaints processing by the year 2000.

- **Highlight Housing Integration Efforts:** The Board learned of a small number of non-profit organizations dedicated to promoting integration through non-race based strategies of outreach, and the Board recommends that these efforts be highlighted in the final report.
- **Support the Increase and Targeting of Federal Funds for Urban Revitalization:** The Board supported the recommendations of the Eisenhower Foundation that stress the importance of linking federal and private sector funds to rebuild the core of inner city neighborhoods, many of which are home to minority and low-income families. The Board supported the type of targeting in HUD's HOME program and recommended an increase in overall levels of funding to meet the needs of such programs.
- **Support Community Development Corporations:** The Board is convinced that local neighborhood community development corporations offer key, sensible, cost-effective and locally legitimate programs that can improve conditions in minority communities in our inner cities.

**Letters from Dr. Franklin to the President - Schedule**

<b>Letter Topics</b>	<b>Meeting Dates</b>	<b>First Draft by</b>	<b>Review and Comment by</b>	<b>Signature by</b>	<b>To WH by</b>
Administration of Justice and Race	May 22	Completed	July 17	July 22	July 24
General Advisory Board Meeting	June 18	Completed	July 24	July 29	August 3

Race and Immigrants	July 13	July 24	August 7	August 12	August 14

**Very Rough Draft Outline for  
One America in the 21st Century:  
Report of the Advisory Board to the President's Initiative on Race**

Note: This is a very brief outline of subjects for the Advisory Board report which would accompany individual Board members' contributions. We hope that this outline will help focus Board members on the areas in which we believe the Advisory Board can make the greatest contributions to the President's final report to the American People. It may also help organize individual members' ideas for what they might structure their own reports.

**Chapter 1. Introduction: The Advisory Board to the President's Initiative on Race**

- Why the President appointed an Advisory Board to his Initiative on Race - its mission
- Who are the individuals on the Advisory Board and their collective agenda
- What the Advisory Board set out to do during the Initiative year - challenges and opportunities, early decision to focus on education and economic opportunities, dialogue, promising practices, etc.
- Context that the Advisory Board is one element of a much larger Presidential Initiative which is lead personally by the President, involving the White House as well as the entire Administration

**Chapter 2. Advisory Board activities over the past year and lessons learned.**

Collective

- Advisory Board meetings - WH Conference Center, Mayflower, College Park, Fairfax County, Phoenix, San Jose, Denver, Newark, and Boston
- Little Rock Central High School
- Santa Fe Congress of American Indians
- University of Mississippi
- Children's Defense Fund
- Carnegie Meeting

Individual

- Two to three compelling examples from each board member

Lessons Learned (interspersed with events above)

- Complexity of issues, their range and their interconnectedness
- Summary of some of the most compelling facts and analysis from meetings dealing with education, economic opportunities, and stereotype issues
- Personal stories of challenges overcome and opportunities expanded

### **Chapter 3. Promising Practices and Dialogues.**

#### Promising Practices

- Brief description of some promising practices site visits in Phoenix, San Jose, Denver and LA
- Some common factors for why they work
- Programs may help shed light on larger policy prescriptions to improve race relations or reduce racial disparities
- Continuation or expansion of these program in the future to increase positive outcomes

#### Dialogue

- Brief description of most compelling public or private conversations that help advance state of race relations
- Elements that contribute to successful dialogues and strategies for replication
- Efforts to expand opportunities for productive dialogues that lead to concrete actions
- Reasons by dialogue leading to action is important

### **Chapter 4. Policy Recommendations.**

- Broadly, the 3-4 priority policy areas which most dramatically reduce disparities and promote equal opportunities (not specific or targeted program recommendations). This section will draw heavily from the existing letters from Dr. Franklin to the President following each of the Advisory Board meetings in the last 8 months. Additional ideas from the June meeting will also be incorporated in this section. Some examples may include:
  - Continuing FY99 increases for anti-discrimination enforcement strategies which include periodic audits of how the country is doing in areas such as housing, employment and public accommodations; vigorous educational efforts to prevent discriminatory practices and to increase victims' awareness of the laws; and expansion of existing prosecution efforts;
  - Closing the education gap through focus on some areas of K-12 education such as teacher training, early childhood education, language acquisition or mentoring;
  - Increasing opportunities for overall employment and economic growth through macroeconomic policies which sustain the current economic trends. In order to reduce racial disparities in economic opportunities, policy solutions must be broadly constructed to incorporate employment, housing, community development, transportation, training, child care and other related structural issues. Concentrated poverty issues must also be dealt with separately to help the most disadvantaged members of our society;
  - Reducing health disparities which most fundamentally affect people's chances to learn and earn

## **Chapter 5. Next Steps.**

- Some options for next steps may include:
  - Recruitment and engagement of leaders, both existing and new, who can continue the work started by Advisory Board members in the past year and how we can sustain and nurture their work;
  - Council for One America
  - Continuation of promising practices identification
  - Private foundation for One America
  - One America community partnerships
  - Advisory Board members' personal pledge to continue as advocates for the President's vision for One America
  - Challenge and opportunity of government to government relationship on American Indian issues
  - Other ideas for President on what he can ask of others when he reports to the American people at the end of the year

## **Chapter 6. Conclusion.**

- Unprecedented Presidential effort provided Board members incredible opportunities to travel country and touch people's hearts - Thank you to the President
- Have done a lot of work in this year - more than some expected, less than others
- But much more work remains which must involve President, Federal, state, and local governments, private sector, religious communities, schools, and individuals
- Towards a more perfect union - why the country will be better off in the next year and over the next 50 years because of what was started this year compared to not having this initiative

Subject: Re:

I have some more information on the Indianapolis desegregation case and the NYT times story that is in process. The reporter is Pam Belluck from the Chicago Bureau. DOJ (Tom Perez) has spoken to her at length, so DOJ's side is surely being heard.

The case is really an interesting example of the difficulties in this area. This is a rare case where there clearly was an inter-district violation, extending beyond the boundaries of a single district. The major violation was a decision by government officials to create a metropolitan area government, but leave an exception for education. It is clear this was done to avoid metropolitan-wide desegregation, including bussing. It didn't work.

Bussing across the metropolitan area was ordered, beginning in 1981. Recently, however, the 7th Circuit had suggested that this remedy would have to end at some point. Moreover, the district court found the Indianapolis dictrict itself was no longer segregated. The question, then, was how far DOJ should go in attempting to preserve a metropolitan-wide remedy and whether a settlement would be better than what could result from litigation. The settlement provides for a long phaseout of bussing, over about 17 years. In place of bussing, the settlement hopes to encourage housing integration by creating an entity to assist minority families in finding housing.

If one were to quarrel about the settlement, one could point to the fact that the settlement did not require the city to contribute funds to help subsidize housing. In order to address this point, DOJ is working with HUD to target some assistance in that area. WE CAN BE HELPFUL ON THIS BY TALKING WITH HUD OURSELVES. I would be happy to follow up on that, if you like.

Overall, the case to me shows that housing integration is at the bottom of the problem. What do we do to encourage integrated housing? The federal government surely bears some responsibility through a history of

subsidizing housing in the inner city. But, there are powerful social trends at work that are hard to counter. For example, even middle class suburbs tend to be segregated. Chris has suggested having a session on integration, so this is a good case study to help focus on the problem.

## NEW COMMUNITY REINVESTMENT ACT NUMBERS

According to the National Community Reinvestment Coalition (NCRC), the private sector has pledged more than \$1 trillion going forward in loans to distressed communities – and more than 95 percent of these financial commitments have been made since 1992.

- There have been 23 times more financial commitments to distressed communities from banks in the past 5½ years than in the previous 15 years combined.
- Lending commitments under the CRA have increased 69-fold from the pre-1993 era -- from an average of \$2.6 billion per year between 1977 and 1992 to about \$180 billion per year in the past 5½ years.

<i>FINANCIAL COMMITMENTS TO DISTRESSED COMMUNITIES UNDER CRA</i>	
1977-1992:	\$42.3 billion
1992-1998:	\$991.7 billion
<i>Total since 1977:</i>	<i>\$1.034 trillion</i>
<i>% Since 1992:</i>	<i>96%</i>

<b>FINANCIAL COMMITMENTS TO DISTRESSED COMMUNITIES UNDER CRA</b> <i>(Average Financial Commitments Per Year)</i>	
1977-1992:	\$2.6 billion per year
1992-1998:	\$180 billion per year
<i>Past 5 Years vs. Previous 15 Years</i>	<i>69-Fold Increase</i>

NOTE: These numbers include financial commitments to distressed communities by financial institutions with merger approvals still pending.

*If Only Approved Mergers Are Included:*

**Automated Records Management System  
Hex-Dump Conversion**

- Under CRA, \$411 billion in financial commitments have been made to low-income communities with 90 percent -- \$369 billion -- has come since 1992.

