- 6) Who is your favorite actor of the last 100 years? Why? Favorite actress? Why?

*Boogie* - he was great at drama & comedy.  
 - he was great as a good guy and a bad guy.  
 - he was eclectic with Bacall, teaming with Hepburn, Peck in *Sweet Madam*.

*Shirley* - she becomes the character she plays.  
 her absent air presence; her silence is better; her expressions can make you cry.

- 1. *High Noon*. The hero is terrified all time but does the right thing anyway.
2. *Chaplain*. It has love, honor, courage, a wonderful setting, a story to die for, and Bergman.
3.  *Gone with the Wind*. The greatest epic film ever made, with a great human story of love and loss.
4. *Schindler's List*. The finest presentation of the systematic horror of Nazi evil, and the simple power of love and courage and decency moving the spirit of an otherwise ordinary man to stand against it.
5. ~~Indiana Jones~~ - *Raiders of the Lost Ark*. The best cheap thrill movie ever.
