820 folders, approximately 59,075 pages

Summary

This collection consists of records from the files of Kathleen "Katie" McGinty, Director of the White House Office on Environmental Policy, from 1993 thru 1994. It contains correspondence, memoranda, reports, briefing materials, schedules, press guidance, emails, and notes mostly regarding global warming, climate change, logging and deforestation issues.

Scope and Content Note

The materials in FOIA 2012-0769-F (Segment 2) are a selective body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related material. Researchers interested in this topic may also be interested in FOIA 2017-1092-F (climate change and global warming). FOIA 2012-0769-F (Segment 2) contains the files of Kathleen “Katie” McGinty. From early 1993 to the end of 1994, McGinty served as Deputy Assistant to the President for Environmental Policy and Director of the Office on Environmental Policy. In January of 1995, she was named chairman of the White House Council on Environmental Quality (CEQ), as a senior advisor to President Clinton. She remained there until November of 1998. Prior to her White House appointment, McGinty served as Senator Al Gore’s senior legislative assistant for energy and environmental policy. In this capacity, McGinty was instrumental in drafting the Clean Air Act. As CEQ director, McGinty was responsible for advising President Clinton on all matters of international and domestic environmental policy. Following her time at the White House, McGinty was a counselor to Vice President Gore during his 2000 presidential campaign, led the Pennsylvania Department of Environmental Protection and later ran unsuccessfully as governor and U.S. senator from Pennsylvania in 2014 and 2016 respectively. As of March 2018, McGinty serves as an environmental advisor on various corporate

boards. The records responsive to this FOIA consist of the second segment of Kathleen McGinty's systematically processed files. These records include correspondence, memoranda, reports, briefing and meeting materials, schedules, notes, speeches, newspaper articles, and emails regarding various international and domestic environmental issues, including global warming, clean air, and deforestation.

Record Type

Textual

System of Arrangement

Records that are responsive to this FOIA request were found in this collection area—Clinton Presidential Records: White House Staff and Office Files. Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity. Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 U.S.C. Chapter 22, as amended) and the Freedom of Information Act (FOIA) (5 U.S.C. 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (17 U.S.C. Chapter 1) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton’s presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed by

Staff Archivist, 2018. Previously restricted materials are added as they are released.