**PRESIDENT MEETS WITH REPUBLICANS AND DEMOCRATS IN SUPPORT OF  
PASSING A STRONG PATIENTS' BILL OF RIGHTS**

**July 16, 1998**

Today, the President joined Republicans and Democrats on the Hill to support passing a strong bipartisan patients' bill of rights this year. Following his meeting yesterday with families, doctors, and nurses at the AMA, today the President reiterated his call on Congress to pass this legislation before adjournment. **The Dingell/Ganske patients' rights legislation underscores the need to address health challenge in a bipartisan manner. Today:**

**The President reiterated his call on Congress to pass a strong enforceable patients' bill of rights before they adjourn. For nine months the President has been calling on Congress to pass a patients' bill of rights that includes: guaranteed access to needed health care specialists; access to emergency room services when and where the need arises; continuity of care protections to assure patient care will not abruptly change if their provider is dropped; access to a timely internal and independent external appeals process for consumers to resolve their differences with their health plans; a limit on financial incentives to doctors; assuring that doctors and patients can openly discuss treatment options; assuring that women have direct access to an OB-GYN. Any bill of rights should include an enforcement mechanism that ensures recourse for patients who have been maimed or who have died as a result of health plan actions. A right without a meaningful remedy is simply not a right.**

**The Republicans in the House and the Senate have outlined proposals that fall far short of providing patients' the protections they need. After nine months of ignoring the President's call for a strong, enforceable, bipartisan patients' bill of rights, the Republican Leadership has responded with a rhetoric-laced, partisan proposals that places the interests of insurers above the needs of patients. The fact that Republicans have yet to introduce a bill with less than 40 days left in this Congress raises serious questions as to whether they are truly committed to passing a bill of rights or selling a bill of goods American public. The Republican proposals fall short in many areas. For example, they:**

- **Do not guarantee access to specialists. We have heard again and again about patients who could not see oncologists or specialists to treat heart conditions or diabetes. The Republican proposals do not assure that patients with critical health needs have access to the specialists they need.**
- **Do not limit or require disclosure of financial incentives for doctors. Patients should not be put at risk by unknown destructive financial incentives to limit patient care.**
- **Do not compensate patients who are maimed or who die as a result of a wrongful health plan action. A right without a remedy is simply not a right. The Republican Leadership proposals do not have adequate recourse for patients who are maimed or injured by their health plans.**

**The Senate Republican proposal introduced yesterday contains even fewer patient protections than the House proposal. It:**

- **Does not provide over 100 million Americans all of the patient protections they need.** The Senate Republican proposal only applies to Americans in self-insured plans and excludes the majority of Americans. Therefore, those tens of million of Americans excluded from these protections would only have the rights they need if every state passed every protection into law.
  - **States patients' rights laws do not provide the protections patients need.** As a new report released by today Families USA highlights, no state has passed all of the protections in the patients' bill of rights, and most states have passed only a few of the protections.
  - **Unfair to Americans in small businesses.** Most Americans who work in small businesses would not be protected by the Senate Republican proposal. The plan explicitly excludes these Americans from these protections and holds them hostage to the hope that every state will some day pass these protections.
  - **Inconsistent with the bipartisan Kassebaum-Kennedy law.** Rejects bipartisan Kassebaum-Kennedy approach that guarantees insurance protections are extended to all Americans.
- **Does not provide any enforcement provision.** This is even worse than the House proposal which contained a weak enforcement mechanism.

**The President Remains Committed to Passing a Strong, Enforceable Patients' Bill of Rights in This Congress. The President is committed to working with the Congress to pass bipartisan legislation to provide patients the protections they need.**

Below is the draft VA/HUD House Floor SAP assuming passage of the rule which is pending on the House floor right now. The language is identical to the House Rules SAP cleared & released yesterday except for the HUD sections in bold text. Please respond with comments/clearance by 1:30pm (general debate begins after T/P action is completed). Thanks.

H.R. 4194 DEPARTMENTS OF VETERANS AFFAIRS AND  
HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES APPROPRIATIONS  
BILL, FY 1999

(Sponsors: Livingston (R), Louisiana; Lewis (R),  
California)

This Statement of Administration Policy provides the Administration's views on H.R. 4194, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Bill, FY 1999, as reported by the House Appropriations Committee. Your consideration of the Administration's views would be appreciated.

The Administration appreciates efforts by the Committee to accommodate certain of the President's priorities within the 302(b) allocation. However, the allocation is simply insufficient to make the necessary investments in programs funded by this bill. As a result, critical programs are not funded or are underfunded, in particular, key Presidential priorities such as funding for National Service, Superfund, and climate change. Furthermore, the Administration is very concerned that the Committee has included problematic language regarding the Kyoto Protocol and other issues. Finally, the Administration understands that an amendment will be offered to include unacceptable provisions now contained in H.R. 2, such as those relaxing income targeting. If the bill were presented to the President without responding to these concerns, the President's senior advisers would recommend that he veto the bill.

The only way to achieve the appropriate investment level is to offset discretionary spending by using savings in other areas. The President's FY 1999 Budget proposes levels of discretionary spending for FY 1999 that conform to the Bipartisan Budget Agreement by making savings in mandatory and other programs available to help finance this spending. In the Transportation Equity Act, Congress -- on a broad, bipartisan basis -- took similar action in approving funding for surface transportation programs paid for with mandatory offsets. We want to work with the Congress on mutually agreeable mandatory and other offsets that could be used to increase high-priority discretionary programs, including those funded by this bill.

Below is a discussion of our specific concerns with the Committee bill. We look forward to working with the House to resolve these concerns as the bill moves forward.

#### Corporation for National and Community Service

The Administration strongly objects to the termination of the Corporation for National and Community Service, one of the Administration's top priorities. Eliminating funding for the Corporation would deny more than 49,000 Americans the opportunity to serve as AmeriCorps members in projects such as America Reads, the Administration's effort to raise student literacy through the use of tutors to supplement the school day activities. In addition, over one million students of all ages would forego the chance to participate in service learning activities in their schools and neighborhoods. The funding level in the Committee bill for the Corporation for National and Community Service is unacceptable.

#### Environmental Protection Agency

The Administration has several major concerns with the Committee's mark for the Environmental Protection Agency. In particular,

the Administration strongly objects to the \$593 million, or 28-percent, reduction to the President's request for Superfund, which would delay cleanups at sites nationwide and needlessly jeopardize public health. In addition, the Administration opposes the \$16 million, or 18-percent, reduction to the request for brownfields funding as well as restrictive bill language that would hamper achievement of brownfield cleanups by preventing their use for removals, cleanups, and revolving loan funds. The Administration urges the House to restore Superfund to the requested level and to delete the restrictive brownfields language.

The Administration strongly opposes the Committee's \$106 million reduction in EPA funding for the Climate Change Technology Initiative. This high-priority program should be funded fully to cut energy usage, save consumers money, and reduce greenhouse gas emissions. We will work with the Congress to restore requested funding as the bill moves forward.

The Administration strongly opposes bill and report language relating to the Kyoto Protocol that applies to the EPA and the Council on Environmental Quality. While the Administration could not and would not implement the Protocol until it is ratified, the bill language could be interpreted broadly to prevent activities that limit greenhouse gases -- for example, through enhancing energy efficiency -- but that are authorized under current law. The report language also inappropriately purports to prevent the Executive Branch from engaging in educational and outreach activities related to treaty negotiations and other aspects of climate change. The Administration opposes this and other riders because they inappropriately use the legislative process by denying the public and Members of Congress the opportunity to examine and debate these proposals openly.

The Administration appreciates the Committee's providing full funding for the President's Clean Water Action Plan, which is designed to prevent pollution run-off and protect public health. The Administration urges the Committee to provide the full \$50 million request to help improve water quality in Boston Harbor and prevent beach closings.

The Administration is concerned with the large number of unrequested, earmarked projects in the Committee mark for EPA, particularly when the Committee has reduced several other high-priority Administration initiatives, including right-to-know programs, Montreal Protocol, GLOBE, and Mexican border wastewater treatment funding.

#### Department of Housing and Urban Development

The Administration understands that an amendment will be offered to add H.R. 2, the Public Housing Reform and Responsibility Act of 1997, to the bill. H.R. 2 includes unacceptable provisions. For example, by changing the income targeting at admission for public and Section 8 assisted housing, H.R. 2 would shift subsidies from the poorest families, many of whom are working, to families with incomes sufficient to have greater housing choices. Such provisions would increase homelessness and hardship at a time when record numbers of Americans cannot afford even basic housing. The Administration supports reasonable measures to encourage a range of incomes in public housing and thereby reduce concentrations of poverty. The Administration can find no rationale, however, for relaxing the income targeting of Section 8 subsidies that can be used throughout a community. We must not allow those with the most desperate housing needs to be left out in the name of housing reform.

The Administration is concerned about the funding levels provided

for key programs of the Department of Housing and Urban Development, particularly for welfare-to-work housing vouchers and other programs, such as the Community Empowerment Fund, that would expand job opportunities.

