6,000 kilos of gold belonging to German Reichsbank is being transferred to Swiss National bank at BERN for official use of German Government according to reports from American legation at BERN forwarded through Mr CLAYTON Asst Secretary of State.

Gold now physically located at LORRACH Province of BADEN according to best information available. This gold not yet accepted by Swiss authorities due to assurances to US Government that German gold only for certain specified purposes would be accepted.

Mr CLAYTON states this gold is property of German Government and is subject to military seizure, he further states it is policy of this Government to prevent gold exports from GERMANY for numerous reasons 1 of which is that gold is probably looted and strongly urges that immediate steps be taken to locate and seize this shipment of gold. Please investigate and advise results.

UNRESTRICTED

Subject: Reported Discovery of Turkish Currency Near  
 Mulhausen, Alsace.

The Honorable  
 The Secretary of State,  
 Washington.

Sir:

I have the honor to report that the Turkish Ministry of Foreign Affairs has called the Embassy's attention to a news bulletin published on April 8, 1945 by the Anatolian Agency with regard to the discovery of gold, objects of art, and sums of money in various currencies near Mulhausen, Alsace. An English translation of this bulletin is enclosed.

The Ministry of Foreign Affairs has requested any available information with regard to the Turkish currency which is said to have been included in this find.

Respectfully yours,

For the Ambassador

Warwick Perkins  
 First Secretary of Embassy

ENGLISH TRANSLATION

London, 8.4.a.s.

From the special Reuter's correspondent with the Third American Army.

The last gold reserves of the Reichsbank have just been seized. They had been hidden in the rock-salt mines south of Mulhausen. Valuable objects of art from German museums were also found. The gold, which is in ingots, is reported to weigh 100 tons. Also found were three million paper marks, two million American dollars, one hundred million francs, one hundred ten million pounds sterling, and smaller sums in Turkish, Spanish, Portuguese, and Norwegian currencies.

SUBJECT : Report of gold, silver, etc., located in Germany during the past week.

TO : The Supreme Commander  
Allied Expeditionary Force

The following report is made of gold, silver, etc., located in Germany during the past week:

1. At Hof there was located 23 boxes of loot brought by Nazis from Poland. The loot appears to have been taken from Catholic Churches in Poland and the boxes in turn were looted before our Officers arrived. The boxes are being held by the local Military Government Detachment. There was also found in the Savings Bank at Hof, 2 boxes of loot containing gold plate and gold and porcelain tableware. These last 2 boxes have arrived at the depository at Frankfurt.

2. At Plauen in the debris of the Reichsbank were found 35 bags of gold coin which according to bank records were deposited by the Sicherheitsdienst (SD) of Wehrmacht for the account of the Reichsfurher of SS (Heinrich Himmler). These bags contain the following:

- 250,000 American Gold dollars
- 1,000,000 Swiss Gold francs
- 98,450 Holland Gold guilders
- 151,560 Norwegian Gold kroner

There was also found at the Reichsbank 22 bags of German silver coin.

All these bags have now been delivered to the depository at Frankfurt.

3. 41 bags of gold bars previously located in Saalfeld were transported prior to the arrival of American troops to Zwickau (near Chemnitz). ~~SECRET~~ is supposedly located at present. The area was being heavily defended as of 27 April but the 89th Division was arranged to take the gold if its patrols could penetrate the town.

4. The information received from Washington about the 6,000 kilograms of Reichsbank gold said to be located in Lorrach in the province of Baden was the subject of careful investigation but the gold has not been found and Washington has been so advised.

5. About 2½ billion French francs and a quantity of Polish zlotys have been located in Germany and are being moved to the Frankfurt depository.

6. We have today received word through 9th Army of the location at a town near 9th Army CP of the following:

- 6,000 bars of silver
- 536 closed boxes presumably containing silver
- 12 bags of records
- 1 chest of printing plates
- a small amount of foreign exchange and foreign coin.

The silver which weighs around 80 tons is supposed to have been delivered to the present place by Hungarian Financial Officers and is said to represent the total Hungarian stock of silver. The Commanding General of the Division in the area has placed a strong guard on the valuables but requested that the valuables be removed at once. We are arranging promptly the removal of the valuables to the depository at Frankfurt.

7. 21 tons of silver was found in a place near the Karlsruhe area and arrangements are being made to transport it immediately to the Frankfurt depository.

8. The gold and foreign currency notes found at Halle have arrived at the depository at Frankfurt and are being completely inventoried.

L. BERNTERODE. 3 boxes art objects in name of HOHENZOLLERN Museum BERLIN, including swords and scabbards, scepter, 2 crowns (without jewels) 1 Reichsapfel, 1 seal in gold and silver box and 1 death helmet.

