FOIA request 2007-0277-F contains materials from the White House Office of Records Management (WHORM) Subject Files and White House Staff and Office Files, Presidential Personnel, Phillip Koh. The topic of this FOIA request concerns the nomination of Ortrie D. Smith for the U.S. District Judge for the Western District of Missouri. The records include memorandums, letters, and press releases concerning Smith's nomination and confirmation.

## **System of Arrangement**

Records that were responsive to this FOIA request were found in Clinton Presidential Records: WHORM Subject Files and White House Staff and Office Files.

The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject file was compiled by the White House Office of Records Management and is a series of categories designated by a letter/number combination.

Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

WHORM files are processed at the document level; whereas, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The following is a list of documents and folders processed in response to FOIA 2007-0277-F:
