The 4th sentence in the attached statement has been revised slightly to say "without such a commitment" rather than "without such legislation". Cut and paste version is below.

THE WHITE HOUSE
Office of the Press Secretary

Embargoed until 4:00pm Thursday April 1, 1999

STATEMENT BY THE PRESIDENT

Today, the Centers for Disease Control and Prevention is publishing promising new results from the youth anti-smoking program launched by the late Florida Governor Lawton Chiles. The study shows that in just one year, smoking has declined by 19 percent among middle school students and by 8 percent among high schoolers. These results show why every state should have a comprehensive program to reduce youth smoking and why I oppose any legislation waiving the federal government's claim to tobacco settlement funds without making a commitment from the states to fund such efforts. Without such a commitment, states won't have to spend a single penny of the \$246 billion settlement to reduce youth smoking. We must act now: every day, 3000 children become regular smokers and 1000 will have their lives cut short as a result.

Q: Why did the Vice President ask that the Health Care Financing Administration (HCFA) to review its proposals to implement OASIS?

A: The President, the Vice President, and the Secretary are extremely committed to assuring that patients have strong privacy protections. The Vice President and others were concerned that the plans for OASIS did not adequately protect patient privacy.

At the request of the Vice President, HCFA has agreed to do a comprehensive review of the privacy issues related to the new proposal to collect data on home health patients -- to assure that home health care achieves the necessary balance between preservation of privacy and the statutorily required provisions to improve the quality of care provided to beneficiaries receiving home health care services, and to ensure that providers are paid fairly.

The agency is now planning to explore new ways to protect patient privacy in this area, such as speeding up the encryption of data and eliminating the use of identifiable data for non-Medicare and non-Medicaid patients.

The Administration a strong commitment to ensure the confidentiality of medical records, and demand that states and providers carefully safeguard confidential information. We are proud of our record in this area and will continue to work diligently to protect patient privacy.

Meehan has about 20 democratic cosponsors lined up for the Meehan/Hansen bill. Still waiting on republicans...

His office is also working on a letter to the appropriations conferees opposing the senate provision. They hope to get the task force members to sign it.

They and Hansen are holding a briefing with the task force members staff next week with HCFA and outside groups to talk about what the states are planning to do with the money and why the Administration must allow the states to sue on their behalf and seek 1/2 of the settlement funds.

Folks--comments were due 3/26. While it is true that the President's attention has been directed elsewhere these last ten days, at some point soon he will be focused on the book. Therefore, we need all of your

comments to Todd by Monday, April 5 (copy to me, please). We want to schedule some time next week for the President on this matter and having everyone's comments in will help us structure how to best utilize his limited time. Thank you all very much for your prompt attention to this matter. Remember we are down the home stretch--the end is in sight; please help us get there.

To give all of our children the educations they need for the 21st Century, all of our public schools must be safe. That is why I am pleased today to announce that the Departments of Justice, Education, and Health and Human Services are launching a a new \$380 million Safe Schools-Healthy Students Initiative. This initiative will help 50 communities across the country to develop safe school plans with more school resource officers, more anti-truancy initiatives, and more conflict resolution programs to help prevent youth violence before it starts. Working together, we can keep our children safe in and out of school. Thank you.

I am sending you a copy of the brief in opposition to certiorari in Grijalva, filed a couple of days ago.. As expected, the advocates argue (pp. 13-21) that the role of HMOs in Medicare is very different from that of the insurance companies in worker's comp and that Sullivan doesn't change anything. The cases they cite are Medicaid cases rather than Medicare cases, raising the possibility that the SG's reply, if he and HHS want to, can try to separate Medicare from Medicaid on state action. Harriet Rabb says they have a new theory on this, which she will discuss with me.

DRAFT 4/1/99

TITLE X – PROGRAMS OF NATIONAL SIGNIFICANCE

SECTION-BY-SECTION ANALYSIS

PART A- FUND FOR THE IMPROVEMENT OF EDUCATION

Section 1001 of the bill would amend Part A of Title X of the ESEA, which authorizes funds to support nationally significant programs and projects to improve the quality of elementary and secondary education, to assist students to meet challenging State content standards and challenging State performance standards, and to contribute to the achievement of America's Education Goals.

