Summary

FOIA request 2006-0885-F (Segment 1) consists of Ira Magaziner’s Health Care Task Force files. Ira Magaziner, a Senior Advisor to the President for Policy Development, was heavily involved in health care reform.

Scope and Content Note

The materials in FOIA 2006-0885-F (segment 1) are a selective, not necessarily all inclusive body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. FOIA request 2006-0885-F (segment 1) consists of Ira Magaziner’s Health Care Task Force files. Ira Magaziner, a Senior Advisor to the President for Policy Development, was heavily involved in health care reform. In January 1993, President Clinton announced the creation of the Task Force on National Health Care Reform and designated First Lady Hillary Rodham Clinton as its chair. Magaziner assisted the Task Force by coordinating health care policy development through the formation of numerous working groups. Magaziner and the First Lady were the President’s primary advisors on health care. The Health Care Task Force eventually produced the administration’s health care plan, introduced to Congress as the Health Security Act. This bill failed to pass in 1994. The White House Staff and Office files contain materials maintained by individual offices and staff members. The records responsive to this FOIA are Health Care Task Force files determined to have been created by Ira Magaziner. This series contains various types of correspondence, press clippings, and publications. In addition, throughout these files one may find materials on the Health Security Act. These records include general information on the administration’s health care reform proposal, comparison between it and other health care plans, analysis of the Health Security Act, briefing materials, and correspondence between Ira Magaziner and other White House staff

involved in health care reform. Located at the beginning of this series, the correspondence includes letters and responses to the Health Security Act from professional, educational, and non-profit organizations , as well as critques of the plan from other executive branch agencies. In addition, these files also contain correspondence to Ira Magaziner and other members of the Clinton Administration, from private citizens. Many of these offered either approval or disagreement with the Clinton health care plan and are dated between the second half of 1993 and the end of 1994. A copy of Magaziner's response attached accompanies many of the letters. This correspondence from individual citizens is arranged initially by topic, and later alphabetically. In addition, the correspondence files contain statistics and analysis regarding the handling of correspondence received by Magaziner's office, as well as telephone and mail logs. Numerous files containing press clippings follow the correspondence. These files contain articles, press releases, and papers discussing health care reform, as well as daily clippings and summaries of relevent news items provided to Magaziner by the White House and by the Department of Health and Human Services. These daily clippings are in chronological order and date from 1993 through 1995. Publications sent to Ira Magaziner are located at the end of this series. These books, pamphlets, and reports generally represent topics relevent to health care reform, though some discuss unrelated matters. Magaziner received these materials from individual citizens, external organizations, state governments, and other federal government agencies.

Record Type

Textual

System of Arrangement

Records that are responsive to this FOIA request were found in one collection area — Clinton Presidential Records: White House Staff and Office Files. As policy, staff and office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (17 USC 101), which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton’s presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).