The Administration appreciates the Committee's decision to fund 17,700 incremental "Welfare-to-Work" housing vouchers. The Administration would strongly support an amendment to increase the number of welfare-to-work housing vouchers to help more families get or keep a job. Indeed, with millions of families needing to make the transition from welfare to work, and in light of recent studies that show historically high unmet housing needs among very low-income Americans, the Administration believes it is critical for the Congress to fund the entire 50,000 welfare-to-work housing vouchers provided for in the President's request. Welfare-to-work housing vouchers will support implementation of welfare reform by assisting those welfare recipients who need housing assistance to get or keep a job.

The Administration also encourages the Congress to fund fully the President's request for \$400 million for an Economic Development Initiative Community Empowerment Fund to generate jobs in distressed communities. The Committee has cut the request by \$350 million, providing only \$50 million, as a set-aside within the existing CDBG program.

The Administration appreciates the Committee's decisions to fund a number of programs at the levels requested, including the Partnership for Advancing Technologies in Housing (PATH) initiative, and to renew all expiring Section 8 contracts. The Administration is encouraged that the Committee has provided funding for half the President's request for Regional Opportunity Counseling, a voluntary effort to expand the housing and employment opportunities available to low-income families. We urge full funding of the President's request for this program. We are also pleased by the Committee's decision to provide \$80 million for the Office of Lead Hazard Control, to reduce the risk of childhood lead poisoning and other health hazards. The Administration encourages the Congress to fund fully a number of other areas -- Homeless Assistance, Brownfields, and Regional Connections--and to end the ninety-day delay in reissuing of Section 8 certificates/vouchers on turnover.

The Administration is very concerned that the Subcommittee has not included language extending the repeal of one-for-one replacement for public housing. Without this language, the bipartisan goal of demolishing 100,000 of the worst public housing units by FY 2003 may not be achieved.

The Administration is pleased with the Committee's decision to support an audit-based enforcement initiative for the Fair Housing Initiatives program. We urge the Congress to fund fully this critical fair housing initiative to reduce the level of housing discrimination.

The Administration urges the Congress to adopt the Administration's proposal to reform HUD's single-family property disposition program, which would produce substantial savings by improving the efficiency of FHA's property disposition processes and would permit the Committee to provide additional resources to critical Committee programs. Finally, the Administration understands that there will be an effort to eliminate the provisions in the bill that increase the FHA loan limit. The Administration strongly opposes such an effort. The Administration urges the Congress instead to provide greater homeownership opportunities by increasing the FHA loan limit to the "conforming" limit.

The Administration appreciates the modest increase over the FY 1998 level provided for the Council on Environmental Quality (CEQ). However, we strongly believe that in order to allow CEQ to carry out its environmental mission and reinvention efforts, the full requested level should be provided, and language prohibiting use of detailees should be deleted.

#### Community Development Financial Institutions Fund

The Administration strongly urges the Committee to fund the Community Development Financial Institutions Fund at the requested level. The Committee's decision to reduce the request by \$45 million would severely reduce the Fund's ability to leverage investments, loans, and financial services in the country's most distressed communities.

#### National Aeronautics and Space Administration

The Administration is concerned with the Committee's reductions to the requests for the International Space Station, Space Shuttle, and Earth Science programs. Full funding in FY 1999 for Space Station is critical as the United States and our International Partners are in a peak period of development and integration, and proceeding toward First Element Launch later this year. Further, the Administration is particularly concerned about bill language prohibiting the use of funds for the Triana project. Triana offers a unique opportunity to educate and engage students in all phases of the mission. Its observations could potentially be used in meteorology and environmental monitoring, as well as for commercial purposes. The Administration will work with the Congress to enable restoration of funding for these priority programs as the bill proceeds. The Administration is also concerned over the large number of unrequested site-specific earmarks, which would have the effect of circumventing the competitive, peer review process and are paid for, in part, with serious reductions to priority programs.

#### Federal Emergency Management Agency

The Administration appreciates the level of funding provided by the Committee for the Federal Emergency Management Agency. However, we believe that the \$20 million reduction to the President's request for pre-disaster mitigation grants is shortsighted. These grants would help reduce the cost of future disasters by leveraging local and private-sector support for enhanced mitigation efforts at the State and community level. We urge the Committee to fund fully the President's request for this important initiative. In addition, we urge the Committee to approve our recent request for funding to help States and communities prepare for potential terrorist incidents involving chemical and/or biological weapons.

#### National Science Foundation

Given the budget constraints facing the Committee, the Administration appreciates the effort to provide a \$268 million increase over the FY 1998 level for the National Science Foundation (NSF). Nevertheless, the Administration is concerned with the reduction to the request for education and human resources and the elimination of funds for the proposed Polar Cap Observatory and NSF funds for the GLOBE program. The Administration is firmly committed to NSF's research and education activities, which not only promote scientific advancement but also contribute to economic development. We strongly urge the Congress to provide the full increase requested for NSF for its research, equipment,

and education activities.

#### Neighborhood Reinvestment Corporation

The Administration is pleased by the Committee's decision to provide the President's full request for the Neighborhood Reinvestment Corporation (NRC). The NRC has a proven, successful record of leveraging private sector resources to promote homeownership and helping strengthen America's communities. This funding would provide an additional \$25 million for a homeownership initiative that seeks to create 10,000 new homeowners through FY 2000.

#### Consumer Product Safety Commission

The Administration opposes bill language that would block the Consumer Product Safety Commission's ability to promulgate rules to reduce the flammability of upholstered furniture. This language intrudes upon CPSC's ability, as well the ability of other agencies, to carry out their responsibilities. Furthermore, these efforts to block the development of a new safety standard represent a threat to public health.

#### Potential Amendment Related to Peer Review

The Administration strongly opposes an amendment that may be offered mandating peer review of scientific data supporting final regulations. The Administration is committed to using the best possible science and peer review for rule-making. However, this amendment is unnecessary, inappropriate, and wasteful. Peer review is currently incorporated in the Government-wide rule-making process, where it is needed, through extensive outreach, public comment, and scientific advisory boards. As drafted, this amendment would mandate a one-size-fits-all requirement that would serve only to delay important government action, in particular, rules designed to protect health safety and the environment. It would impose a costly additional step in the regulatory process and could cover a large, heterogeneous set of rules, as diverse as meat and poultry inspection rules, airplane and automobile safety standards, FDA drug and device approvals, and rules to ensure safe drinking water and clean air. This would impose an undue burden on numerous final rules by requiring substantial personnel and other resources and could result in significant delays on important public health and safety rules.

While we have not made a final determination on scoring, we believe that the Federal share of savings from such a provision may be about \$15 million in FY99. More on this to follow.

#### Proposed Position

The amendment sets a dangerous precedent for the selective choosing of drugs that can be covered by Medicaid. For instance, states may try to extend such language to exclude coverage of protease inhibitors for AIDS treatment. Many states were initially resistant to covering this drug because of its costs.

The Secretary currently has the authority to limit coverage of Viagra if the use of the drug is subject to clinical abuse or inappropriate use. Thus, under current law, should research show the drug is being used inappropriately, the Secretary can limit its availability. We can and would use this authority if we get evidence that Viagra is being used inappropriately.

States currently have broad latitude to limit the use of these drugs under federal law through drug utilization review and prior authorization programs. They use this authority frequently (e.g., for drugs prone to abuse, such as human growth hormone).

**PRESIDENT WILLIAM J. CLINTON  
REMARKS BEFORE GIRLS' NATION  
THE WHITE HOUSE  
JULY 17, 1998**

**Acknowledgments:** AG Reno; Sec. Shalala; My Deputy Director of Legislative Affairs, Janet Murguia, who represented the great state of Kansas in the Girls' Nation Class of 1977; Alana Aldag, President, Girls' Nation 1998; Jennifer Hall, Vice-President.

Welcome to the White House. I hope you've had a good week in Washington. Later, I will be attending the 35th reunion of my own Boys Nation class. It's difficult for me to believe that so many years have passed since that summer. The people I met then -- from my fellow Boys Nation senators to President Kennedy -- made me believe that anything was possible -- that by staying involved in our communities and in our democracy, we could change the world.

I believe this is true for you, too. You are living in a time of even greater possibility, perhaps the most exciting in the history of America. Just think of all the revolutionary changes that have taken place over the course of your short lifetimes: The Cold War, which cast a shadow over your parents and older siblings' childhoods, has ended. Technology has advanced at a breathtaking pace -- fundamentally altering the way we all live, work, and learn. A typical laptop computer today has more computer power in it than the world's largest supercomputer did in the year you were born.

And so many of the barriers that kept women from making the most of their potential and contributing their talents to our society have fallen away: Today, a lawyer in America is 12 times more likely to be a woman than a lawyer in 1963 -- the summer I was a Boys Nation Senator. Women are earning more college degrees than men and even outnumber them in graduate school. Women-owned businesses are growing faster than the national economy. 41% of my own administration appointees -- beginning with Sec. Shalala and Atty. Gen. Reno -- are women, by far the highest percentage of any Presidency. And I look forward to the day when I read in the paper that America's new president has invited her own Girls Nation class for a reunion celebration at the White House.

