System of Arrangement

Records that were responsive to this FOIA request were found in two collections and two series, Clinton Presidential Records: Photographs of the White House Photograph Office and the series therein – Photographs Relating to the Clinton Administration, and Clinton Presidential Records: Video Recordings of the White House Television Office and the series therein – Video Recordings Relating to the Clinton Administration. Processing was done at the folder/contact sheet level for photographs and at the individual item level for video. While this method maintains folder/contact sheet integrity for photographs and tape run time integrity for video, it frequently results in the incidental processing of photographs and video recordings that are not wholly responsive to the subject area.
