SUBJECT: Item #3 - Restitution to France DATE: 8 December 1948

(Number each memo or minute consecutively. Fill in each column, signed legibly, draw a line across the sheet. Use entire width of sheet for long memoranda.)

No.	From	Pass to	Date	HAS THIS PAPER BEEN COORDINATED WITH ALL CONCERNED?
1.	Chief, FED, APO 757	OFA, OMGUS, APO 742	3 Dec 1948	1. Attached hereto is revised Annex A, in duplicate, covering Shipments 2D and 2E. It is requested that you substitute this Annex A for the one forwarded to you with our IRS of 21 September 1948. Revision was made necessary by a final check of all material involved, resulting in a few additions and changes. 2. In compliance with your letter of 2 November 1948, data on this item were forwarded on 5 November 1948 to the Restitution Control Branch, Property Division, for their consideration and action. No reply having been received from them, a follow-up IRS was sent on 29 November. 3. Reply under date of 1 December has been received from Restitution Control Branch. Photostats of their IRS and accompanying documents are attached. 4. With regard to the statement made by RCB in Para 3 of their IRS, that "If FIB reports are accurate the property under discussion is clearly restitutable to France", it is our belief that such reports are accurate. 5. Accordingly, authorization to release to France will be appreciated by this office. If you share our opinion it is presumed that you will coordinate with Reparations and Restitution Branch, Berlin, as requested in Para 4 of RCB letter. Edwin P. Keller EDWIN P. KELLER Acting Chief Foreign Exchange Depository

REF. No.:

the Free Port of New York at Staten Island (excluding those items which have no intrinsic value), where it could be quickly examined by PCIRO appraisers in the presence of OMGUS or FED representatives. This would avoid the delay and expense which PCIRO would otherwise incur in arranging for the return of its appraisers and staff to Europe for the sole purpose of examining the proposed transfer.

8. If OMGUS cannot agree to the shipment of the property to New York for examination, PCIRO will make available its appraisers and staff at FED Frankfurt, or any other place designated by OMGUS, for examination of the property included in the proposed transfer. The earliest date at which PCIRO can arrange for the return of its staff to Europe would be the second half of September.

9. With respect to other items not mentioned in this communication, and which upon examination at the time of transfer PCIRO experts deem to be of no intrinsic value, PCIRO reserves the right not to accept such items. This is essential to the transfer operation, since PCIRO has had considerable experience in the disposal of property heretofore received from FED, and has found that unneccessary and substantial expenses were incurred by it in disposing of worthless items which should not have been transferred to PCIRO under the exception set forth in para 4 of the directive.

10. PCIRO will appreciate serious consideration of the proposal that the next transfer of property be made in the Free Port of New York. It is recognized that this proposal may involve some difficulties for OMGUS, but if they can be overcome it would expedite the transfer and result in substantial saving of expenses to PCIRO.

Very truly yours,

MEMO SLIP

Date 6 Oct. 1947

TO: Mr. Bennett -

FROM:

Mr. Keller also recd. this same cable in Fkft. On the basis of conversation with you last Friday, Keller is prepared to to ahead with the turnover to IRO since this cable (which was sent as a result of Keller-Schwarts telecon) leads him to believe that Mr. Wenzel has sufficient authority, which was the point of issue as far as he was concerned. Fitch saw this cable and raised the question of whether or not we should request an authenticated signature (as in the case of banks). He could call IRO in Geneva if you feel this needs to be determined.
Mr. Keller said that if he does not hear from you to the contrary today, he will proceed with the turnover.

OFFICE OF THE EXECUTIVE SECRETARY
BUREAU DU SECRÉTAIRE EXÉCUTIF

14 May 1948

TO: Col. Wm. G. Brey,
Chief, Foreign Exchange Depository,
OMGUS Frankfurt

FROM: Abba P. Schwartz,
Reparations Director

SUBJECT: Contemplated transfer of additional non-monetary gold to PCIRO under JCS Non-Monetary Gold Directive

In order to accomplish a speedy and economical transfer of the additional non-monetary gold briefly described in the memorandum which you left at this office on May 6th, and which your representatives at the F.E.D. have discussed with Mr. George Wenzel, PCIRO Reparations Officer, it is suggested that the following procedure will be satisfactory to PCIRO.

1) With respect to looted currencies, Mr.Wenzel will verify the amount of US dollars, Swiss francs, and any other currencies which he deems of some value. With respect to the remaining currencies, the F.E.D. count will be accepted. Footnotes A. and B. of "Schedule B" of the receipt dated 17 March 1948, covering previous looted currency transfer, should be incorporated in the receipt for the present transfer of looted currencies.

2) With respect to the jewellery, including diamonds, semi-precious stones and other items, PCIRO will accept the description of such items as given by F.E.D., and will agree upon a "tentative agreed valuation", if the receipt for such jewellery items includes a footnote along the following lines:

"The quality and description as listed is that of the Foreign Exchange Depository only, and is accepted by PCIRO subject to their subsequent verification upon examination by PCIRO experts. The valuation is agreed to by PCIRO as a "tentative agreed evaluation", and is subject to subsequent verification by US Customs appraisers and PCIRO appraisers."

COMMISSION PRÉPARATOIRE
POUR
L'ORGANISATION INTERNATIONALE POUR LES RÉFUGIÉS
GENÈVE, SWITZERLAND · PALAIS DES NATIONS

OFFICE OF THE EXECUTIVE SECRETARY
BUREAU DU SECRÉTAIRE EXÉCUTIF

3) With specific reference to valuation of jewellery, especially diamonds and semi-precious stones, it is requested that F.E.D. do not insist upon high valuations which have no relation to current US market prices, since no useful purpose is served either to PCIRO or F.E.D. It has been PCIRO's experience in connection with Customs entry of diamonds and semi-precious stones, previously transferred by F.E.D., into the U.S. that the valuations were excessively high in relation to US current market prices and served no purpose except to retard and make more difficult the entry of the goods into the United States. It required weeks of extensive re-examination of all the gems by the Customs appraisers. This resulted in a reduction of more than 40% of the tentative agreed valuations in order to conform to current US market prices.

