Extent

901 folders, approximately 50,930 textual pages, 6 electronic pages

Summary

The collection consists of records related to Katie McGinty and the Council on Environmental Quality. These records date from 1993 to 1994, when McGinty served as Deputy Assistant to the President for Environmental Policy and Director of the Office on Environmental Policy. The collection includes articles, briefing papers, drafts, forms, invitations, legislative materials, letters, lists, memoranda, news clips, notes, original children's artwork, Presidential Decision Directives, press releases and statements, reports, research, talking points, schedule requests, speeches, and testimony.

Scope and Content Note

The materials in FOIA 2012-0769-F (Segment 1) are a selective body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related material. This collection contains the records of Kathleen "Katie" McGinty. McGinty worked in the Clinton Administration from 1993 to 1998. From the start of the administration through the end of 1994 McGinty served as Deputy Assistant to the President for Environmental Policy and Director of the Office on Environmental Policy. In January of 1995 she was named as chairman of the White House Council on Environmental Quality, through which she served as senior advisor to the President regarding domestic and global environmental, energy, and natural resources matters. She remained there until November of 1998. Prior to her appointment in the Clinton Administration, McGinty worked with then-Senator Al Gore as a legal assistant and senior environmental advisor from 1989 until they moved to the White House. Since Gore's environmental focus in the Senate was very much part of the 1992 Clinton-Gore platform, when she moved to the West Wing McGinty carried many records from her work in his senatorial office to her new job.

Normally material created before January 20 of the year a President is inaugurated which appears in the files of that administration is deemed as “non-record” and closed during processing as “pre-Presidential.” Such material, however, may be trapped as “record” and redesignated as Presidential if there is evidence it was used as background and/or reference material in crafting legislation and policy for the administration. Most of the material McGinty carried forward from Gore’s office falls into this category. The collection has two major components, subject files and correspondence, and covers 1993 and 1994 of the Clinton Administration. The subject files are arranged in alphabetical order and include the above mentioned relevant pre-Presidential records. The correspondence files (which commence in box 36) are kept in the original order of A-Z for each separate section and chronologically under that, if appropriate. There is a subject component in the correspondence segment that falls after the Regrets A-Z file. The records consist of articles, briefing papers, drafts, forms, invitations, legislation, legislative referral memoranda, letters, lists, memos, news clips, notes, original children’s artwork, Presidential decision directives, press releases and statements, reports, talking points, schedule requests, speeches, and testimony. Subjects include administration, alternative fuels, biodiversity, chlorofluorocarbons, clean air and water, climate change, conservation, desertification, Earth Day, Endangered Species Act, energy, Environmental Defense Fund [EDF] v Massey, Environmental Protection Agency [EPA] elevation bill S 171, Exxon-Valdez, forestry, General Agreement on Tariffs and Trade [GATT], global warming, intern management, the National Environmental Protection Act [NEPA], North American Free Trade Agreement [NAFTA], ozone, pollution, President’s Council on Sustainable Development [PCSD], solar power, timber management, United Nations Conference on Environment and Development [UNCED], watershed, whales and whaling, Yanomami Massacre, and Yucca Mountain.

Record Type

Textual

System of Arrangement

Records that are responsive to this FOIA request were found in these collection areas—Clinton Presidential Records: Clinton Presidential Records: White House Staff and Office Files. Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity. Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 U.S.C. Chapter 22, as amended) and the Freedom of Information Act (FOIA) (5 U.S.C. 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (17 U.S.C. Chapter 1) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton’s presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed by

Staff Archivist, 2017. Previously restricted materials are added as they are released.
