System of Arrangement

Records that were responsive to this FOIA were found in one collection area - Clinton Presidential Records: WHORM Subject Files. WHORM Subject files are processed at the document level. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to

the subject area. The WHORM Subject File was compiled by the White House Office of Records Management and is a series of categories designated by a letter/number combination. A complete listing of the categories with detailed descriptions is provided in our research room.
