System of Arrangement

Records that are responsive to this FOIA request were found in these collection areas— Clinton Presidential Records: ARMS Emails, Clinton Presidential Records: TRP Emails, and Clinton Presidential Records: NSC Cable, Email, and Records Management Systems. The Automated Records Management System (ARMS) is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential email. The ARMS database is comprised of six sub-series of email records called "buckets." The buckets generally represent a specific White House office. The buckets are titled: NPR for National Performance Review, OPD for Office of Policy Development, POTUS for President of the United States, WHO for White House Office, CEA for Council of Economic Advisers, NSC for National Security Council, and Default for emails not associated with an office. The NSC bucket contains email created or received by an individual with a National Security Council (NSC) White House user account. ARMS emails are arranged by topic, there-under by bucket, and there-under chronologically by creation date.
