System of Arrangement

Records that are responsive to this FOIA request were found in these collection areas— Clinton Presidential Records: (SAS) Automated Records Management System [Email]; Clinton Presidential Records: (SAS) Tape Restoration Project [Email]; Clinton Presidential Records: (SAS) White House Database (WHODB); and Clinton Presidential Records: (SAS) Worker and Visitor Entry System (WAVES). The Executive Office of the President (EOP) subsystem of the Electronic Records Archive (ERA) contains electronic records created or received by Clinton Administration officials. These records are stored in Search and Access Sets (SAS) that represent their originating computer program. The Automated Records Management System (ARMS) is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential email. The Tape Restoration Project (TRP) is a database consisting of restored emails from the Automated Records Management System (ARMS) from July 1994 through June of 2000. The TRP is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential email. The White House Database (WHODB) is a database of White House events and individuals that attended those events. The database also includes a log of individuals that received White House greeting correspondence. Data was entered and maintained by the Office of Correspondence, Social Office, and Office of Public Liaison. The electronic Worker and Visitor Entry System (WAVES) is a log of visitors/appointments to the White House and is arranged by name of visitor there-under by date.