4) With respect to silver coins, PCIRO will agree to valuation based upon the weight of fine silver content times present market value (approx. $24 per kilo of .999 fine)

5) With respect to previous metals, PCIRO will accept a tentative agreed valuation based upon weight of gold and approximate fineness times present market value (approx. $35 per ounce of 24 carat gold.)

6) With respect to numismatic coins, PCIRO will accept the F.E.D. evaluation as a "tentative agreed evaluation".

7) With respect to other metal items, valuation will be tentatively agreed with F.E.D. by PCIRO representative George Wenzel.

8) With respect to securities, the form followed in "Schedule C" of the receipt dated 17 March 1948 is satisfactory to PCIRO, with the exception that PCIRO feels that it is not within the terms of the JCS non-monetary gold directive for it to accept securities which are in the name of any individual, since such securities do not appear to be unidentifiable as to ownership and PCIRO has found that they cannot be disposed of in any market. It prefers, therefore, not to accept transfer of any securities in the name of any individual.

9) With respect to such items as alarm clocks, pocket books, and certain types of tableware, it is PCIRO's experience, based upon liquidating the property previously transferred by F.E.D. that most of such items have no intrinsic value and therefore should be excluded from transfer to

PCIRO under para 4 of the JCS non-monetary gold directive. It is requested, therefore, that such items of no intrinsic value should not be transferred to PCIRO.

10) It is requested that F.E.D. advise PCIRO by cable when the necessary receipt forms are prepared and the property is actually ready for transfer. PCIRO representative George Wenzel will be available at the F.E.D. to accept transfer within 24 hours of receipt of this requested notice.

SUBJECT: Assets set aside for delivery to IRO DATE: 10 Aug 1948

(Number each memo or minute consecutively. Fill in each column, signed legibly draw a line across the sheet. Use entire width of sheet for long memoranda.)

No.	From	Pass to	Date	HAS THIS PAPER BEEN COORDINATED WITH ALL CONCERNED?
1	FED OMGUS APO 757	OFA OMGUS APO 742	10 Aug 48	1. A careful review of the remaining assets in the vaults of the FED discloses various lots concerning which identification is deemed impossible or impracticable and which in our opinion may properly constitute a second turnover to IRO. 2. The general content of these lots, and brief data as to origin and circumstances of acquisition to extent revealed by our files are listed below by shipments. 3. A representative of the IRO will visit this office in the near future to arrange for the examination and acceptance of subject assets which have been segregated together with pertinent inventory forms. 4. If approved the turnover will be made based on individual inventory forms from which our usual Annex A will subsequently be prepared and submitted for preparation of release letter.

Shipment No	Remarks
1	One lot of wedding rings originally part of Melmer loot not disposed of on first delivery to IRO because included in Howard Report and held in vault compartment at that time under seal.
16	A small amount of silver and metal coin previously overlooked when bulk of this shipment which originated from Buchenwald Concentration Camp was turned over to IRO.
18 E	Personal effects of PWs from Stalag Luft VIII-C which were unidentifiable as to owner or country of origin.
21 A	Jewelry and currency apparently loot found hidden in a factory, stated to have been accumulated by Dr. Ernst Kaltenbrunner, Obergruppenfuehrer, Lt. Gen. of Police in Berlin.
21 B	Two bags various coins stated to have been removed from a PW camp near Weilheim, Bavaria.
21 D	Eight bags various coins stated to have been found by US Forces in the NSDAP office in Salzburg, Austria.
27 E	Several pieces ordinary jewelry reportedly found near Austrian border buried in a ravine. Location disclosed by a Major in the S.S. Corps who disclaimed ownership.
31	A substantial quantity of miscellaneous watches, rings, cigarette cases etc. which together with gold coin, bullion, and currency are stated to have been removed from Reichsbank, Berlin, by order of Dr. Ernst Kaltenbrunner to be hidden in mountains of southern Germany (where found) for purpose of

SUBJECT: Second Turnover to IRO (Item No. 33 and 42) DATE: 6 October 1948

(Number each memo or minute consecutively. Fill in each column, signed legibly, draw a line across the sheet. Use entire width of sheet for long memoranda.)

No.	From	Pass to	Date	HAS THIS PAPER BEEN COORDINATED WITH ALL CONCERNED?
1.	FED APO 757 US Army	OFA OMGUS Berlin APO 742 US Army	6 Oct 1948	1. Attached is Annex A in duplicate covering "Non-Monetary Gold" assets deliverable to International Refugee Organization under cable directive WX-85682, November 1946. The portion thereof comprising Item No. 33 was described in our IRS of 10 Aug 1948, subject: "Assets set aside for delivery to IRO" to which you replied on 25 August 1948, authorizing this office to undertake preparatory steps for release. Subsequently Item No. 42 comprising silver bullion as listed on page 2 of the Annex A opposite Fed Form No. 1104 was ascertained to be of Melmer loot origin, unidentifiable as to ownership, and therefore also properly deliverable to IRO. 2. The above Annex A does not include all the material which was offered IRO inasmuch as various assets of low intrinsic value were rejected by their representative. A listing in duplicate of the rejected material is also attached with draft of statement to be signed by IRO representative. 3. Pursuant to a recent discussion at this office during which the F.A. gave verbal authorization to effect delivery to IRO against signature, however, of properly empowered representative, this office phoned IRO and in reply received cable from W. Hallam Tuck, IRO Director General, authorizing George Wenzel to receive, and also, in latter's discretion, to reject "Non-Monetary Gold" assets. It is understood that similar cable was also received by OFA. 4. Trusting that proposed action and supporting documents meet with approval of F.A. this office would appreciate written authorization as promptly as possible in order to cooperate with IRO to meet an early sailing date.

OFFICE OF MILITARY GOVERNMENT FOR GERMANY (U. S.)
APO 742

FILE NO:
SUBJECT: Release from I.R.O.