Section 1001(1). Section 1001(1)(A) of the bill would amend section 10101(a) of the ESEA to stress that the Fund for the Improvement of Education (FIE) is a program focused on improving elementary and secondary education.

Section 1001(1)(B). Section 1001(1)(B) of the bill would amend section 10101(b) of current law by shortening and strengthening the list of authorized uses of funds. Authorized activities would include: (1) research, development, demonstration, evaluation, or other activities designed to improve the quality of elementary and secondary education; (2) activities to promote community participation in the planning, design, and use of new and existing schools; (3) the development, implementation, and evaluation of programs designed to foster student community service, encourage responsible citizenship; and improve academic learning; (4) the identification and recognition of exemplary schools and programs, such as Blue Ribbon Schools; (5) joint activities with other agencies; (6) programs under section 10102 and section 10103(Character Education); (7) activities to study and implement strategies for creating smaller learning communities; and (8) other programs, including physical education programs, that meet the purposes of this section.

Section 1001(1)(C). Section 1001(1)(C) of the bill would change section 10101(c) of the ESEA to require an applicant for an award under this section to establish clear goals and objectives for its project and describe the activities it will carry out in order to meet these goals and objective. It would also require recipients of funds to report to the Secretary such information as may be required, including evidence of its progress towards meeting the goals and objectives of its project, in order to determine the project's effectiveness. This change would emphasize the Department's desire to ensure that the effectiveness of all funded projects can be fully assessed. This language is also aligned with the performance indicators in the FIE plan under GPRA.

This section would also allow the Secretary to require recipients of awards under this Part to provide matching funds from sources other than Federal funds, and to limit competitions to particular types of entities, such as State or local educational agencies.

Section 1001(1)(D). Section 1001(1)(D) of the bill would amend section 10101(d) of the ESEA to authorize such sums as may be necessary to carry out this Part through fiscal year 2005.

Section 1001(2). Section 1001(2) of the bill would repeal section 10102 of the ESEA.

Section 1001(3). Section 1001(3) of the bill would make substantial changes to section 10103 of the ESEA, relating to Character Education. It would provide for more funding flexibility by removing the limit of 10 grants per year and \$1 million limitations on SEAs under current law, and authorize the Secretary to make up to 5-year grants to SEAs, LEAs, or consortia of educational agencies for the design and implementation of character education programs. These programs would be required to be linked to the applicant's overall reform efforts, performance standards, and activities to improve school climate. Allowing LEAs and consortia of educational agencies to apply would increase flexibility to fund innovative programs in school districts where the State is not interested in making an application.

Section 1001(3) of the bill would also streamline the application requirements under current law. The application would include: (1) a description of any partnership and other collaborative effort between the applicant and other educational agencies; (2) a description of the program's goals and objectives; (3) a description of activities to be carried out by the applicant; (4) a description of how the programs will be linked to broader educational reforms being instituted by the applicant, State and local standards for student performance, and activities that are being carried out to improve school climate; (5) a description of how the applicant will evaluate its progress in meeting its goals and objectives; and (6) any other information the Secretary would require.

Paragraph (3) would further require each recipient of a grant to submit a comprehensive evaluation on the effectiveness of its program in achieving its goals and objectives, including the impact of the program on students, teachers, administrators, and parents, to the Secretary, by the mid-point of the program, and no later than one year after completion of the program.

Finally, section 1001(3) of the bill would require the Secretary to make awards under this section that serve different areas of the Nation, including urban, suburban, and rural areas.

Section 1001(4). Section 1001(4) of the bill would redesignate section 10103 of the ESEA, as amended by section 1001(3), as section 10102, and add a proposed new section 10103.

