Extent

10 folders, approximately 387 pages

Summary

This collection consists of material related to President Clinton's June 24, 1994 visit to St. Louis, Missouri for the Summer of Safety Program. The collection contains correspondence and scheduling materials for the Summer of Safety event, President Clinton’s annotated remarks for the event, and press releases for the President’s remarks. The President’s speech promoted the Crime Bill and personal responsibility in fighting crime.

Scope and Content Note

The materials in FOIA 2016-0926-F are a selective body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related material. On June 24, 1994, President Clinton delivered a speech at the Summer of Safety Event in St. Louis, Missouri. The speech was delivered in Fox Park, an area that was characterized by drug-related activities and crime at that time. The Corporation of National Service’s “Summer of Safety” program included efforts to reduce crime by partnering with law enforcement, creating safe places, forming block associations, and teaching dispute resolution. The President’s speech promoted the Crime Bill and personal responsibility in fighting crime. Subject Files contain scheduling materials for the Summer of Safety event and President Clinton’s annotated remarks for the event. Staff and Office files contain press releases for the President’s remarks and additional scheduling materials. The files incidentally includes scheduling materials on press interviews near the time of the remarks and also the Metrolink opening. Email from the Automated Records Management System contains correspondence concerning the Summer of Safety. Most email correspondence consists of scheduling information concerning the President’s travel to St. Louis and preparation for the Fox Park National Service event.

Record Type

Textual

System of Arrangement

Records that are responsive to this FOIA request were found in these collection areas—Clinton Presidential Records: White House Office of Records Management (WHORM) Subject Files, Clinton Presidential Records: White House Staff and Office Files, and Clinton Presidential Records: ARMS Email. The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject file was compiled by the White House Office of Records Management and is a series of categories designated by a letter/number combination. Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity. WHORM files are processed at the document level; whereas, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. The Automated Records Management System (ARMS) is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential email. The ARMS database is comprised of six sub-series of email records called "buckets." The buckets generally represent a specific White House office. The buckets are titled: NPR for National Performance Review, OPD for Office of Policy Development, POTUS for President of the United States, WHO for White House Office, CEA for Council of Economic Advisers, and Default for emails not associated with an office. The OPD bucket contains email created or received by an individual with an Office of Policy Development (OPD) White House user account. The WHO bucket contains email created or received by individual with an Executive Office of the President White House user account not identified as CEA, NPR, or OPD. The Default bucket contains email created or received by unknown or unrecognized email accounts. Email found within the Default bucket often includes email created or received by offices or individuals outside the Executive Office of the President. ARMS emails are arranged by topic, there-under by bucket, and there-under

chronologically by creation date. FOIA 2016-0926-F includes WHORM records from these subject codes: FG001-07 Appointments Granted, Presidential GI002 Gifts to the President IV Invitations SP707 Summer of Safety Event, Fox Park, St. Louis, MO, 6/24/1994

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 U.S.C. Chapter 22, as amended) and the Freedom of Information Act (FOIA) (5 U.S.C. 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (17 U.S.C. Chapter 1) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton’s presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed by

Staff Archivist, 2016. Previously restricted materials are added as they are released.
