The Education Resources Institute

November 11, 1996

Dear Colleague:

TERI<sup>®</sup> is pleased to provide you with our most recent publication *Life After Forty, A New Portrait of Today's and Tomorrow's Postsecondary Students*. The study finds that students over the age of 40 have become a major influence on postsecondary education and training.

With this study TERI continues its commitment to analysis and discussion of major policy issues in finance and education. I hope you will share with us any comments or reactions which could help us in further studies.

Sincerely,

Ernest T. (Ted) Freeman  
President and Chief Executive Officer
