Extent

313 folders, 26019 pages.

Summary

This collection consists of records regarding conferences and events attended and hosted by the First Lady, Hillary Rodham Clinton. The key events in this collection consist of the United Nations Fourth World Conference on Women, Vital Voices, Beijing +5, and the Early Childhood Development Conference. A majority of the records consist of planning materials, speech drafts, travel arrangements, and budgets for the events.

Scope and Content Note

The materials in FOIA 2006-0198-F (Segment 4) are a selective, not necessarily all inclusive, body of documents responsive to the FOIA. Researchers should consult the archivist about related materials. FOIA 2006-0198-F (Segment 4) contains records regarding the conferences and events attended and hosted by the First Lady, Hillary Rodham Clinton. The key events in this collection consist of the United Nations Fourth World Conference on Women, Vital Voices, Beijing +5, and the Early Childhood Development Conference. The records include background materials in preparation for each of these conferences. The United Nations Fourth World Conference on Women in Beijing was held September 4-15, 1995. Its mission was to address women’s issues such as: poverty, health, education, women’s rights as human rights, empowerment, and women’s participation in government. Hillary Clinton attended with the U.S. Delegation and gave several addresses. Of note were the remarks she gave on September 5th, wherein she delivered the line, "If there is one message that echoes forth from this conference, let it be that human rights are women's rights and women's rights are human rights, once and for all." The result of the conference was the Declaration and Platform for Action which focused on achieving greater equality and opportunities for women around the world. Vital

Voices was established in 1997 after the United Nations Fourth World Conference on Women to promote the advancement of women as a U.S. foreign policy goal. The organization was created in part by the First Lady and then Secretary of State Madeleine Albright. The Vital Voices organization created conferences around the world bringing together women leaders. Conferences covered in this collection include, but are not limited to: Vienna, Austria in July, 1997; Belfast, Northern Ireland on August 31 - September 2, 1998; Montevideo, Uruguay on October 1- 3, 1998; Istanbul, Turkey on November 19, 1999; and Reykjavik, Iceland on October 8-10, 1999. Beijing +5 was a five-year review of the implementation of the Declaration and Platform for Action held in the United Nations' General Assembly, June 5 - 9, 2000. The Conference's theme was, "Women 2000: Gender Equality, Development and Peace for the Twenty-First Century". This follow-up conference allowed countries to report on the progress they had made since the Fourth World Conference on Women in Beijing. The White House Conference on Early Childhood Development and Learning: What New Research on the Brain Tells Us About Our Youngest Children, was a day-long conference hosted by the President and First Lady on April 17, 1997. The Conference focused on new scientific findings on brain development in young children and highlighted the importance of children's earliest experiences in helping them start out healthy and strong in life. A large section of the records in connection to this conference are background materials and correspondence from persons interested in attending and/or participating in the conference. The vast majority of the records found in the collection come from the Clinton Presidential Records: White House Staff and Office Files. Of those, most are from the First Lady's Office, in particular from the office of Melanne Verveer. The records include reports, travel arrangements, schedules, speeches, background materials, speech drafts, correspondence, and memorandums.

Record Type

Textual

System of Arrangement

Records responsive to this FOIA request were found in two collection areas: Clinton Presidential Records: WHORM Subject Files and Clinton Presidential Records: White

House Staff and Office Files. The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject file was compiled by the White House Office of Records Management and is a series of categories designated by a letter/number combination. Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity. WHORM files are processed at the document level; whereas, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials for the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (17 USC 101), which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton’s presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Person Names

Clinton, Hillary Rodham

Processed by

Staff Archivist, 2012. Previously restricted materials are added as they are released.