We must seize this moment of unprecedented opportunity to strengthen America for the 21st Century. Today, I want to talk to you about our shared responsibility to fight one of the greatest threats to the future of our young people -- the national epidemic in teen smoking. I want to talk about what my administration will do and what you, as some of America's leading young people, can do to win this fight.

Every day, 3,000 young people take up smoking. 1,000 of them will die early as a result. Today, millions of young people will never reach their greatest potential because of a deadly addiction that could easily have been prevented.

That is why we cannot rest until we have passed comprehensive, bipartisan legislation to raise the price of cigarettes, give the FDA the authority to regulate tobacco as a drug, stop

tobacco companies from marketing to teens, launch new anti-smoking research and education drives, and protect farmers and farming communities. And that's why, even as I work to pass this legislation, I'm going to do everything I can as President to stop teen smoking.

For decades, the tobacco companies have sought to hide the truth about the dangers of smoking and about their own efforts to target children. Even as they publicly denied the addictiveness of nicotine, they conducted secret research in their labs, devised secret marketing strategies in their boardrooms to addict children to smoking for life. How do we know this? Because the tobacco company executives and scientists left a paper trail of memos and reports detailing these strategies and findings --- never thinking that they would see the light of public scrutiny.

With the help of the courts, these documents are becoming public. The documents tell us -- in the tobacco companies' own words -- how children and minorities became pawns in their efforts to recruit new customers. There are memos admitting in plain English that "the base of our business is the high school student." Memos saying that "creating a fad [in the 14-20 year old] market can be a great bonanza" for the tobacco company. And even as industry spokespeople insisted that young people were off-limits for advertising strategies, one company document from 1984 recommended targeting "younger adult smokers" because they were the only source of "replacement smokers" in the future.

Let's agree on at least one thing: Children are not the future of our tobacco companies. They are the future of America. And we must not let their future, or America's future, go up in smoke.

These documents contain a treasure trove of information -- information that can be used to save lives. Public health experts can design more effective anti-smoking strategies by studying the marketing plans in the documents. Scientists can look to the documents for findings that can aid their research into nicotine addiction and tobacco-related illnesses. And all Americans can understand the role the tobacco industry has played in hooking our children to the deadly habit of smoking.

There are tens of millions of pages of these documents. While some of them are already posted on the Internet, most are stored in depositories all across the country -- and as far away as England. They are not easy to find. That is why I am directing the Secretary of Health and Human Services to report back to me within 90 days with a plan to make these documents more accessible to all Americans. The plan should include a strategy for indexing the documents and for making that index -- as well as the documents themselves -- widely available to the public through the Internet and other methods. The plan should also propose a strategy for a broad and rigorous analysis of the information contained in these documents.

I am also pleased to announce that the Attorney General will file a brief in support of the State of Minnesota's efforts to make the tobacco industry's own, currently-existing, computerized index to these documents available to the public.

We must lift the tobacco industry's veil of secrecy so that all Americans can know the origins of our epidemic of teen smoking -- and the history of our national addiction to tobacco. Let us use the industry's darkest secrets to save a new generation of children from this deadly habit. Armed with the facts, we can and will win this fight.

So I want you to know that this administration and so many of our nation's leaders are working to make sure this -- and all the other challenges of our time, from global warming to greater access to education to Social Security -- do not become the intractable problems of your future. But let me also say that you, too, can also make sure they don't diminish your futures by taking action today. Many of you are already very involved in your communities -- as mentors, Big Sisters, math and reading tutors, Sunday School teachers -- it's one of the reasons you were chosen for Girls' Nation. I encourage you to stay involved and get even more involved -- help raise public awareness of the issues you care about, propose solutions to our challenges, lobby your elected leaders and participate in our political process. Our democracy is only as strong as our citizens.

As you have seen firsthand during your week in here Washington -- this is a city of monuments to America's greatest heroes. Washington. Jefferson. Lincoln. FDR. Very few Americans will ever be able to match their accomplishments, to leave behind as many gifts for generations to come. But every American has the same capacity to love this country, to believe in, to take part, to serve our democracy as much as they did. I call on you to love, to believe, to serve America. Have faith that you, too, can make this world a better place.

Subject: Stokes Amendment to VA/HUD for More Housing Vouchers

HUD believes that Rep. Stokes will offer an amendment tomorrow on the floor to increase HUD's housing vouchers (presumably welfare to work vouchers) by \$98 million (another 17,000 families).

This amendment will be in order because it is fully offset: by \$98 million rescission of unneeded BA for Section 8 amendments (HUD is providing assurance that this money is unneeded in 1999) and \$8 million reduction in salaries & expenses (which provides the necessary first year outlay savings). It may stand a decent chance of passage for the following reasons: it is Stokes' last amendment from the floor, it is modest, and it is fully offset within HUD.

Food Safety today

Thursday, July 16, 1998

### Starving Food Safety

Americans now enjoying their summer picnics may suffer a

glimmer of anxiety over recent outbreaks of food-borne

illness: 6,500 people became sick in Illinois last month after

eating commercial potato salad, and E. coli bacterial contamination

occurred in fruit juice and lettuce that originated in California. Today,

the U.S. Senate can take a big step to combat food contamination by

restoring all or most of the \$101-million initiative the Clinton

administration has proposed to improve food safety.

The money would go to hire new safety inspectors, upgrade

technologies and bring coherence to disjointed oversight.

So far, the Senate has allocated only a piddling \$2.6 million for the

initiative at the U.S. Department of Agriculture and nothing at all at

the Food and Drug Administration. The shame of this

is that it comes when lawmakers are spending like drunken sailors

elsewhere, for instance in the pork-laden transportation bill.

The need for better food safety oversight could not be stronger.

The Centers for Disease Control estimated that this year 9,000

Americans will die and millions will fall seriously ill because of tainted

foods, numbers that have been growing. CDC officials aren't sure

part of the reason  
imported foods  
Americans have little  
seven years and are  
years.

would get at this  
of imported  
not grown  
chairman of  
initiative at the  
delegated to states  
of food across  
opposite: a

way to successfully  
which within hours  
signature of, say, a  
back to the  
the initiative  
install such  
workers to quickly  
needs to consider  
to recall food  
consolidate scattered

some things that  
wholesomeness of our

why those statistics are rising, though they suspect  
may be improved detection and the increase in  
bearing bacteria and other pathogens to which  
resistance. Food imports have doubled in the last  
expected to increase by one-third in the next three

The administration's Food Safety Initiative  
problem first by hiring new inspectors. Less than 2%  
food is inspected now because the FDA's budget has  
along with imports. Sen. Thad Cochran (R-Miss.), the  
the Senate committee that decided not to fund the  
FDA, suggested that some of the FDA's duties be  
and local governments, but the increasing movement  
state lines and national borders argues for just the  
coordinated national strategy.

National planning, for instance, is the only  
deploy new technologies like DNA fingerprinting,  
allows federal inspectors to trace the genetic  
dangerous bacterium on apples marketed in the West  
farm where the fruit was harvested in Maine. Funding  
would enable federal agencies to continue efforts to  
technology in sites around the country and train  
identify and track food pathogens. And Congress  
pending bills to give the FDA and the USDA the power  
and to create a single food safety agency to  
oversight.

Food safety is an unassailable cause. There are  
only government can do, and guaranteeing the  
food supply is one of them.

TEXT:

Bruce you asked if we could find quotes from company documents about young females and smoking. Jerry has turned up several -- do you like any of them?

1984 RJ Reynolds document:

- 1) "The dominant trend in the younger adult smoker market over the last 50 years has been the rising importance of females."
- 2) "Younger adult female smokers were the key growth sector in the 1970's and 1980's."
- 3) A 1976 Philip Morris document examined a "profile of the teen-age girl smoker" done by Yankelovich for the American Cancer Society. No quotes stand out except maybe

"The profile of the teen-age girl smoker counters the image of a socially ill-at-ease youngster turning to cigarettes as a means of being thought of as more sophisticated or as a needed prop for handling social situations. Instead it is the teen-age girl smoker who is at ease socially, very put together, and with full confidence in herself."

Here's what the speech has now:

With the help of the courts, these documents are becoming public. The documents tell us -- in the tobacco companies', own words -- how children and minorities became pawns in their efforts to recruit new customers. There are memos admitting in plain English that "the base of our business is the high school student." Memos saying that "creating a fad [in the 14-20 year old] market can be a great bonanza" for the tobacco company. And even as industry spokespeople insisted that young people were off-limits for advertising strategies, one company document from 1984 recommended targeting "younger adult smokers" because they were the only source of "replacement smokers" in the future.

[Draft]  
Q&A  
July 15, 1998

**Q. What is your reaction to the House vote (276-150) on the Child Custody Protection Act ?**

A. We are disappointed that the House chose to reject the changes that we proposed to this legislation. We have repeatedly stated that we would support properly crafted legislation that would make it illegal to transport minors across state lines in order to avoid parental involvement requirements.

