45 assets

Summary

This collection consists of records related to Patrick Eddington. The bulk of the records are listservs, e-newsletters, news articles, and television news transcripts. Patrick Eddington is a former government military image analyst and author of the 1997 book Gassed in the Gulf: The Inside Story of the Pentagon-CIA Cover-up of Gulf War Syndrome. This collection contains emails and other electronic records.

Scope and Content Note

The materials in FOIA 2020-0569-F (Segment 2) are a selective body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related material. Patrick Eddington was a military image analyst from 1988 to 1996. After leaving government service, he advocated on Gulf War Illness issues. His 1997 book, Gassed in the Gulf: The Inside Story of the Pentagon-CIA Cover-up of Gulf War Syndrome, made allegations concerning the exposure of American soldiers to chemical agents during the 1991 Persian Gulf War. From 2004 to 2014, Eddington served as communications director and later as senior policy advisor to New Jersey Congressman Rush Holt Jr. In 2014, he joined the Cato Institute as a Senior Fellow in homeland security and civil liberties.1 Materials responsive to this FOIA request include emails mentioning Patrick Eddington. The bulk of the records are listservs, e-newsletters, news articles, and television news transcripts.

Record Type

Electronic Records

System of Arrangement

Records that are responsive to this FOIA request were found in these collection areas— Clinton Presidential Records: (SAS) Automated Records Management System [Email]; Clinton Presidential Records: (SAS) Tape Restoration Project [Email]; and Clinton Presidential Records: (SAS) Lotus Notes. The Executive Office of the President (EOP) subsystem of the Electronic Records Archive (ERA) contains electronic records created or received by Clinton Administration officials. These records are stored in Search and Access Sets (SAS) that represent their originating computer program. The Automated Records Management System (ARMS) is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential email. The Tape Restoration Project (TRP) is a database consisting of restored emails from the Automated Records Management System (ARMS) from July 1994 through June of 2000. The TRP is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential email. Lotus Notes is a database that contains files created in the Lotus Notes system. The Lotus Notes system was used as an email management system during the Clinton Administration. This database contains drafts of email, mailing lists, attachments, and other items likely intended for email.

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 U.S.C. Chapter 22, as amended) and the Freedom of Information Act (FOIA) (5 U.S.C. 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (17 U.S.C. Chapter 1) which

governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton’s presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processed by

Staff Archivist, 2022. Previously restricted materials are added as they are released.
