Star

We cover kids above 17 if they are covered by State law most are covered to age 21 or above. I wasn't clear about that yesterday. Only one State Michigan goes above 22. This may be a reauthorization issue. Also, I was surprised to learn when I got the printout that there is an increasing number of LD kids in 18-21 cohort. This is a significant change over the figures during the early years of P.L. 94-142 implementation and, I believe is a positive trend in that this population which has an historically high drop-out rate appears to be staying in school.

I have enclosed the 1984 numbers which show both number increase and a percentage increases of LD kids.

GENERAL SERVICES ADMINISTRATION

**Free Appropriate Public Education (FAPE) to
Students with Disabilities aged 18 through 21 under Part B of the
Individuals with Disabilities Education Act (IDEA-B)**

- Under IDEA-B, States are required to provide FAPE to eligible children 3 through 17 years of age¹ (34 CFR §300.300); many States have age mandates that require services to age 21 (30) and others require services through 21 (24). (See attached list of States with mandated age ranges.)
- All IDEA-B requirements apply to eligible youth aged 18 through 21, as long as the youth are within a State's mandated age range. There are no express requirements that apply only to students with disabilities aged 18-21 years old.
- IDEA-B requirements related to transition services apply to eligible youth beginning at age 16.
- During the 1992-93 school year, 4,893,865 youth 18-21 years of age were counted as served under IDEA-B. Under Chapter 1 Handicapped, 275,377 were counted as served.

¹ The IDEA requires States to assure that FAPE is available for all children with disabilities aged 6 through 17, and further requires FAPE for all such children aged 3-5 and 18-21 -- to the extent that the FAPE mandate is not inconsistent with State law or practice, or the order of any court. (20 U.S.C. 1412(2)(B))

² Figures include 60 entities, the 50 States, Puerto Rico, DC, BIA, Virgin Islands and the Pacific Territories.

³ The transition requirements apply to children younger than 16 if determined appropriate.