We asked the House to amend the bill to exclude close family members from criminal and civil liability. Under the legislation, grandmothers, aunts and siblings could face criminal prosecution for coming to the aid of a relative in distress. We also asked the House to amend the bill so that individuals who provide only information, counseling, referral, or medical services to the minor cannot be subject to liability. Finally, the Department of Justice recommended changes to address constitutional problems raised by the legislation.

These proposed changes would preserve the goal of the legislation to prevent the circumvention of state parental involvement laws, while both ensuring that minors are not isolated from close family members and preserving healthy family communications.

**Q. Would the President veto the bill if it is sent to him in its current form?**

A. We strongly oppose the bill in its current form. If Congress is truly interested in passing legislation, and not creating another partisan political issue, it will amend the bill as we requested.

Subject: Statement By The President: The Harkin Amendment Restoring \$68 million to the President's Food Safety Initiative

THE WHITE HOUSE

Office of the Press Secretary

For Immediate Release July 16, 1998

STATEMENT BY THE PRESIDENT

The Harkin Amendment Restoring \$68 million to the President's Food Safety Initiative

I welcome today's 66-33 vote to restore much needed funds to our food safety programs. Food safety should not be about politics; instead it must be about protecting our families and children. Today, the Senate put Americans first and partisanship last. With this money we will be able to improve safety inspections of foods, better educate the public on how to handle food safely, improve research, and aid the effort to track food borne outbreaks such as salmonella and e-coli. We must continue to work together in the coming months on this issue and on the many other issues which the American people care about. The American people want action, not political wrangling.

TEXT:

I had a lengthy conversation this morning with Donna Lenoff from the National Partnership for Women and Families. The Labor Cabinet and the groups are wanting us to have a FMLA 5th Anniversary event either the last couple days of July or first of August.

Deliverables could be: Support for expansion legislation since we have not discussed since State of Union Announcement; we could possibly announce an educational campaign targeted at small business between SBA and Labor for voluntary compliance; and support for study of the National Academy of Sciences' work on how to make FMLA more affordable for working Americans.

Also, the Families and Work Institute has a new study about business benefits vs. cost which is very positive. So that could be released.

Anyway, I'm trying to gauge the possibility of the President or Vice President doing this.  
I'm happy to put forth the request and see if we can work this through, but I'd like some feedback. thanks

Below is the conferees letter on Military Construction FY99 Appropriations. House & Senate action is possible next week. Please review the draft and provide comments/clearance by 2:30pm tomorrow. We

aim to send the letter Friday afternoon. Thanks.

The Honorable Bob Livingston  
Chairman  
Committee on Appropriations  
U.S. House of Representatives  
Washington, D.C. 20515

Dear Mr. Chairman:

The purpose of this letter is to provide the Administration's views on H.R. 4059, the Military Construction Appropriations Bill, FY 1999, as passed by the House and by the Senate. As you develop the conference version of the bill, your consideration of the Administration's views would be appreciated.

The Administration is disappointed that the House and Senate have chosen to increase funding above the level requested for the Military Construction Appropriations Bill, while reducing the President's request for national defense programs funded by the Department of Defense Appropriations Bill and the Energy and Water Development Appropriations Bill.

#### Unrequested Projects

The House has added \$575 million to the President's request for 89 unrequested projects and unrequested increases in funding for several programs, partially offset by \$130 million in reductions to requested items. The Senate has added \$846 million to the President's request for 104 unrequested projects, partially offset by \$150 million in reductions to requested items. Though much of the unrequested funding is for items that are funded in DoD's Future Years Defense Program (FYDP), \$203 million for 32 projects in the House bill and \$99 million for 14 projects in the Senate bill would be used for items that are not in DoD's FYDP. Although many of these projects may have some military utility, they are of much lower priority than the projects requested in the FY 1999 Budget and contained in DoD's FYDP.

#### Funding Priorities

The Administration urges the conferees to reconsider the funding added by the House and Senate for unrequested projects, especially those not in the FYDP, and to redirect this funding to requested programs both in the Military Construction and the Defense appropriations bills.

The Administration is particularly concerned about the reductions from requested military construction funding levels for:

**Advance Appropriations.** Neither the House bill nor the Senate bill provides the advance appropriations of \$568.6 million requested for a number of large construction projects, especially ammunition demilitarization facilities. Advance appropriations would ensure that full funding is available to complete projects before construction begins. Without full funding, it is difficult to optimize planning, scheduling, and cost control. The Administration opposes incremental funding of these projects and urges the conferees to provide the advance appropriations as requested.

**Chemical Demilitarization Construction Program.** The Senate would cut \$50 million from the \$125 million requested. A reduction of this magnitude

would extend the construction schedules at Pine Bluff, Umatilla, Aberdeen, and Newport and increase life-cycle costs. The Administration is committed to meeting the Chemical Weapons Convention 2007 deadline for the destruction of U.S. chemical stockpiles and to developing alternatives to current incineration technology. To support these objectives, the Administration urges the conferees to approve the House funding level for this important program.

NATO Security Investment Program. The House would cut \$16 million from the \$185 million request, and the Senate would cut \$32 million. Although the House level is preferable to the Senate level, we urge the conferees to provide the full amount requested.

#### Language Issues

The Administration is concerned with the language in the Senate bill that would restrict the use of NATO construction funds. In addition, the Administration urges the conferees to provide the requested transfer authorities.

Restriction on the use of NATO Security Investment Program (NSIP) funds. The Senate bill would prohibit the use of NSIP funds for Partnership for Peace programs or to provide support to non-NATO countries. No NSIP funds have been, or are proposed to be, spent on projects that do not have direct military benefit to the Alliance. Indeed, NSIP-funded proposals for projects that happen to be located in non-NATO countries must meet the same NATO military criteria as NSIP projects located in the 16 NATO member nations. The Alliance must have the flexibility to allocate NSIP funds as needed to satisfy NATO military requirements. Restrictions of the type included in the Senate bill could invite other NATO members to restrict their NSIP contributions according to narrow national concerns. The restriction could adversely affect future NATO-led military operations. The Administration urges the conferees to remove this restriction from the bill.

General Transfer Authority. Neither the House nor the Senate bill includes the requested authority enabling the Secretary of Defense to transfer funds within the appropriation accounts in the Military Construction Appropriations Act. Similar transfer authority in Defense Appropriations Acts has been used with great success to meet unplanned requirements, without reducing the opportunity for congressional oversight.

Homeowner's Assistance Program Transfer Authority. The Administration supports the provision in the Senate bill that would provide authority to transfer funds from the Base Realignment and Closure account to the Homeowner's Assistance Program account. The provision would ensure that funds are available to assist Government employees who have to sell their homes in depressed real estate markets resulting from base closures.

We look forward to working with the conference committee to address our mutual concerns.

Sincerely,

Jacob J. Lew  
Acting Director

Identical Letter Sent to The Honorable Bob Livingston,  
The Honorable David R. Obey, The Honorable Ron Packard,  
The Honorable W.G. Hefner, The Honorable Ted Stevens,

TEXT:

Food Safety Vote in the Senate

On Thursday afternoon, Senator Harkin offered an amendment to restore \$68 million for funding of your food safety initiative. The amendment received strong bi-partisan support and passed 66-33. We worked closely with the Senate and consumer groups in promoting the amendment, and the Los Angeles Times published a strong editorial in support of your program. Rahm worked with the press office to put out a statement emphasizing this as a victory for good government over partisanship, and we will continue to work with the news media to stress the importance of this issue in conference. Senator Harkin's amendment required USDA's tobacco program administrative costs to be fully-funded by the tobacco industry, and used the savings to offset the cost of expanded food safety programs for both USDA and FDA.

TEXT:

Below is the draft VA/HUD House Floor SAP assuming passage of the rule which is pending on the House floor right now. The language is identical to the House Rules SAP cleared & released yesterday except for the HUD sections in bold text. Please respond with comments/clearance by 1:30pm (general debate begins after T/P action is completed). Thanks.

H.R. 4194 DEPARTMENTS OF VETERANS AFFAIRS AND  
HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES APPROPRIATIONS  
BILL, FY 1999

(Sponsors: Livingston (R), Louisiana; Lewis (R),  
California)

This Statement of Administration Policy provides the Administration's views on H.R. 4194, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Bill, FY 1999, as reported by the House Appropriations Committee. Your consideration of the Administration's views would be appreciated.

The Administration appreciates efforts by the Committee to accommodate certain of the President's priorities within the 302(b) allocation. However, the allocation is simply insufficient to make the necessary investments in programs funded by this bill. As a result, critical programs are not funded or are underfunded, in particular, key Presidential priorities such as funding for National Service, Superfund, and climate change. Furthermore, the Administration is very concerned that the Committee has included problematic language regarding the Kyoto Protocol and other issues. Finally, the Administration understands that an amendment will be offered to include unacceptable provisions now contained in H.R. 2, such as those relaxing income targeting. If the bill were presented to the President without responding to these concerns, the President's senior advisers would recommend that he veto the bill.