Specifically, proposed new section 10103 would authorize a new program, under which the Secretary could make awards to SEAs, LEAs, IHEs, tribal organizations, and other public or private agencies to carry out research, development, dissemination,

technical assistance, and evaluation activities that support character education programs under new section 10102 of the ESEA.

The proposed new section 10103(b) of the bill would authorize funds under this section to be used to: (1) conduct research and development activities; (2) provide technical assistance to the agencies receiving awards under the program, particularly on matters of program evaluation; (3) conduct a national evaluation of the character education program; (4) compile and disseminate information on model character education programs, character education materials and curricula, and research findings in the area of character education; and (5) any other information that would be useful to character education program participants, and to other educators and administrators, nationwide.

Section 1001(5). Section 1001(5) of the bill would repeal sections 10104, 10105, 10106, and 10107 of the current law.

PART B-GIFTED AND TALENTED CHILDREN

Section 1002 of the bill would reauthorize and make minor improvements to Part B of title X of the ESEA, which provides financial assistance to State and local educational agencies, institutions of higher education, and other public and private agencies to build a nationwide capability in elementary and secondary schools to meet the special educational needs of gifted and talented students.

Section 1002(1). Section 1002(1) would make a technical change to the program's short title.

Section 1002(2). Section 1002(2) of the bill would amend section 10204(c) of current law to require the National Center for Research and Development in the Education of Gifted and Talented Children to focus the dissemination of the results of its activities to schools with high percentages of economically disadvantaged students. This modification would help to overcome the Centers current lack of targeting on low-income schools and school districts.

Section 1002(3). Section 1002(3) of the bill would add a new provision that would authorize the Secretary to evaluate the effectiveness of the programs under this Part.

Section 1002(4). Section 1002(4) of the bill would amend section 10207 of the ESEA to authorize such sums as may be necessary to carry out this Part through fiscal year 2005.

PART D – ARTS IN EDUCATION

Section 1003 of the bill would reauthorize and streamline Part D of title X of the ESEA, which provides financial assistance to support education reform by strengthening arts education as an integral part of the elementary and secondary school curriculum.

Section 1003(1). Section 1003(1) of the bill would strike out the heading of subpart 1 of current law.

Section 1003(2)(A). Section 1003(2)(A) of the bill would amend section 10401(d) of the ESEA by adding a new authorized activity, model arts and cultural programs in the arts for at-risk children and youth, particularly programs that use arts and culture to promote students' academic progress, to the list of authorized activities of the Arts in Education program.

Section 1003(2)(B). Section 1003(2)(B) of the bill would amend section 10401(f) of the ESEA to authorize such sums as may be necessary to carry out this Part through fiscal year 20005.

Section 1003(3). Section 1003(3) of the bill would repeal subpart 2 of current law. This subpart has never been funded and the addition of the authorized activity in section 10401(d) of the ESEA, noted above, would provide a more flexible authorization for projects serving at-risk children and youth.

PART E –INEXPENSIVE BOOK DISTRIBUTION PROGRAM

Section 1004 of the bill would reauthorize without change Part E of title X of the ESEA, which supports Reading is Fundamental, which distributes inexpensive books to students to motivate them to read.

PART F – CIVIC EDUCATION

Section 1005 of the bill would reauthorize and streamline Part F of title X of the ESEA, which authorizes a program to educate students about the history and principles of the Constitution of the United States, including the Bill of Rights, and to foster civic competence and responsibility.

Section 1005(1). Section 1005(1) of the bill would repeal section 10602 of current law. This program, Instruction in Civics, Government, and the Law, was defunded several years ago.

Section 1005(2). Section 1005(2) of the bill would amend section 10603 of the ESEA to authorize such sums as may be necessary to carry out this Part through fiscal year 2005.

Section 1005(3). Section 1005(3) of the bill would make conforming amendments to the Part.

PART G –ALLEN J. ELLENDER FELLOWSHIP PROGRAM

Section 1006. Section 1006 of the bill would repeal Part G of title X of the ESEA.

