For Immediate Release

March 26, 1993

Attached is a list of the members of the working groups for the President's Task Force on Health Care Reform.

## HEALTH CARE REFORM WORKING GROUPS

The attached list sets forth the participants in the health care reform working groups. There are three categories, and only full time government employees and special government employees are members of the working groups. Congressional staff on this list serve as liaison for their Member of Congress to the working group. Consultants are not members of the working groups.

The three categories of participants are:

### 1. Full-Time Government Employees--

Individuals who work for the Executive Office of the President, for federal agencies, for Members of Congress or Senate and House committees. Federal employees are subject to the conflict of interest provisions in 18 U.S.C. Section 202-209 and Standards of Ethical Conduct for Employees of the Executive Branch and all related ethics laws and regulations.

### 2. Special Government Employees--

a. Individuals who are employed by any agency or the Executive Office of the President for less than 130 days in a 365 day period either with or without compensation. Such individuals are subject to a limited version of the conflict of interest provisions in 18 U.S.C. Section 202-209 and Standards of Ethical Conduct for Employees of the Executive Branch and all related ethics laws and regulations for the period of time they serve on the working group. Furthermore, they are required to abide by limitations on public speaking and by post-employment restrictions. Such individuals may serve as working group leaders.

b. **Consultants**--Individuals who are consulted by the working group and who attend working group meetings on an intermittent basis with or without compensation. These consultants are subject to some provisions of 18 U.S.C. Section 201-208 and Standards of Ethical Conduct for Employees of the Executive Branch and all related ethics laws and regulations. Such individuals have no decision-making authority within the working groups and may not serve as working group leaders and have other limitations on their participation.