The only way to achieve the appropriate investment level is to offset discretionary spending by using savings in other areas. The President's FY 1999 Budget proposes levels of discretionary spending for FY 1999 that conform to the Bipartisan Budget Agreement by making savings in mandatory and other programs available to help finance this spending. In the Transportation Equity Act, Congress -- on a broad, bipartisan basis -- took similar action in approving funding for surface transportation programs paid for with mandatory offsets. We want to work with the Congress on mutually agreeable mandatory and other offsets that could be used to increase high-priority discretionary programs, including those funded by this bill.

Below is a discussion of our specific concerns with the Committee bill. We look forward to working with the House to resolve these concerns as the bill moves forward.

#### Corporation for National and Community Service

The Administration strongly objects to the termination of the Corporation for National and Community Service, one of the Administration's top priorities. Eliminating funding for the Corporation would deny more than 49,000 Americans the opportunity to serve as AmeriCorps members in projects such as America Reads, the Administration's effort to raise student literacy through the use of tutors to supplement the school day activities. In addition, over one million students of all ages would forego the chance to participate in service learning activities in their schools and neighborhoods. The funding level in the Committee bill for the Corporation for National and Community Service is unacceptable.

#### Environmental Protection Agency

The Administration has several major concerns with the Committee's mark for the Environmental Protection Agency. In particular,

the Administration strongly objects to the \$593 million, or 28-percent, reduction to the President's request for Superfund, which would delay cleanups at sites nationwide and needlessly jeopardize public health. In addition, the Administration opposes the \$16 million, or 18-percent, reduction to the request for brownfields funding as well as restrictive bill language that would hamper achievement of brownfield cleanups by preventing their use for removals, cleanups, and revolving loan funds. The Administration urges the House to restore Superfund to the requested level and to delete the restrictive brownfields language.

The Administration strongly opposes the Committee's \$106 million reduction in EPA funding for the Climate Change Technology Initiative. This high-priority program should be funded fully to cut energy usage, save consumers money, and reduce greenhouse gas emissions. We will work with the Congress to restore requested funding as the bill moves forward.

The Administration strongly opposes bill and report language relating to the Kyoto Protocol that applies to the EPA and the Council on Environmental Quality. While the Administration could not and would not implement the Protocol until it is ratified, the bill language could be interpreted broadly to prevent activities that limit greenhouse gases -- for example, through enhancing energy efficiency -- but that are authorized under current law. The report language also inappropriately purports to prevent the Executive Branch from engaging in educational and outreach activities related to treaty negotiations and other aspects of climate change. The Administration opposes this and other riders because they inappropriately use the legislative process by denying the public and Members of Congress the opportunity to examine and debate these proposals openly.

The Administration appreciates the Committee's providing full funding for the President's Clean Water Action Plan, which is designed to prevent pollution run-off and protect public health. The Administration urges the Committee to provide the full \$50 million request to help improve water quality in Boston Harbor and prevent beach closings.

The Administration is concerned with the large number of unrequested, earmarked projects in the Committee mark for EPA, particularly when the Committee has reduced several other high-priority Administration initiatives, including right-to-know programs, Montreal Protocol, GLOBE, and Mexican border wastewater treatment funding.

#### Department of Housing and Urban Development

The Administration understands that an amendment will be offered to add H.R. 2, the Public Housing Reform and Responsibility Act of 1997, to the bill. H.R. 2 includes unacceptable provisions. For example, by changing the income targeting at admission for public and Section 8 assisted housing, H.R. 2 would shift subsidies from the poorest families, many of whom are working, to families with incomes sufficient to have greater housing choices. Such provisions would increase homelessness and hardship at a time when record numbers of Americans cannot afford even basic housing. The Administration supports reasonable measures to encourage a range of incomes in public housing and thereby reduce concentrations of poverty. The Administration can find no rationale, however, for relaxing the income targeting of Section 8 subsidies that can be used throughout a community. We must not allow those with the most desperate housing needs to be left out in the name of housing reform.

The Administration is concerned about the funding levels provided

for key programs of the Department of Housing and Urban Development, particularly for welfare-to-work housing vouchers and other programs, such as the Community Empowerment Fund, that would expand job opportunities.

The Administration appreciates the Committee's decision to fund 17,700 incremental "Welfare-to-Work" housing vouchers. The Administration would strongly support an amendment to increase the number of welfare-to-work housing vouchers to help more families get or keep a job. Indeed, with millions of families needing to make the transition from welfare to work, and in light of recent studies that show historically high unmet housing needs among very low-income Americans, the Administration believes it is critical for the Congress to fund the entire 50,000 welfare-to-work housing vouchers provided for in the President's request. Welfare-to-work housing vouchers will support implementation of welfare reform by assisting those welfare recipients who need housing assistance to get or keep a job.

The Administration also encourages the Congress to fund fully the President's request for \$400 million for an Economic Development Initiative Community Empowerment Fund to generate jobs in distressed communities. The Committee has cut the request by \$350 million, providing only \$50 million, as a set-aside within the existing CDBG program.

The Administration appreciates the Committee's decisions to fund a number of programs at the levels requested, including the Partnership for Advancing Technologies in Housing (PATH) initiative, and to renew all expiring Section 8 contracts. The Administration is encouraged that the Committee has provided funding for half the President's request for Regional Opportunity Counseling, a voluntary effort to expand the housing and employment opportunities available to low-income families. We urge full funding of the President's request for this program. We are also pleased by the Committee's decision to provide \$80 million for the Office of Lead Hazard Control, to reduce the risk of childhood lead poisoning and other health hazards. The Administration encourages the Congress to fund fully a number of other areas -- Homeless Assistance, Brownfields, and Regional Connections--and to end the ninety-day delay in reissuing of Section 8 certificates/vouchers on turnover.

The Administration is very concerned that the Subcommittee has not included language extending the repeal of one-for-one replacement for public housing. Without this language, the bipartisan goal of demolishing 100,000 of the worst public housing units by FY 2003 may not be achieved.

The Administration is pleased with the Committee's decision to support an audit-based enforcement initiative for the Fair Housing Initiatives program. We urge the Congress to fund fully this critical fair housing initiative to reduce the level of housing discrimination.

The Administration urges the Congress to adopt the Administration's proposal to reform HUD's single-family property disposition program, which would produce substantial savings by improving the efficiency of FHA's property disposition processes and would permit the Committee to provide additional resources to critical Committee programs. Finally, the Administration understands that there will be an effort to eliminate the provisions in the bill that increase the FHA loan limit. The Administration strongly opposes such an effort. The Administration urges the Congress instead to provide greater homeownership opportunities by increasing the FHA loan limit to the "conforming" limit.

The Administration appreciates the modest increase over the FY 1998 level provided for the Council on Environmental Quality (CEQ). However, we strongly believe that in order to allow CEQ to carry out its environmental mission and reinvention efforts, the full requested level should be provided, and language prohibiting use of detailees should be deleted.

#### Community Development Financial Institutions Fund

The Administration strongly urges the Committee to fund the Community Development Financial Institutions Fund at the requested level. The Committee's decision to reduce the request by \$45 million would severely reduce the Fund's ability to leverage investments, loans, and financial services in the country's most distressed communities.

#### National Aeronautics and Space Administration

The Administration is concerned with the Committee's reductions to the requests for the International Space Station, Space Shuttle, and Earth Science programs. Full funding in FY 1999 for Space Station is critical as the United States and our International Partners are in a peak period of development and integration, and proceeding toward First Element Launch later this year. Further, the Administration is particularly concerned about bill language prohibiting the use of funds for the Triana project. Triana offers a unique opportunity to educate and engage students in all phases of the mission. Its observations could potentially be used in meteorology and environmental monitoring, as well as for commercial purposes. The Administration will work with the Congress to enable restoration of funding for these priority programs as the bill proceeds. The Administration is also concerned over the large number of unrequested site-specific earmarks, which would have the effect of circumventing the competitive, peer review process and are paid for, in part, with serious reductions to priority programs.

#### Federal Emergency Management Agency

The Administration appreciates the level of funding provided by the Committee for the Federal Emergency Management Agency. However, we believe that the \$20 million reduction to the President's request for pre-disaster mitigation grants is shortsighted. These grants would help reduce the cost of future disasters by leveraging local and private-sector support for enhanced mitigation efforts at the State and community level. We urge the Committee to fund fully the President's request for this important initiative. In addition, we urge the Committee to approve our recent request for funding to help States and communities prepare for potential terrorist incidents involving chemical and/or biological weapons.

#### National Science Foundation

Given the budget constraints facing the Committee, the Administration appreciates the effort to provide a \$268 million increase over the FY 1998 level for the National Science Foundation (NSF). Nevertheless, the Administration is concerned with the reduction to the request for education and human resources and the elimination of funds for the proposed Polar Cap Observatory and NSF funds for the GLOBE program. The Administration is firmly committed to NSF's research and education activities, which not only promote scientific advancement but also contribute to economic development. We strongly urge the Congress to provide the full increase requested for NSF for its research, equipment,

and education activities.

#### Neighborhood Reinvestment Corporation

The Administration is pleased by the Committee's decision to provide the President's full request for the Neighborhood Reinvestment Corporation (NRC). The NRC has a proven, successful record of leveraging private sector resources to promote homeownership and helping strengthen America's communities. This funding would provide an additional \$25 million for a homeownership initiative that seeks to create 10,000 new homeowners through FY 2000.

#### Consumer Product Safety Commission

The Administration opposes bill language that would block the Consumer Product Safety Commission's ability to promulgate rules to reduce the flammability of upholstered furniture. This language intrudes upon CPSC's ability, as well the ability of other agencies, to carry out their responsibilities. Furthermore, these efforts to block the development of a new safety standard represent a threat to public health.

#### Potential Amendment Related to Peer Review

The Administration strongly opposes an amendment that may be offered mandating peer review of "scientific data" supporting final regulations. The Administration is committed to using the best possible science and peer review for rule-making. However, this amendment is unnecessary, inappropriate, and wasteful. Peer review is currently incorporated in the Government-wide rule-making process, where it is needed, through extensive outreach, public comment, and scientific advisory boards. As drafted, this amendment would mandate a one-size-fits-all requirement that would serve only to delay important government action, in particular, rules designed to protect health safety and the environment. It would impose a costly additional step in the regulatory process and could cover a large, heterogeneous set of rules, as diverse as meat and poultry inspection rules, airplane and automobile safety standards, FDA drug and device approvals, and rules to ensure safe drinking water and clean air. This would impose an undue burden on numerous final rules by requiring substantial personnel and other resources and could result in significant delays on important public health and safety rules.

TEXT:

The memo below was signed and sent to Erskine Bowles on Wednesday, July 15th.

MEMORANDUM FOR ERSKINE BOWLES

THROUGH: Jack Lew

FROM: Donald R. Arbuckle

SUBJECT: Heads up on HHS Notice Defining Federal Public Benefit and DOJ Proposed Rule on Verification of Eligibility for Public Benefits

HHS and DOJ are preparing to publish two documents in the Federal Register (an HHS notice and a DOJ proposed rule) that will provide the framework for implementing key provisions in the 1996 Welfare Reform Law, banning the receipt of Federal public benefits for non-qualified (largely illegal) aliens.

The HHS notice presents for the first time the Administration's interpretation of the definition of a Federal public benefit and provides a list of the HHS programs so defined. To date, programs have been operating without knowing whether they fall under the definition. In the notice, only those Federal programs that have an explicit eligibility determination process are defined as public benefit programs. This definition thus includes programs like Medicare, child care and the Child Health Insurance Program, but excludes public health clinics.

The DOJ proposed rule requires Federal public benefit programs to verify alien and citizenship status. The rule is mandatory for Federal Public Benefit programs, but is optional guidance for State and local programs. Charities are exempt. The law requires these programs to conduct matches with an INS database of eligible aliens to verify alien status. The rule would require applicants to provide written proof of their citizenship, unless the agency already has regulations in place governing citizenship verification. The rule also provides a temporary waiver for those programs where written verification would present a hardship, to allow programs time to comply with the new rule.

We believe that as a combined policy, the definition and the verification requirements form a fairly middle ground position and should be generally well received. We cannot, however, rule out a surprise response, from Congress or the field.

I am writing to express my concern over the Congress's unprecedented effort in recent weeks to restrict safe reproductive choices for women. It is regrettable that some Members of Congress have chosen to pursue a series of initiatives designed to create a political issue at the risk of increasing unintended pregnancies and abortions and of compromising women's health and safety.

I have long said that I believe abortion should be safe, legal, and rare. All of the proposals being offered would restrict safe medical choices. Some would actually restrict access to family planning information and services and could have the perverse effect of increasing the number of unintended pregnancies and abortions. I urge the Congress to put partisan politics aside and instead put women's health and safety first.

First, I am very disappointed that the House struck Congresswoman Lowey's proposal to require health plans participating in the Federal Employees Health Benefits Program to cover all FDA approved prescription contraceptives. The Lowey proposal would have improved basic health care coverage for many women and helped reduce unwanted pregnancies and the need for abortion.

Second, I strongly object to the amendment to impose restrictions on international family planning programs. By prohibiting foreign non-governmental organizations from receiving United States funds if the organization uses any non-US government funds for abortion-related services, the amendment jeopardizes funding to health care providers who are working to meet the growing demand for family planning and other critical health services in developing countries. Moreover, requiring recipients of US funds to refrain from advocating changes or even calling attention to alleged defects in abortion law would interfere with lawful free speech and the ability of organizations to participate in the democratic processes of their own countries. Ultimately, the result of this amendment's provisions could also be an increase in unintended pregnancies, abortions, and maternal and infant death.

Third, I find it deeply disturbing that Congress would take the unprecedented step of intervening in the Food and Drug Administration's drug approval process by banning funding for the approval or testing of drugs such as RU-486. For years, the FDA has used vigorous testing and the highest scientific standards to protect public health. This amendment substitutes political ideology for sound science. It would restrict scientific research that can protect women's lives and offer them safe medical choices.

Fourth, I am disappointed that the House chose to reject the changes that I proposed to the Child Custody Protection Act. As my Administration conveyed to Congress, I would support properly crafted legislation that would make it illegal to transport minors across state lines for the purpose of avoiding parental involvement requirements. I have repeatedly stated that I would sign a bill if it were amended to exclude close family members from criminal and civil liability and to ensure that individuals who provide only information, counseling, referral, or medical services to the minor cannot be subject to liability. As amended in this way, the legislation would prevent the circumvention of state parental involvement laws, while ensuring healthy family communications. Unfortunately, the Congress has ignored these proposed changes, as

well as those designed to address constitutional infirmities in particular provisions identified by the Department of Justice. In doing so, this Congress has demonstrated that it is not truly interested in passing legislation, but only in creating another partisan political issue.

Finally, Congress is again indicating that it will turn the difficult debate over so-called partial birth abortions into an opportunity to score political points, rather than to pass legislation restricting this procedure. I have long opposed late term abortions, and I believe that we generally should prohibit the use of this procedure. I have insisted, however, on exempting those few but tragic cases in which this procedure is necessary to save a woman's life or to protect her against serious injury to her health. I again call upon Congress to add such a narrow, tightly drawn exception to this bill, so that I can sign it and put an end to all other uses of this procedure.

I urge Congress to move beyond ideology and political maneuvering, to abandon extremism, and to protect women's lives and health, while reducing the need for abortion. Congress's current course would remove appropriate reproductive choices for women, seriously jeopardize their health, and very possibly increase the frequency of abortions. I will strongly oppose these efforts.

TEXT:

I get the sense that we are not really focusing on when to do the Coverdell veto. I don't have a particular opinion -- other than, if we do it as an event, we don't do it at the AFT event or any other union-related event. But you might want to adjust the timing to avoid those events. Deadline is July 25.

Is somebody thinking about this?

TEXT:

Here are the options we've come up with. We'd like feedback today as to which to put in the weekly.

1. Agree to Wellstone's concept of 24 months of college counting under the voc ed cap, but limit the number of hours of college that count as work. Since the number of hours of work the law requires grows over time (20 hrs per week in '98, 25 hrs in '99, and 30 hrs in 2000 and thereafter), the options are many: We could say students always have to work at least 5 or 10 hours a week; or we could say 10 or 20 hours per week of college counts.

Pro's: Keeps principle that people are working, just for fewer hours while bettering themselves.

2. Agree to Wellstone, but say that vocational education would remain limited to 12 months per person, even though college would count for up to 24 months. (This could be combined w/#1.)

Pro's: Corrects Wellstone mistake of loosening up on voc ed and allowing people to cycle through such programs for up to 2 years.

3. Agree to Wellstone, but say that only part of the 30% ed cap can be college -- i.e., one-third or one-half.

Pro's/con's: Would limit the damage, but any sub-limit has the disadvantage of seeming pretty arbitrary.

4. Use the back-door route of easing up on separate state programs for college. The NPRM says that if we prove that a state is diverting non-working people into separate state programs so that they can make the work participation rate, we reserve the right to add back those separate state program people in computing the participation rate, potentially subjecting the state to a penalty. We could now say that, if we find they're not working because they're in college, we won't add them back in.

Pro's: Maintains our rhetoric that we are not weakening the federal work requirements.

Con's: could be bigger exemption than Wellstone;  
confusing;  
creates precedent on separate state programs;  
procedurally complex, since the NPRM is our creation  
and is only a proposed rule; could we announce this in  
advance of the final TANF rule?

5. Agree to Wellstone's 24 months for voc ed, but not for college, on the theory that there is some overlap between community college and voc ed anyway, and that this language would allow for career-oriented community college degrees.

Pro's: Appears more limited

Con's: Doesn't get credit for college change, while opening up potential voc ed abuses

6. Amend the law to allow waivers of the work requirement for college.

Pro's: Very limited

Con's: Not clear if we are saying this needs to be tested via demonstrations, or that we think we need to look over states' shoulders as they do this, raising specter of the bad old days of federal oversight. Plus Cynthia hates it.