M. From other branches of REICHSBANK small amounts of foreign currencies and foreign and German silver coins were found.

2. Reconnaissance Party found and interrogated REICHSBANK officials who insisted that they had taken to BERLIN 246 bags of gold bars and coins from MAGDEBURG (125 bags deposited with the MAGDEBURG REICHSBANK; 80 bags originally deposited with the ERFURT REICHSBANK and 41 bags originally deposited with the GOBLAR REICHSBANK); and also another REICHSBANK official who took 80 bags of gold to BERLIN from DESSAU Branch (40 bags of gold from WEISSENFELS REICHSBANK and 40 bags from WITTENBURG REICHSBANK). Further Reconnaissance indicates that 40 bags of gold originally deposited at WEIMAR and 40 bags deposited at APOLDA were said to have been taken to BERLIN. The 41 bags held at STENDEL and the 40 bags held at STARGARD are also said to have been taken to BERLIN. Investigation continues.

3. The REICHSBANK in FRANKFURT to which all this treasure is being taken is under constant military guard. Inventories are being prepared of all items listed above and will be forwarded when available. Search for similar assets continues.

AIR MAIL

July 7, 1954

Dear Charlie:

It has taken considerable time to produce something for a reply to your two letters querying me regarding the leader grant program for FY '55. I am not at all sure that the more encouraging information I now have is not already known to you.

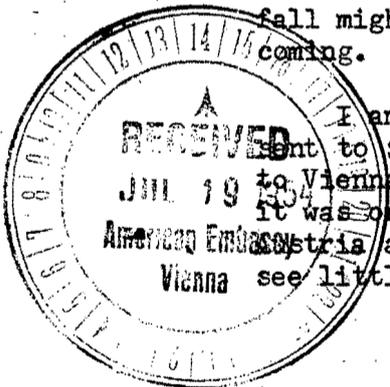

In any event, we have learned from IES that a budget error discovered in Vienna will permit the number of leaders to be expanded to eight in this year, instead of the three expected. The increase, of course, is on the assumption that Congress will not reduce the requested GOA appropriation, which these days is a pretty shaky assumption.

I testified at the House Appropriations Committee yesterday on the million dollar request for Vienna housing. I received the impression that the Committee was fairly well disposed toward the idea, particularly since the dollars go to the Treasury, and rather think that we will have some money to work on. The Austrian Embassy is delighted with the idea but immediately saw the possible connection between the heirless property negotiations and the housing appropriations without our even mentioning it. We, too, are at a loss to explain the latest Austrian reversal in the Jewish Claims negotiations. I have a long and highly exasperated letter from Sy Rubin with which I sympathize completely. I wonder if anything might be gained by somehow conveying to Raab the thought that his reception here next fall might be warmer if he could dispose of the claims issue before coming.

I am not sure that a copy of the letter the Secretary finally sent to Secretary Wilson, concerning the TRUST forces, has been sent to Vienna. In any event, I enclose a copy, with the explanation that it was originally drafted as a firm statement favoring transfer to Austria and retention in Europe. Both the Secretary and General Smith see little objection to bringing the troops home. The last

TOP SECRET

July 3, 1954

Dear Mr. Secretary:

The Department of Defense has informally requested the views of this Department on the question of redeploying the TRUST forces to Austria, in view of the possibility that we may be approaching a solution to the Trieste problem. I have reviewed the matter and have concluded, after weighing the various political factors involved, that there is no objection to the transfer of the major part of the United States forces now in Trieste to the U.S. Zone of Austria at such time as it becomes possible to withdraw them from Trieste.

It is my understanding that approximately 3,000 military personnel are involved, that the troops in question have few dependents, and that no significant housing problem such as was mentioned in my letter of October 24, 1953, would be created by their transfer to Austria. It would also help to minimize the political reactions of the augmentation of our forces in Austria if the troops could, after their departure from Trieste, be phased into Austria gradually and ostensibly as replacements. Also, if it were found possible to send at least a token number of troops to some station in Europe other than Austria, our position would be enhanced, I believe, by thus being able to state that only part of the U.S. troops from Trieste had been transferred to Austria.

If you should decide in favor of redeployment to Austria, I should appreciate being informed sufficiently in advance, in order that we may inform the appropriate foreign governments in regard thereto before the actual transfer of troops to Austria takes place.

I understand that it is the opinion of General Gruenther and the Joint Chiefs of Staff that these TRUST forces should not be brought back to the United States but should be continued in Europe as part of our NATO commitment. In view of what I understand to be the military judgment, I do not comment upon the possible return of the troops to the United States.

Sincerely yours,  
/s/ John Foster Dulles

The Honorable  
Charles E. Wilson,  
Secretary of Defense.