PART I – 21st CENTURY COMMUNITY LEARNING CENTERS

Section 1007 of the bill would reauthorize and improve Part I of title X of the ESEA, which authorizes grants to rural and inner-city public schools to plan, implement, or expand projects that benefit the educational, health, social service, cultural, and recreational needs of a rural or inner-city community.

Section 1007(1)(A). Section 1007(1)(A) of the bill would amend section 10903(a) of the ESEA by adding language to current law to clarify that the Secretary may award grants to local educational agencies and community based organizations (CBOs) (with up to 10% of the funds appropriated to carry out this part for any fiscal year) on behalf of public elementary or secondary schools in inner-cities, rural areas, and small cities. In both cases, awards would be limited to schools or CBOs that serve communities with a substantial need for expanded learning opportunities due to their high proportion of low-achieving students and lack of resources to establish or expand community learning centers.

Section 1007(1)(B). Section 1007(1)(B) of the bill would retain the provision in section 10903(b) of current law requiring equitable distribution among urban and rural areas of the United States, but would delete the provision requiring equitable distribution among States and urban and rural areas of a State.

Section 1007(1)(C). Section 1007(1)(C) of the bill would amend section 10903(c) of the ESEA to change the duration of grants awarded under this Part from 3-years to 5-years.

Section 1007(2). Section 1007(2)(A) of the bill would amend section 10904 of the ESEA to change the eligible applicant for a grant under this Part from a school to a local educational agency (which would apply on behalf of schools) or a community-based organization.

Paragraph (2)(A) would also add new language to current law to require the applicant to provide information that it will provide at least 50 percent of the annual cost

of project activities from non-Federal sources (which may be provided in cash or in kind), and in the fourth and fifth years of its project, to increase the percentage of the project's cost that is paid for by funds other than those received under this Part. The applicant would also be required to provide an assurance that in each year of the project, it will expend, from non-Federal sources, at least as much for the services as it expended for the preceding year. This addition to current law would allow the program to leverage greater amounts of funding, by requiring a 100 percent match in the first three years and an increasing match over the following two years, and would ensure that grantees do not use Federal funds to replace funds from other non-Federal sources.

Paragraph (2)(B) would amend section 10904(b) of the ESEA to require the Secretary to give priority, in all competitions, to applications that offer a broad selection of services that address the needs of the community, that offer significant expanded learning opportunities for children and youth in the community, and that contribute to reducing drug use and violence.

Paragraph (2)(C) would add new language to section 10904 of the current law to require an application submitted by a CBO to contain evidence that affected LEAs concur with the project. It would also allow the Secretary to waive the requirement of 10904(b)(4)(A) and permit an applicant to satisfy not more than 50 percent of the required match with other Federal funds awarded by the Secretary.

Section 1007(3). Section 1007(3) of the bill would amend section 10905 of the ESEA to require that applicants provide expanded learning opportunities and eliminate the requirement that applicants include at least four of the activities listed in this section. Instead, applicants must provide educational activities and may provide a range of other services to the community.

Section 1007(4). Section 1007(4) of the bill would amend section 10906 of the ESEA to clarify the definition of "community learning center" as an entity that provides expanded learning opportunities, and may also provide services that address health, social service, cultural, and recreational needs of the community.

Section 1007(5). Section 1007(5) of the bill would amend section 10907 of the ESEA to authorize such sums as may be necessary to carry out this Part through fiscal year 2005.

Section 1007(6). Section 1007(6) of the bill would add a proposed new section 10908 to the ESEA that allows the Secretary to use funds appropriated under this Part to make continuation awards for projects that were funded with fiscal year 1998 and 1999 funds, under the terms and conditions that applied to the original awards. This provision has the effect of allowing the Department to provide continuous funding for the last year of 3-year grants made in fiscal year 1998 under the provisions of current law.

Section 1007(7). Section 1007(7) of the bill would redesignate Part I as Part G and make appropriate section number changes.

PART J - URBAN AND RURAL EDUCATION ASSISTANCE

Section 1008. Section 1008 of the bill would repeal Part J of the ESEA.