**PRESIDENT CLINTON:  
A GOOD AND BI-PARTISAN PATIENTS' BILL OF RIGHTS**

July 16, 1998

**Automated Records Management System  
Hex-Dump Conversion**

*"We cannot spare another moment in securing passage of a strong, enforceable Patients' Bill of Rights. To do that, we must work together. To protect our families, to save them from the needless suffering that pains us all, we need a bipartisan approach -- not partisan bills that are about political positioning."*

President Bill Clinton

July 16, 1998

Today, President Clinton joins Democratic and Republican members of Congress on Capitol Hill to support passage of a good and bipartisan Patients' Bill of Rights. The President will also highlight the bipartisan approach to this issue taken by Reps. Greg Ganske (R-IA) and John Dingell (D-MI).

**PRESIDENT CLINTON CALLS ON CONGRESS TO PASS AN ENFORCEABLE PATIENTS' BILL OF RIGHTS.** President Clinton is working to protect Americans and guarantee Americans fundamental protections in health care decisions. For nine months the President has been urging Congress to pass a Patients' Bill of Rights. In February 1998, the President signed an Executive Memorandum directing the federal health plans overseeing 85 million Americans to implement the Patients' Bill of Rights. The President has said that Patients' Bill of Rights legislation must meet the following objectives:

- **Guaranteed Access To Needed Health Care Specialists;**
- **Access To Emergency Room Services When And Where The Need Arises;**
- **Continuity Of Care Protections To Assure Patient Care** will not change abruptly if their provider is dropped;
- **Access To A Timely Internal And Independent External Appeals Process** for consumers to resolve their differences with their health plans;
- **A Limit On Financial Incentives To Doctors;**
- **Assuring That Doctors And Patients Can Openly Discuss Treatment Options;**
- **Assuring that Women Have Direct Access To An OB-GYN;**
- **An Enforcement Mechanism That Ensures Recourse For Patients** who have been maimed or die as a result of health plan actions.

**THE PRESIDENT'S PLAN HAS BROAD SUPPORT.** President Clinton's plan has been endorsed by many groups, including the American Medical Association, National Breast Cancer Coalition, AIDS Action, and others who believe, as the President does, that medical decisions should be made by patients in consultation with their doctors and nurses.

**REPUBLICAN PROPOSALS DO NOT PROVIDE ADEQUATE PATIENT PROTECTIONS.** Republicans are supporting legislative policies that fall short of providing essential protections, for example, they:

- **Do Not Guarantee Access To Specialists.**
  - **Do Not Limit Or Require Disclosure Of Financial Incentives For Doctors.** Patients should not be put at risk through unknown financial incentives given to doctors to limit patient care.
  - **Do Not Compensate Patients Who Are Maimed Or Die As A Result Of A Wrongful Health Plan Action.**
  - **Do Not Provide 100 Million Americans The Patient Protections They Need.** Republican proposals only apply to those in self-insured plans. Some 100 million Americans would only receive the protections they need if every state passed every protection into law.
- **States Patients' Rights Laws Do Not Provide The Protections Patients Need.** A report released today by Families USA shows that no state has passed all of the protections in the Patients' Bill of Rights, and most states have only passed a few of these protections.
- **Millions of Americans Working In Small Businesses Would Not Be Covered.** Most Americans who work in small businesses would not be protected by the Republican proposal, which explicitly excludes them.

**THE PRESIDENT'S LEADERSHIP IS HELPING ENSURE BASIC HEALTH CARE PROTECTIONS FOR AMERICANS.** Americans need to be ensured that important protections, like access to a health care specialist or the emergency room is guaranteed. President Clinton has already extended these rights and others to 85 million Americans in federal health plans, now it is time for Congress to act so all Americans can be guaranteed these vital protections.

Thanks.

## Promoting Discipline in Our Schools

Automated Records Management System  
Hex-Dump Conversion

### School Uniforms

- **Spreading school uniform policies across the country.**

Recent push by schools to adopt uniform policies. Since President Clinton highlighted school uniforms in 1996, a large number of schools and school districts have adopted uniform policies to improve student discipline, attendance, and school climate.

The Department of Education's National Center for Education Statistics estimates that 34% of public schools with mandatory uniform policies initiated their policy in the 1996-97 school year.

The 1998 NAESP survey of principals in 10 states shows that 11% of elementary schools require uniforms, and 15% are considering a policy. Almost two-thirds of schools with policies adopted them in the last two years.

In March 1998, the Education Commission of the States reported that 26 states have school uniform or dress code policies -- nearly double the number in 1996 (14). These policies allow school districts to institute uniform or dress code policies.

Many of nation's largest school districts moving first on uniforms. Some of the nation's largest cities have adopted school uniform policies, including: New York City, Dade County, San Antonio, Houston, Chicago and Boston. In New York City alone, this will mean 560,000 elementary school students in the nation's largest school system will have school uniforms by fall of 1999.

- **School uniforms are helping to improve school attendance and school safety in Long Beach, CA:**

School attendance hits all-time high. In the 1995-96 school year -- the third year school uniforms were required -- attendance at the Long Beach Unified School District K-8 schools reached the highest point ever recorded during the 17 years the district compiled these statistics. With excused absences for illness added in, attendance exceeded 99%.

School crime dramatically reduced. Between the 1993-94 school year (before uniforms were required) and the 1996-97 school year, total school crime plummeted 76%. Fighting dropped by 51%; sex offenses declined by a stunning 93%; robbery/extortion decreased by 85%, chemical substances are down by 72%; and weapons offenses decreased by 83%.

### Youth Curfews

- **Keeping kids off the street -- and out of trouble -- with community curfews.** Curfews are designed to help keep children out of harm's way, enhance community safety, and give parents an important tool to impart discipline, respect, and rules.
- **A key part of a community effort to keep our children safe.** In May 1996, President Clinton released a Justice Department report on curfews which shows that curfews, when backed by a community of support and are part of a larger plan to help fight juvenile crime, can play an important role in keeping our children safe. The Justice report reviewed the impact of curfews in 7 selected jurisdictions (Dallas, Phoenix, Chicago, New Orleans, Denver, North Little Rock, and Jacksonville). Highlights include:

The New Orleans program combines a curfew, a summer jobs program and the revitalization of recreation program -- and resulted in a 27% reduction in juvenile crime during curfew hours in 1994, compared with the previous year.

The Dallas program allows for fines of both parents and children. Juvenile arrests during curfew hours decreased 14.6%.

North Little Rock, provides sports activities and academic tutoring. Juvenile violent arrests during curfew hours decreased 12%.

Denver's curfew program works in partnership with 234 different community programs. The law enforcement community believes it contributed significantly to the 11% drop in serious crime during the program's first two years.

- **Curfews are in effect in a majority of the Nation's largest cities.** In a December 1997 survey released by the U.S. Conference of Mayors, 276 -- 80% -- of 347 cities surveyed had youth curfew laws, up from 70% in 1995. A 1998 update surveyed 18 cities with curfews in place for two years or less. The survey found:

*55% report a decrease in crime since curfew implementation, with an average 26.8% decrease in crime during enforcement hours.*

*88% believe that curfews are a useful tool in curbing juvenile crime.* Some of the reasons cities cited are that curfews: provide police with authority to remove juveniles from the streets, allow parents to set standards and police to monitor juvenile activity, and prevent youth from becoming perpetrators or victims of crime.

*72% of cities report no problems with implementation of the curfew, and 77% responded that there were no new costs associated with enforcing the curfew.*

- **Truancy is a gateway to crime, drugs, and alcohol.** High truancy rates are linked to high rates of daytime burglary and vandalism. The Office of Juvenile Justice and Delinquency Prevention Study Group on Serious and Violent Juvenile Crime found that truancy is one of the major risk factors leading to serious and violent crime. The Justice Department's 1997 annual report on Drug Use Forecasting from the Arrestee Drug Abuse Monitoring Program reported that drug use is higher among detained male juveniles who were not in school, with higher rates of marijuana and cocaine use, as compared to juvenile males still in school.
- **Anti-truancy efforts can have an impact on absenteeism, classroom-related incidents, and crime.** In furtherance of the President's effort to focus national attention on anti-truancy measures, the Education Department provided several grants to local school districts to develop innovative truancy prevention programs in the 1996-97 school year. Highlights from the anti-truancy efforts include:

*Los Angeles Unified School District.* The Truancy Prevention and Dropout Recovery Project is in effect in 24 schools in the district. During the first full year of the program, the attendance level jumped two full percentage points to 90.1, as compared to the 1995-96 school year. This means that 400\* more kids were in class -- and not unsupervised.

*Roanoke, VA.* This program is a collaborative effort between the City Public Schools, City Department of Social Services, and Juvenile and Domestic Relations Court. During the first year of the project, the number of students missing school for 25 or more days in the targeted schools decreased by an average of 35%. During the second year, the number decreased by 28%.

*Philadelphia School District.* The Weapons Reduction and Truancy Help (WRATH) initiative helped to increase school attendance by over two percentage points in the 1997-98 school year. In addition, the number of students arrested for weapons offenses dropped by nearly 40% -- from 194 in 1995 to 119 in 1998.