Proposed Note from the Governments of France, the United Kingdom and the United States to the B.I.S. concerning the basis for a settlement for looted gold acquired by the B.I.S.

The desire of the Bank for International Settlements to reach an agreement for the restitution of monetary gold looted or wrongfully removed by Germany from countries occupied during the war and subsequently acquired by the B.I.S. has been made known to the Governments of France, the United Kingdom and the United States. The three Governments also desire an early settlement of this matter and propose the following as a satisfactory procedure for the accomplishment thereof:

The three Governments are prepared to enter into an agreement with the B.I.S. along the following lines:

1. The B.I.S. to make immediate restitution of the 328 gold bars containing approximately 3708.32918 fine kilograms (or the equivalent thereof in gold) representing gold taken by Germany from France and the Netherlands and subsequently acquired by the B.I.S. The three Governments are prepared to present sufficient data to identify the aforementioned 328 gold bars which, it is understood, have been the subject of conversations between officials of the B.I.S. on the one hand, and of the Bank of France and the Netherlands Bank on the other hand.
2. The B.I.S. to make available for examination by representatives of the three Governments the records of its gold acquisitions and sales for the period of January 1, 1939, through September 1, 1945.
3. An undertaking by the B.I.S. to make restitution of any additional amounts of looted monetary gold which the three Governments, on the basis of the examination of the above-mentioned records and any other information available to them, are able to establish was acquired by the B.I.S. Any claims for additional amounts of gold not presented by the three Governments within one year after the date of the agreement shall be considered barred.
4. Acceptance by the B.I.S., for the purpose of determining the additional amounts of gold which it undertakes to restate in accordance with paragraph 3 above, of the principle that any monetary gold taken by Germany from a country during the period of military occupation thereof shall be considered to be looted gold regardless of the legal forms or devices used in effecting the transfer thereof.

5. Relinquishment by the B.I.S. of any claim to an amount of 1525 kilograms of gold recovered by the Allies from the Constance branch of the Deutsch Reichsbank where, according to the information in the possession of the three Governments, it had been deposited in the last days of the war to the credit of the B.I.S. and agreement that the aforesaid gold should, under the terms of the Paris Agreement on Reparations of January 14, 1946, be covered into the pool of monetary gold for distribution by the Tripartite Commission for the Restitution of Monetary Gold in accordance with the provisions of the Paris Agreement and the Terms of Reference of the Commission.

The conclusion of an agreement by the B.I.S. along the lines indicated above will be considered by the three Governments as satisfying the provisions of the Declaration on Gold Purchases of February 22, 1944, and thereafter the movement of monetary gold for the account of the B.I.S. will no longer be subject to restrictions by the three Governments on the grounds of its having been looted.

24 August 1945

SUBJECT: Evaluation of captured looted materials held in Reichsbank  
by Finance Division, G-5 USFET

TO: Chief of Staff

*201 Smith  
201 Halcock*

I. Discussion:

1. An inventory has been taken of all of the material contained in the SS loot and a summary of the results is attached hereto (Tab A) *attached*

2. The materials most likely to be of real value are: the gold coins and gold bars; the precious stones and jewelry; and the scrap metal which may be silver or gold.

3. It is estimated that the following technically trained personnel could make an accurate appraisal of these materials within two months after their arrival in Frankfurt:

- a) Two experts capable of appraising secondhand jewelry and unset precious and semi-precious stones.
- b) Two experts on reclaimed precious and semi-precious metals.

The services of two officers and 8 enlisted men would be needed to serve as security personnel and assist these technical experts in their work. The most expeditious way of obtaining these technical personnel might be to procure the services of expert appraisers such as are used by the Bureau of Customs to determine the value of materials imported into the United States. If handled in this manner the cost of the appraisal will be nominal.

4. Until the services of expert appraisers are obtained I find that no better estimate can be made than the rough estimate of one to five million dollars given to you in my memorandum of 13 August.

5. While it is possible that persons from whom these materials were taken or their relatives may have a claim against these materials or their proceeds, it is felt that because of the practical impossibility of ascertaining the former owners of any particular item no legal difficulties will be encountered by a plan to use the proceeds to establish a charitable foundation provided such plan does not foreclose the allowance of any claims established.

6. Although these materials were captured during the period of combined command the cables attached as Tab B show that the United States policy concerning the disposition of these materials has not yet been established and is under consideration at a Governmental level. Accordingly, any plan for the disposition of such materials should be submitted to the Joint Chiefs of Staff for approval.

II. Recommendations:

*attached*

- 1. That the cable attached (Tab C) be dispatched to ascertain whether the Bureau of Customs can furnish experts qualified to appraise the material.
- 2. That no plan for the disposition of these materials or their proceeds be prepared or submitted to the Joint Chiefs of Staff until their value has been determined by experts.