PART K – NATIONAL WRITING PROJECT

Section 1009. Section 1009 of the bill would reauthorize and improve Part K of title X of the ESEA, which authorizes a grant to the National Writing Project for the improvement of the quality of student writing and learning, and the teaching of writing as a learning process.

Section 1009(1). Section 1009(1) of the bill would amend section 10991 of the ESEA to update the findings.

Section 1009(2). Section 1009(2) of the bill would amend section 10992 of the ESEA to authorize the Secretary to conduct an independent evaluation of the program administered pursuant to this part. It would also authorize such sums as may be necessary to carry out this part for fiscal years 2001 through 2005.

Section 1009(3). Section 1009(3) of the bill would redesignate Part K as Part H.

INTERNATIONAL EDUCATION EXCHANGE

Section 1010 of the bill would reauthorize and make a minor change to the International Education Program found in title VI of Goals 2000: Educate America Act.

Section 1010(1). Section 1010(1) of the bill would amend section 601 of Goals 2000, by adding the Republic of Ireland and Northern Ireland to the definition of “eligible country”, as well as any other emerging democracy in a developing country.

Section 1010(2). Section 1010(2) of the bill would authorize such sums as may be necessary to carry out this part for fiscal year 2001 through 2005.

Section 1010(3). Section 1010(3) of the bill would redesignate the International Education Exchange Program as Part C of title X of the ESEA.

Attached is a list of three potential panel participants for the Equal Pay Event: (1) the woman professor who spearheaded the study at M.I.T.; (2) a business that is good on recruiting and hiring women and paying them equally; and (3) a comparable worth woman, who is a union member and works for the State of Minnesota. We are still looking for one other panel participant -- an older woman who is struggling in her retirement because she was not paid equally during her career. Ann Lewis thought that we couldn't have more than four persons other than the President and the First Lady on the panel and that if Secretary Herman were on the panel, then we could only have three women on the panel. (I think Herman is going to lobby heavily to get on the panel). Ann Lewis also had this vision that we should have a woman starting her career, one in the middle of her career, and a woman in retirement. While we don't have a woman young in age, I think both the MIT professor and the Minnesota woman can speak to the issues of a woman starting her career. The MIT study found that young professors felt like they were treated equally, but that as they progressed in their careers, they felt marginalized. The Minnesota woman got a pay raise early in her career, which allowed her to quit her second job and helped her to decide to stay on the state payroll.

I am in the process of getting these people vetted. Let me know if you think they are alright. Is there anyone else you think I should send them to (Karen or Ann)? Thanks, Mary

Potential Panel Participants for Equal Pay Event

Professor Nancy Hopkins, molecular biologist, Massachusetts Institute of Technology

Professor Hopkins was the initiator of the effort at M.I.T. to study gender discrimination in the School of Science. At the beginning of her career at M.I.T, Professor Hopkins felt that she was treated equally with the male faculty members. However, even after learning somewhat fortuitously that she was 20 percent underpaid, she did not really believe that she was being discriminated against, albeit unintentionally. However, in 1994 after seeing how other women were treated, Professor Hopkins joined forces with the only 14 other tenured women faculty vs. 194 tenured male faculty in the School of Science to see whether their situations were unique. These woman found that they shared common experiences, and the university agreed to set up a committee to study how female faculty were treated in the School of Science. The committee found that senior female faculty members were marginalized; were not given sufficient space or resources for their research; and were not paid equally. Recently, M.I.T. published the report of the committee and has made concerted efforts to correct these disparities. Professor Hopkins believes that the success of this initiative stemmed, in large part, from the collaboration between the school and the professors in trying to identify and solve the problem. Professor Hopkins continues to try to expand this effort to the entire university.

