System of Arrangement

Records that were responsive to this FOIA request were found in two collections and two series, Clinton Presidential Records: Audio Recordings of the White House Photograph Office and the series therein – Audio Recordings Relating to the Clinton Administration, and Clinton Presidential Records: Video Recordings of the White House Television Office and the series therein – Video Recordings Relating to the Clinton Administration. Processing was done at the individual item level for both audio recordings and video recordings. While this method maintains run time integrity for audio & video recordings, it frequently results in the incidental processing of audio and video material that is not wholly responsive to the subject area.