NO.	TO	FROM	DATE	(Has this been coordinated with all concerned?)
1	OFA	LD	13 Oct 48	Attn: Mr. Fitch

1. Reference is made to your oral request on this date for the opinion of this Division regarding a proposed release to be executed by an officer of the International Refugee Organization with respect to certain assets rejected by that organization. It is understood that subject assets are in the possession of the Foreign Exchange Depository and that the I.R.O. has rights to the assets which it desires to relinquish.

2. We suggest the following language as a satisfactory release of the subject assets:

"In consideration of the agreement by U. S. Military Government to retain in its possession the property described in the list marked Annex A and attached hereto, I, George Wenzel, Reparations Officer for the International Refugee Organization, acting for and on behalf of the International Refugee Organization, do hereby expressly waive and release all rights and claims whatsoever of the International Refugee Organization to such property. I certify that I am expressly authorized by the International Refugee Organization to execute this waiver and release.

Sworn to and subscribed before me

this _____ day of October 1948

at _____.

George Wenzel
Reparations Officer
International Refugee Organization"

3. This Division has not, of course, attempted to determine whether Mr. Wenzel has in fact the authority to execute this release and waiver. It is also noted that, in spite of the recital in the release, there may well be no consideration for the execution of this document and that, accordingly, the release may be of no legal efficacy whatever.

SECURITIES (Account No. 17)

Shipment No.	Location in Vault	Description	Remarks
1		Stocks, bonds, saving-bank-books and other securities in the deposit called "Melmer-Deliveries".	Shipment came from Merkers-Mine. The securities constitute part of the SS-loot, deposited formerly in Reichsbank Berlin. Individual ownership impossible to determine.
6		1 sealed envelope containing approx. 3.5oo.000.000 French francs in certified checks drawn on bank of France by Reichskreditkasse	Shipment came from Reichsbank Nordhausen. The statement of contents had been given by Reichsbankdirektor WILTZ, Leading Director of Reichskreditkasse/Main-Administration, Berlin. Information as to the ownership if desired probably obtainable from WILTZ.
17		1 package containing foreign securities from German Custom Office.	Shipment came from Reichsbank Magdeburg. Cmdr FISHER states in his report that the examination of this depot revealed foreign securities of Holland, Spain, Switzerland and other countries. More indications are not at hand.
20		a) 2 envelopes said to contain securities b) 119 cases said to contain stocks and bonds.	Shipment includes valuables deposited by Nationalbank of Hungaria in Spitel on-Pyhrn-Austria. The records in shipment folder only reveal the following details: Re a) said to be safe-keeping items of the Hungarian Nationalbank without any indication as to the ownership. Re b) said to be deposited by customers of the bank without any further indication.
23		1 box and 4 bags said to contain among others securities.	Shipment came from the Reichsbank Holzminden. There are no more indications as to source, contents or ownership of the items.

Ship-ment No.	Loca-tion in Vault	Description	Remarks
25		3 packages said to contain foreign currency and securities. The securities consist of shares, stocks, bonds or only of coupon-sheets issued by enterprises or banks in America, Netherlands, Tyrol, German speaking parts of Czechoslovakia etc. There are also included Checks, coupons and savings-bank-books.	Shipment came from Reichsbank Halle. The specified records of the bank in the shipment folder show that the securities are deliveries according to Law 52.
26		9 suitcases and 4 wooden boxes said to contain jewellery and securities.	Shipment came from Reichsbank Regensburg. According to a report of Ministry of Finance of Czechoslovakian Government in shipment folder the securities are property of persecuted Czechoslovakian citizens, which had been confiscated by the German Government and administered by "Staatliches Vermoegensamt" in Prague. Indications as to the species of securities are not given. The register is in the hands of Ministry of Finance of Czechoslovakian Government, Prague.
27		1 box said to contain foreign currency, stocks and bonds. The securities consist of: Pesetas 71.000. 5% preferred stocks and bonds of Compana Hispano-Americana de Electricidad - 142 pieces each of an Original Par-Value of 500 Pesetas with coupons 38 to 60 incl.	Shipment had been turned over by the 7th U.S. Army. According to attached statements in the shipment folder the valuables had been found in the neighborhood of Oberbichl, near Reichenhall, Bavaria, where they had been located by the German 2nd SS-Mountain-Div. More indications as to the ownership of the items are not at hand. Statement of contents had been prepared by 101st Airborn Div. Numbers and series of securities look list in shipment-folder.

Ship-ment No.	Loca-tion in Vault	Description	Remarks
88		2 bags said to contain currency and securities. According to a photostatic inventory attached to reports in shipment folder the securities consist of funds of South-American countries, of bonds of the province of Buenos Aires, of the English War-Loan and the English Funding Loan. 1 envelope said to contain RM 400.000 of "Schatzanweisungen des Deutschen Reiches" 5½% bonds dated 18 Sept 43 and due 16 May 1965. Coupons of all bonds are said to be dated from 16 Nov 45 to 16 Nov 1953.	Shipment was turned over by the 3rd U.S. Army. According to a statement in shipment folder the items had been found on a farm near Erlangen/Unterfranken, where they had been located by the order of Reichsminister and Gauleiter of Holland, Seyss-Inquart. It is presumed that the valuables belonged formerly to the Government of the Netherlands or that they might constitute part of requisitioned Jewish property in Holland. - The two bags include 3 packages marked 1, 2, 3, and 1 sealed envelope.
89		38 boxes, 2 bags, 1 package said to contain foreign exchange assets, which presumably involve securities.	Shipment came from the Provisional Military Government Detachment "A", Leipzig. According to a statement in shipment folder the contents of all containers are the foreign exchange assets of the affiliated banks of the Reichsbank Leipzig and had been delivered under Law 53 with forms MGAK(2 Original copy of the forms will be found with the individual boxes containing the assets.

Shipment No.	Location in Vault	Description	Remarks
34		a) 5 bags said to contain property delivered under Law 53 form MGAX(2). The securities consist according to records of Reichsbank Koethen if shipment folder of Russian, Austrian, Hungarian, Sudetes and Danzig bonds as well as of 5 savings-bank-books and of coupon-sheets of Austrian shares. b) 30 bags or boxes said to contain property delivered under Law 53 form MGAX(2) to Reichsbank Dessau. Securities are listed together with other valuables in the specified records in shipment folder prepared by Reichsbank Dessau. c) 2-½ truck loads said to contain securities and to come from Delitzsch. d) 1 bag believed to contain securities from Bitterfeld.	Shipment had been turned over by Military Government Detachment (Prov)2 The records in shipment folder prove that all items, listed in para a)and b) are deliveries under Law 53. Some probability is given that the leadings under c)and d) contain similar effects. In case c) HQ Mil.Gov.1702 expresses his opinion that none of the assets originate in Delitzsch,but all were brought in from other towns and merely stored in Delitzsch pendin Re-shipment. Indications as to the kinds or to the ownership of these securities are not to be found in shipment folder. The circumstances i case d) are likewise unknown.
35		2 sealed bags said to contain among others 7 coupons of 4% Steyr-Daimler-Puch bonds of 1942 and 7 shares of Ferdinand Nordbahn Company, Prague with coupons sheets and talons.	Shipment came from Reichsbank Nordhausen and was turned over by Detachment HEB30F9 U.S.Army. The records in shipment folder reveals tha the items are deliveries according to Law 53. Indications as to the ownership are not at hand.
36		7 packages said to contain currency and securities. According to detailed records in shipment folder packages No.4&5 include securities consisting of shares, stocks, bonds, coupons, checks, etc.	Shipment came from Reichsbank Eisenach and was turned over by Mil.Gov. Detachment H1C9.The specified record of the bank in shipment folder prove that all items are deliveries under Law 53.The records also give exact indications as to type and amounts o securities as well as to ownership.

CARRIER SHEET — MUST REMAIN WITH ATTACHED PAPERS — USE ENTIRE WIDTH OF SHEET — NUMBER ITEMS CONSECUTIVELY — DRAW LINE UNDER EACH ITEM

OFFICE OF MILITARY GOVERNMENT FOR GERMANY (U.S.)
APO 742

FILE NO.
SUBJECT: French Property Removed by the Devisenschutzkommando

NO.	TO	FROM	DATE	(Has this been coordinated with all concerned?)
1.	FED APO 757	Rest. Br., PD APO 403	1 Dec. 1948	

1. The documentation attached to your 5 November C/S was examined by this office and it was determined that the French Restitution Mission has filed no claim for the property listed therein.

2. We are attaching hereto documentation submitted by the French Mission with respect to the looting activities of the Devisenschutzkommando in France. We note that this documentation does not list as victims of the DSK looting the banking firms listed in your Annex A. In this connection, it should be pointed out that the French documentation is not considered complete as it was drawn up only on the basis of such records of the DSK as were left in France, which documentation appears to be limited to the DSK activity in the Paris area. Your Annex A listing, on the other hand, covers, for the most part banking firms outside of the Paris area. This office, consequently, has no basis for judging restitutability of this property in terms of documentation submitted by the French Mission.

3. In paragraph 3 of your 5 November C/S, you state, however, that Financial Intelligence Branch reports indicate that the property under discussion was "evidently" removed from French banks sometime around 9 August 1944. This statement appears moreover, to be supported by the separate markings indicating, in almost all cases, French ownership of this property. If the FIB reports are accurate, the property under discussion is clearly restitutable to France under present restitution directives and we would support the restitution thereof.

4. Since no claim has been filed for this property by the French Mission it is requested that this problem, after referral to the Finance Advisor, be coordinated with the Reparations and Restitution Branch, Berlin, with a view towards having this matter accepted as a meritorious claim.

5. We would appreciate your returning the attached documentation to this office by 15 December so that Receipts and Releases might be issued, if agreement is reached to restitute the property under consideration.

Devisenschutzkommando in France (D.S.K.)

The files of the Devisenschutzkommando in France have been incorporated in the National Archives for the Research Department of War Criminals (subordinated to the Ministery of Justice) simultaneously with the Archives of the MBdF for Eads and Alsace.

On June 14 th 1940 the branches of the Devisenschutzkommando after taking possession of the premises of the Bank Lazard, 5 rue Pillet-Will, Paris, sent round a circular to all banks of Paris and the Seine, saying that the safes rented by their customers should remain blocked up until they would be opened in the presence of one of their representatives who would check the contents. At the same time these banks were ordered to state:

Their stock with date of June 14 th 1940: Of foreign exchange, gold, foreign and French securities in foreign exchange, accounts in foreign currency abroad, credits in foreign currency, banknotes in RM.
A list of all customers who had rented a safe.

The opening and examination of the safes were started almost immediately, beginning from July 15 th 1940 and were carried on generally till the end of 1941, in certain cases till 1943 (safes of foreigners and war prisoners). In the course of this opening of safes the inspectors of the D.S.K. blocked up the values in gold, in securities and in foreign securities found in the banks themselves. These values could only be released in order to be sold to the Reichskreditkasse. The collections of works of art, of paintings etc. were also blocked up. The release of these collections was only granted on request if the proprietor was able to prove that he was not Israelite, in the negative, they remained blocked up and were then transmitted to the Einsatzstab Rosenberg (depot du Jeu de Paume or du Louvre). Later on, from May to July 1942, the safes of the American and Russian subjects were opened, mostly for the second time and the inspectors of the D.S.K. took out the gold, the foreign and French exchange and certain securities.

On the other hand, the statements of the values and foreign currencies, and the French values specified in foreign currencies were addressed to D.S.K. by the banking establishments from the end of the year 1940 forward and during the year 1941.

Finally, a German circular dated 13.8.1942 was issued prescribing the declaration by the banks of the German accounts and those compared with German accounts (belonging to aliens of Alsace-Lorraine, Belgium, Bohemia, Denmark, Netherlands, Luxemburg, Moravia, Poland).

The documents of the Devisenschutzkommando given to the National Archives and to which the numbers of the D.S.K. have been attached, concern in the main part the opening of safes (146 numbers out of 163). The first two numbers comprise plans of interior organization of the service, distribution of the work, circulars and notices, inventories of files, reports, tables, the numbers 3 and 4 documents concerning the executed control by the services of the D.S.K. at the frontiers and at the line of demarcation, the different affairs of pursuit regarding traffic of currencies and values. The numbers 5 to 153 constitute the files concerning the opening of safes, classified by the banks. These documents have almost exclusively reference to banks of Paris and their branches in the departments Seine, Seine et Marne, and Seine et Oise, several very rare pieces concern banks of the province.

---

(1) 2 exemplars of this circular are to see in the file I, 2. part, under ff.20,21

For each bank the file generally consists of the nominative list of the local clients of safes pursued by official reports of opening. The requests of release of collection of objects of art, or of sale of blocked values are to find at the end, classified by element. Finally the last numbers 154 to 163 comprise the lists of foreign values and German accounts being located in the banks. (2)

(2) Concerning the reports of D.S.K. in connection with the Commandant militaire in France (Military Administration, Econ. Section), correspondence and documents transmitted by the D.S.K. to M.B.F., see archives of M.B.F. XXVII, 179-284 et XXVIII, 225 - 227.

INTERNAL ROUTE SLIP

HEADQUARTERS, U. S. FORCES, EUROPEAN THEATER

FILE NO:

SUBJECT: Restitution to France - Item No. 3 (Shipments 2D, E) DATE: 21 September 1948

(Number each memo or minute consecutively. Fill in each column, signed legibly draw a line across the sheet. Use entire width of sheet for long memoranda.)

No.	From	Pass to	Date	HAS THIS PAPER BEEN COORDINATED WITH ALL CONCERNED?
1	Chief, FED, APO 757	OFA, OMGUS, APO 742	21 Sept 1948	1. Attached hereto is Annex A in duplicate covering Shipments 2D and 2E comprising currency, gold and silver scrap, jewelry, and a few small gold bars. 2. These shipments were received by the FED from the Reichsbank Halle on 25 April 1945 and according to a report signed A. M. Kamarck, A/Chief, Financial Intelligence Branch, were stated to consist of gold and foreign exchange hoards from French banks, evidently removed from blocked safe deposit boxes of their customers in accordance with an order of the German authorities dated 9 August 1944 or prior thereto, and delivered to the Devisenschutzlcommando in France. The property of each individual was marked separately as indicated in Annex A attached. 3. Monetary gold coin was removed from these shipments and included in shipments to London made by the FED on behalf of the Tri-Partite Commission for the Restitution of Monetary Gold. It will be noted that a few small gold bars are included in the Annex A. These were not removed as it was questionable whether they fell into the Monetary Gold category. 4. In an IRS dated 3 September 1948, the Finance Adviser wrote the Restitution Control Branch as follows: (Paragraph 3) "Upon receipt by FED of French claim and written statement from your division that these items should be restituted to France, restitution will be made." In this connection we venture the opinion that it will be difficult for the French to gather the information to support a claim, despite which all data in FED files clearly indicate restitutability to that country. 5. In the circumstances it is recommended that a copy of our Annex A together with a copy of the report mentioned in paragraph 2 be forwarded to the Restitution Control Branch for their consideration and further action. 6. Instructions are requested. Edwin P. Keller EDWIN P KELLER Acting Chief Foreign Exchange Depository

FILE NO.
SUBJECT French Property Removed by the Devisenschutzkommando

NO.	TO	FROM	DATE	(Has this been coordinated with all concerned?)
1.	FED APO 757	Rest. Br., PD APO 403	1 Dec. 1948	

1. The documentation attached to your 5 November C/S was examined by this office and it was determined that the French Restitution Mission has filed no claim for the property listed therein.

2. We are attaching hereto documentation submitted by the French Mission with respect to the looting activities of the Devisenschutzkommando in France. We note that this documentation does not list as victims of the DSK looting the banking firms listed in your Annex A. In this connection, it should be pointed out that the French documentation is not considered complete as it was drawn up only on the basis of such records of the DSK as were left in France, which documentation appears to be limited to the DSK activity in the Paris area. Your Annex A listing, on the other hand, covers, for the most part banking firms outside of the Paris area. This office, consequently, has no basis for judging restitutability of this property in terms of documentation submitted by the French Mission.

3. In paragraph 3 of your 5 November C/S, you state, however, that Financial Intelligence Branch reports indicate that the property under discussion was "evidently" removed from French banks sometime around 9 August 1944. This statement appears moreover, to be supported by the sseparate markings indicating, in almost all cases, French ownership of this property. If the FIB reports are accurate, the property under discussion is clearly restitutable to France under present restitution directives and we would support the restitution thereof.

4. Since no claim has been filed for this property by the French Mission it is requested that this problem, after referral to the Finance Advisor, be coordinated with the Reparations and Restitution Branch, Berlin, with a view towards having this matter accepted as a meritorious claim.

5. We would appreciate your returning the attached documentation to this office by 15 December so that Receipts and Releases might be issued, if agreement is reached to restitute the property under consideration.

to State designed to present this new evidence to the Swedish Government.

TAX PROGRAM

Bureau of Internal Revenue

(1) The recently trained agents are doing excellent work in the current tax drive investigations. In this month's report Internal Revenue writes of a number of outstanding investigations which have been consummated in Los Angeles. In one case the returns of a partnership had been assigned to a new agent for routine check. The new agent made a careful examination of the well-prepared returns and came up with a number of irregularities. The taxpayer had originally been a small corporation, which had been dissolved and subsequently reorganized as a partnership. The principal officer of the corporation, who was responsible for the irregularities, had died; but the surviving stockholder paid the entire deficiency of $237,000.

Another example of a new agent's work was reported by the Bureau as follows:

> "A routine investigation by a new agent was made of a corporation engaged in the retail sale of shoes. The company operates approximately one hundred stores on the Pacific Coast....Upon questioning the accountant, discrepancies appeared, as a result of which the case has now become a joint investigation and discloses understatement of income over a period of years of about three quarters of a million dollars. The special agents propose to recommend prosecution of the taxpayers. Out of this case has grown an estate tax fraud case in which there will be deficiencies of about $500,000."

(c) The request of the Joint Financial Commission to the Philippines concerning a change in Philippine currency reserves and Treasury support of the Philippine currency was studied; the Commission was informed that serious consideration of such a measure must await the report of the Commission.

(2) Developments in the British program for the settlement of sterling balances held by India, Egypt, and other countries were closely followed. We have given serious consideration to the desirability of communicating with the British before the negotiations with India and Egypt are resumed in London.

(3) Substantial progress has been made toward obtaining the return of the looted gold acquired by Roumania from Germany during the war. The Roumanian Government, in accordance with an arrangement worked out by the United States, United Kingdom, and France, has delivered approximately $20 million in looted gold to the American Legation in Switzerland. The Allies, if they choose, can accept this gold as a complete settlement of looted gold claims against Roumania. The agreement stipulates, however, that if the countries from which the gold was looted are not satisfied with this settlement, the gold will be returned to Roumania and negotiations resumed.

(4) Under the terms of the Swedish Accord, Treasury has until June 30, 1947, to present looted gold claims beyond those known at the time of the recent negotiations. Since the Accord, Treasury has learned that an additional $1 million of looted Dutch gold was transferred to Sweden during the war. We have submitted a paper

(3) Tangier assets will probably soon be unblocked by our inclusion of that country in the generally licensed trade area. This will have the effect of unblocking such assets without the certification procedure. However, steps are being taken to have the American Mission in Tangier investigate the principal holders of Tangier assets in the United States to determine whether there is any enemy interest in the property. If there is, Treasury will ad hoc block those particular accounts prior to the inclusion of Tangier in the generally licensed trade area.

(4) The Inter-Allied Reparations Agency, now meeting at Brussels, has just prepared a draft agreement covering conflicting claims to German enemy property. These conflicting claims arise in cases where the property is subject to the jurisdiction of two or more of the governments which are members of this Agency. The draft agreement is now under consideration by State, Treasury, and Justice on behalf of the United States.

Monetary Research

(1) During the month the following action was taken with respect to requests for stabilization agreements:

(a) The request of the Government of Peru was carefully studied and Peru was asked for additional information concerning its current economic situation and the type of agreement contemplated.

(b) The renewal of the Mexican-United States Stabilization Agreement was discussed with representatives of the Mexican Government; suggested revisions in recognition of the existence of the International Monetary Fund are being drafted.

coins for Colombia. Philadelphia is making silver coins for Ecuador and Saudi Arabia, and 121,000 gold discs valued at more than one million dollars, also for Saudi Arabia. Another 40 million minor coins for Saudi Arabia are on next month's schedule. During February and March, the Mint will produce approximately six million 50-cent pieces for the Government of Ethiopia.

The export of gold for industrial and related uses, which is licensed by the Mint, has increased considerably. In 1945, the value of gold exported for industrial purposes was $3.4 millions as compared with $14.5 millions in 1946.

House committee hearings have been held on six coin bills, and on special Mint bills relating to the deviations in standard fineness and weight tolerances of silver coins, and reduction of the number of coins required to be reserved for trial by the annual Assay Commission.

COMPTROLLER OF THE CURRENCY

During December, the Comptroller issued charters to two new national banks, authorized 9 national bank branches, and reports two banks in voluntary liquidation.

Eight national banks increased their capital funds $1,310,000 by the sale of new common stock, 43 declared stock dividends, and 21 national banks retired preferred stock in an amount of $9,746,000.

May 4, 1945

Mr. D. W. Bell

Mr. Coe

Subject: Acquisition of Swiss Francs against Gold

Representatives of the Swiss Legation and of the Swiss National Bank have requested that the Fund's acquisitions of Swiss francs be directly against gold, at a flat price of $35 per ounce, instead of against dollars. At the official rate of 4.29 francs to the dollar, the Fund would acquire 150.15 francs per ounce of fine gold which would be earmarked at the Federal Reserve Bank of New York in Gold Account T of the Swiss National Bank.

Agreement to submit this request for Treasury decision arose as follows: On January 1, 1945, the Swiss National Bank instituted a policy of making a deduction of one-half percent commission on governmental remittances in Swiss francs. (They continued to make such a deduction from humanitarian remittances.) State Department representatives in Switzerland, however, refused to accept payment subject to this deduction. After a period of negotiation between the Treasury and the Swiss Legation in Washington, the bank agreed to withdraw this charge which they alleged was merely an equitable offset for the 1/4 percent handling charge on gold, presumably on the assumption that the gold currently being purchased by the bank with dollars will be subsequently re-sold for dollars. The Swiss have contended that in view of their action in suspending the imposition of the 1/2 percent commission charge on governmental remittances, it would be reasonable for us to make a concession by waiving our 1/4 percent handling charge on gold. It is possible that they may renew their efforts to impose the commission charge.

Since it is intended to continue the practice of imposing the 1/4 percent handling charge in general, it is believed that an exception in the case of Switzerland would constitute a troublesome precedent. It is therefore recommended that the Swiss request be refused.

An explanatory memorandum is attached.

*OK DWB

Note: I informed Mr. Thoman of this decision at 11:00 A.m. June 13, 1945 by telephone.

making the 1/2 percent commission charge, that payment for francs should be made directly against gold only for those remittances, from which the Swiss have not made the 1/2 percent deduction. It is very doubtful whether on the basis of precedent the waiver should be made.

American organizations making humanitarian remittances have also protested because of the 1/2 percent deduction. The desirability of our acquiring the Swiss francs for their needs, also directly against gold, on condition that the 1/2 percent commission be waived should also be considered.

RG 56 Entry 360P Box 13
General Records of the Dept. of the Treasury
Re: Monetary and Int'l Affairs

March 13, 1945

Mr. Coe

Mr. Southworth

Subject: Manner of Payment for Swiss Francs Purchased by the Stabilization Fund.

Under arrangements now in effect, the 12.5 million Swiss francs per month made available by the Swiss National Bank for the Stabilization Fund to be used in making humanitarian and governmental remittances of Swiss francs are paid for in dollars at the rate of $1 for 4.29 francs. It is the practice of the Swiss National Bank to buy "freely transferable" gold at frequent intervals with the dollars which have accumulated to their credit in Account T at the Federal Reserve Bank of New York. The price paid by the Swiss National Bank is the usual $35 (plus 1/4 percent handling charges) per fine troy ounce.

Prior to February 1, 1945, the monthly quota of Swiss francs available to the Fund was 8-1/4 million francs, divided into 3-1/4 million francs for governmental purposes and 5 million francs for humanitarian purposes. Up to January 1, 1945, the Swiss National Bank had made a practice of deducting 1/2 percent commission from the franc remittances for humanitarian purposes, but had made no such deduction in the case of governmental remittances. Beginning on January 1, 1945, the bank sought to make a similar deduction on governmental remittances. State Department representatives in Switzerland, however, refused to accept payment subject to such deduction. After a period of negotiation between the Treasury and representatives of the Swiss Legation in Washington, the bank consented to withdraw the 1/2 percent commission charge which they alleged was merely an equitable offset for our 1/4 percent handling charge on gold. This is presumably based upon an assumption that the gold would subsequently be resold to the United States.

Representatives of the Swiss Legation and of the Swiss National Bank have now requested that our acquisitions of Swiss francs be directly against gold at a flat price of $35 per ounce instead of against dollars.

While the present 12.5 million franc monthly quota, (which incidentally is not proving adequate since we had to anticipate all but some 600,000 francs of the March quota in February and now have demand for over 17 million francs in March) is not divided into set amounts for governmental and humanitarian purposes, it is clear, in view of the asserted reason for

May 3, 1945

MEMORANDUM FOR THE FILES

Meeting in the Secretary's office,
May 3, 1945, 3:30 P.M.

Present: Secretary Morgenthau, Ambassador Braden, U.S. Ambassador to Argentina, Messrs. Coe and Hoffman

Subject: Argentina

The Secretary told Ambassador Braden that he had been wanting for some time to send a group of Treasury men to Argentina. He said that we had been looking all over the world for Nazi money and that we had not found very much and he thought we might find some in Argentina. He told the Ambassador that he has taken up this matter with the State Department and that the State Department had given him a list of names of people in Argentina who are available to do the job. The Secretary said that he did not think any of these people could do the job because it is a highly complicated question on which only the Treasury as a result of the work of Foreign Funds Control, has the necessary experience and personnel.

The Secretary emphasized that if the Treasury group should go to Argentina they would work under the Ambassador to close collaboration with him and with his staff. He referred to the mission sent by President Roosevelt to Switzerland and said that we had succeeded as a result of that mission, in which Mr. Schmidt of the Treasury had played a major role, in getting the Swiss to take a number of steps to cooperate in our efforts to smoke out Nazi money. At this point the Ambassador said that he was interested in knowing the kinds of measures which Argentina ought to take and at the Secretary's suggestion I outlined briefly the major steps which the Swiss had taken and suggested that Argentina, being an ally, ought to go even further than a neutral country.

The Secretary suggested that the Ambassador permit Mr. Schmidt and perhaps one or two others to call on him before his departure and discuss with him for an hour or so what the problem is and what kind of steps would be necessary to carry out an effective program in Argentina. The Ambassador said that he would be glad to talk with the Treasury men and asked if it would be possible for him to have an outline of the type of program we would like to see put in effect. The Secretary asked that

Secretary Morgenthau (For Action)

Mr. Coe

The following two questions are raised about the gold in the salt mines in Germany:

Shall the British be permitted to send technical experts to identify, weigh and catalog the gold?

What shall be the United States Government policy on the ultimate disposition of the gold?

1. It is our recommendation that the British experts be permitted to go in with American experts to identify, weigh and catalog the gold in the hoard. If any other United Nations Government wants to look at this gold they should also be permitted to do so. The handling of the gold has to a certain extent already been made a joint U.S.-U.K. concern when the gold was turned over to SHAEF by the United States Army group some time ago.

2. It is our recommendation that we make no further move or statement at this time with respect to the ultimate disposition of the gold. Our present tentative view is that the gold should be thrown into the general "pot" of German assets for distribution as reparations. It would be difficult to maintain the position in intergovernmental discussions that the gold belongs to the U. S. as "war booty".

It is in the financial interest of the United States that the gold be utilized solely as reparations (if it cannot be called "booty") because it will increase the amount of reparations which the United States can obtain. However, this point of view will find considerable opposition from other governments since some of these governments may find it in their interest to insist on restitution wherever possible.

5/8 - O. to Secy.

c. 71

May 25, 1945

Assistant Secretary White

M. L. Hoffman

As you know we have been investigating for some time the French Branches of the following American banks: National City, American Express, Guaranty Trust, Morgans and Chase. The field investigation, both in France and in New York, has already been completed with respect to these banks.

A summary of the significant facts regarding the Chase branch, some of which had been reported to you from time to time and which were developed during the course of our investigation, follows:

FINDINGS

1. Like most other banks, shortly before the German entry into Paris, Chase established a branch in Unoccupied France at Chateauneuf. At least until September, 1942, the home office maintained contact with the Paris office and was informed of major developments through the branch in Chateauneuf.

2. When Paris was occupied, the Paris office, then under the guidance of an American citizen, Mr. S. P. Bailey, commenced to liquidate under instructions from the Home Office. In February 1941, Bailey left Paris and Carlos Niedermann, a Swiss citizen, assumed charge of the office. In June 1941, the home office confirmed Niedermann's joint signing powers, as well as those of other Chase officials in France.

3. Prior to Niedermann's taking over, Siegfried Stern, a vice-president and a senior officer of the foreign department, was made fully aware of Niedermann's readiness to adjust himself to the situation brought about by the German victory in France and his willingness to collaborate with the Germans in their plans for a "New Europe."

5/30/45 - Ret. to Lacy (via Mrs. McHugh, as per note attached).

By WDL NARA Date 6/28/95

RG 56 Entry 360P Box 13
General Records of the Dept. of the Treasury
Re: Monetary and Int'l Affairs

4. In August of 1941 the home office criticized the slowness of the Paris office in reducing its active accounts.

5. In December of 1941 Bertrand, the manager in charge of the Chateaumeuf office, expressed to Stern his uneasiness with respect to the activities of Niedermann, particularly in his failure to carry out instructions for reduction of accounts. Stern was also urged by Bertrand to impose some restrictions on the powers of Niedermann. Stern took no action but on the contrary reminded Chateaumeuf in February 1942 that any step taken at this time to curb Niedermann, while possibly amply justified by certain facts, might nevertheless react against Chase's best interests, as Chase is dealing "not with a theory, but with a situation."

6. Shortly after the appointment of a German administrator in May 1942 Niedermann reported to Stern via Chateaumeuf that this administrator regarded the bank in "very special esteem" and that the Chase bank enjoys "special prestige" owing to the international activities of the head office and the pleasant relations which the Paris branch has been maintaining with many of their (German) local organizations and high officers. The German administrator, Niedermann reported, reinstated the powers of the Chase officials which had been suspended as a result of the administrator's appointment. The manager of the Chateaumeuf office continued to warn Stern. In June 1942 Stern was advised that Niedermann was collaborating to an increasing degree with the German administrator. Niedermann was reported as wishing to "again resume a banking activity as extended as possible."

7. The cable facilities to Chateaumeuf to give instructions to Niedermann via Chateaumeuf concerning his collaborationist activities were available during this time.

8. By letter dated June 16, 1942, Stern advised the State Department that the home office had been informed by Chateaumeuf that Caesar, the new German administrator was pressing Niedermann to centralize in the Paris office, all

deposits, securities and general records of the branches in France and to bring about a resumption of general banking activity by the Paris branch. Stern cabled to Chateauneuf on June 16, 1942 that the home office could not give approval to the "returning to Paris accounts and securities now in free zone. We count on you and Counsel to enlist cooperation of competent French authorities and American Embassy in defense of all deposits and property now held in free zone." The transfer of assets to Paris was successfully resisted. Stern did not give instructions with respect to resumption of general banking activity in Paris.

9. In September 1942 the home office advised Treasury and State Departments that the Paris branch was under pressure from the German administrator to increase its deposits with the assistance of the administrator. Upon receipt of this information State Department cabled the American Embassy in Vichy requesting it to consult with Bertrand, the manager of the Chateauneuf office of Chase.

10. Bertrand, who had been in touch with the Embassy at Vichy with respect to matters concerning General Ruling No. 11, did not reveal the pressure exerted by the German administrator of the Paris office until in September 1942 he was confronted with a copy of a circular letter addressed to former French clients by the Paris branch. This letter solicited new business from these old clients.

11. The Paris branch remained open throughout the entire period of German occupation. In the first year of Caesar's administration, from May 1942 to May 1943, the Paris office virtually doubled its deposits. Old customers of Chase, Paris, were solicited to increase their deposits. Caesar, the German Administrator, arranged the deposit of German controlled funds of some 15,600,000 French francs with Chase, Paris, to assist that office in meeting its operating expenses.

Re: Monetary and Int'l Affairs

12. The following table shows the increase in ordinary customer deposits (exclusive of the special deposits arranged by Caesar) of Chase, Paris during the period when it was under Caesar's administration.

Deposits in Paris Branch
(in thousands of French francs)

Date	Ordinary Customer Deposits
April 30, 1942	14,000
Dec. 31, 1942	20,600
Dec. 31, 1943	34,300
Aug. 19, 1944	51,300

13. In May, 1942, the Paris Branch advised the Deutsch-Suedamerikanische Bank, Berlin, that certain instructions of the latter had been carried out and that the Paris Branch "are at your disposal to continue to undertake the execution of banking affairs in France for your friends as well as for yourselves...."

14. In 1942, while part of France was still "unoccupied," Chase in Paris via Chateauneuf was acting as an intermediary between the German Overseas Bank in Berlin and its branches in Brazil and Chile in transmitting to Berlin instructions, transfers, orders, statements and the like. This was done at a time when Brazil was at war with Germany and their censorship as well as ours prohibited such communications, not only because they were destined for Berlin, but the branches themselves were on the Allied "black lists."

15. In numerous instances, securities and funds were transferred from the Chateauneuf office to Germany and to German-occupied territory outside of France. These transfers, which are known to have occurred at least during the spring and summer of 1942, required the approval of the Vichy authorities. Chase, Chateauneuf, took active steps to obtain the necessary authorizations.

16. The Paris office offered its services or expressed the hope that it would soon be in a position to do so, for handling the business in France of several banks in Germany and one in Hungary.

17. In connection with several accounts which the Paris Branch maintained on behalf of the German Embassy throughout the occupation, it expressed its willingness and desire to service the German Embassy. As a result, in 1944, the German Embassy favored Chase to handle a 6,000,000 francs deposit in connection with a transaction on behalf of the German Embassy.

CONCLUSION

It is the view of the investigators that the Paris branch of Chase under the direction of Niedermann collaborated with the Germans; that the home office of Chase was on notice of this fact and could have prevented such collaboration by insisting on compliance with its original instructions to liquidate. Chase, New York, dismissed Niedermann after our investigation in Paris was substantially completed. Inasmuch as this step has been taken, no further action is recommended.