United Technologies Corporation (UT), Hartford, Connecticut

UT is a federal contractor, which is unionized and manufactures high technology products such as elevators, helicopters, and air conditioners. UT has won the highest award at Department of Labor in 1998 -- the Secretary's Opportunity 2000 award. UT tries to provide excellent opportunities for women in several areas. In hiring, UT extensively recruits women for non-traditional fields such as engineering and provides a slating process to ensure that women and minorities are considered for new hires. In trying to retain its workforce, UT conducts ongoing salary reviews in each business unit to ensure that women and minorities are being paid equally. In addition, UT offers several "family friendly" benefits such as flextime, childcare, eldercare, and telecommuting. UT also offers an "Employee Scholar" program where it provides tuition reimbursement and paid leave for employees to pursue degrees. Upon complete of a degree program, UT provides a stock award. In the area of career development, UT tries to keep qualified women and minorities in the pipeline for upper-level jobs by ensuring that women and minorities are slated as potential successors and receive the training they need. In setting wages, UT does a factor analysis which looks at the tasks involved, the responsibility level, and skills needed. UT believes that these policies are a business necessity in order to attract and retain workers and remain profitable.

Anna Marie Rodriguez Krueger, Administrative Secretary, Minnesota Department of Revenue

Ms. Krueger is a member of AFSCME and the "comparable worth" story. She has worked in the Minnesota Department of Revenue since 1977. In 1982, at the age of 23, Ms. Krueger joined a strike of clerical workers for three weeks in order to get a pay raise. As the result of a new collective bargaining contract, Ms. Krueger received a pay raise over two years from \$6.50 per hour to \$8.94 per hour, with some of the raise a regular increase and the rest a pay equity adjustment. As the result of this raise at an early stage of her career, Ms. Krueger was able to

quit her part-time job as a travel agent. Since that time, Ms. Krueger has been promoted to the top of the clerical rank. Ms. Krueger did not know the details of how the pay equity adjustment was reached (that her female-dominated job was compared with an equivalent male-dominated job); she just seemed happy that she received a raise. She recalled that after she returned to work after the strike, the other workers treated her and the other clerical workers with more respect.

Democratic Patients' Bill of Rights Event in Philadelphia. Next Friday, you are scheduled to participate in a multi-state, multi-state Congressional Democratic event in Philadelphia to receive an Internet-based petition calling for the Congress to pass a strong enforceable patients' bill of rights. In addition to announcing this petition, which will already have thousands of participants and is intended to attract over one million, you can announce the OPM "call letter" that will require all participating FEHBP insurers to come into full compliance with the patients' bill of rights. Among other provisions this action will ensure that every FEHBP plan will have new continuity of care protections. This event, long requested by the Democrats, provides you with another opportunity to call on the Congress to pass a strong patients' bill of rights and to contrast it with the weak proposal which was passed out of the Senate Labor Committee shortly before the recess.

Response to your request for information on the Medicare annual cap on patient services. The \$1500 cap on Medicare outpatient physical therapy and other rehabilitative services was included as part of the Balanced Budget Act of 1997. We opposed this because of our concern about the potential adverse impact on chronically ill beneficiaries. However, Congressman Thomas insisted that it be included in the final package. Providers and advocates are now arguing that this cap is problematic and a recent study shows that almost 13 percent of Medicare beneficiaries exceed the cap each year and are left with significant out-of-pocket expenditures. Senator Grassley has proposed legislation to allow Medicare beneficiaries to receive services above the cap if they have an illness that will clearly require additional services. However, this proposal may prove to be quite costly. We are requesting that it be scored and are reviewing alternatives.

Nationwide Medicare Toll-Free Line. On Thursday, HHS went nationwide on their new toll-free telephone line, 1-800 MEDICARE, designed to respond to the numerous questions that beneficiaries have about their new options. Callers can talk to a customer service representative in English or Spanish to get general information about Medicare; get updated information about Medicare health plan options in their community; get specific quality and satisfaction information or other complex questions about health care. The new toll-free line is part of the National Medicare Education Program passed in the Balanced Budget Act, a comprehensive effort to help Medicare beneficiaries better understand the new health care options that are part of Medicare+Choice.
