379 folders, approximately 32,767 pages

Summary

This collection consists of records related to Radio Marti. Radio Marti, the U.S. government’s broadcasting service to Cuba, first aired on May 20, 1985 as a result of the Radio Broadcasting to Cuba Act of 1983. Television broadcasting to Cuba, TV Marti, was added to the Act in 1990. The files contain correspondence, email, memoranda, cables, and press briefings. Related topics include Track II of the Cuba Democracy Act of 1992, Cuban Liberty and Democratic Solidarity Act of 1996 (Libertad Act), and U.S. immigration policy toward Cuba.

Scope and Content Note

The materials in FOIA 2006-0204-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials. FOIA request 2006-0204-F contains materials from several agencies and individuals, including the National Security Council. Radio Marti, the U.S. government’s broadcasting service to Cuba, first aired on May 20, 1985 as a result of the Radio Broadcasting to Cuba Act of 1983. Television broadcasting to Cuba, TV Marti, was added to the Act in 1990. The aim of both Radio and TV Marti is to promote democracy and freedom in Cuba by offering the public accurate and objective information, which is not available in their own media. The White House Office of Records Management (WHORM) Alpha File for Radio Marti contains a draft of a message from President Clinton to the Cuban people marking Cuban Independence Day, May 20, 1997. The WHORM Subject Files – General includes records related to Radio Marti’s signal strength and effectiveness, and the radio’s budget. Also included are copies of the Radio Broadcasting to Cuba Act and an act regarding the availability of Voice of America (VOA) and Radio Marti broadcasts. The WHORM Subject File – CF consists of one folder of correspondence

between President Clinton and Senator Graham and Representative Hamilton regarding funding for TV and Radio Marti. The White House Staff and Office Files – CF consists of four folders from the files of Richard Nuccio. The files contain correspondence, memoranda, cables, and press briefings (both in English and Spanish). Topics covered include Radio Marti funding and the station's coverage of international issues. Also included are records regarding Cuba's reaction to Track II of the Cuba Democracy Act of 1992. The White House Staff and Office Files contain correspondence, reports, press briefings, memoranda, and resumes from the office of the National Security Council. The records deal with a variety of topics including: appointments to the President's Advisory Board for Cuba, a 1997 report from the Office of Inspector General (OIG) on Allegations of Employee Reprisal in the Office of Cuba Broadcasting, and a transcript of a 60 Minutes interview with David Burke, chairman of the Broadcasting Board of Governors. Also included are records related to the move of Radio/TV Marti offices from Washington, D.C. to Miami, Florida, and the effectiveness and strength of Radio Marti's transmission. The Automated Records Management System (Email) consists of press briefings, news reports, and presidential statements. Also included are Office of Management and Budget Legislative Reports and weekly reports from the United States Information Agency (USIA). Topics include the 1996 downing of two Brothers to the Rescue planes by the Cuban government and the marking of Cuban Independence Day. The Tape Restoration Project (Email) contains records similar to those described for the Automated Records Management System (Email): press briefings, news reports, and USIA Weekly Reports. The NSC Cable, Email, and Records Management Systems contain additional information about Radio Marti. The NSC Cable System includes press reports on the U.S. immigration policy toward Cuba and the Cuban government's treatment of its citizens. Also included, are Department of State Reports on Human Rights Practices in Cuba. The NSC Email System consists mainly of press material: press guidance, news summaries, and press briefings. Some of the subjects covered include the Radio's move from Washington, D.C. to Miami, Florida, the downing of two Brothers to the Rescue planes by the Cuban government, and the implementation of the Cuban Liberty and Democratic Solidarity Act of 1996 (Libertad Act). The NSC Records Management System provides the researcher with correspondence about Radio Marti's funding, transmission strength and effectiveness, and the move of the Radio/TV Marti offices to Miami, Florida.

Record Type

Textual

System of Arrangement

Records that were responsive to this FOIA request were found in seven collection areas—Clinton Presidential Records: WHORM Alpha Files, Clinton Presidential Records: WHORM Subject Files General, Clinton Presidential Records: WHORM Subject Files-CF, Clinton Presidential Records: White House Staff and Office Files-CF, Clinton Presidential Records: White House Staff and Office Files, Clinton Presidential Records: Automated Records Management (ARMS) Emails, Tape Restoration Project (TRP) Emails, and Clinton Presidential Records: NSC Cable, Email, and Records Management Systems. As policy, Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. WHORM Subject and WHORM Alpha files are processed at the document level. The WHORM Subject file was compiled by the White House of Records Management and is a series of categories designated by a letter/number combination. A complete listing of the categories with detailed descriptions is provided in our research room. The WHORM Alpha file was compiled by the White House Office of Records Management and is a series of documents arranged by name of persons, organizations, or events. The Automated Records Management System (ARMS) is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential Records email. The ARMS dataset is comprised of 6 sub-series of email records called “Buckets.” The buckets include NPR, OPD, POTUS, WHO, CEA, and Default. ARMS emails are arranged chronologically by creation date. The Tape Restoration Project (TRP) is a database consisting of restored emails from the Automated Records Management System from July 1994 through June of 2000. The TRP is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential record email. The TRP dataset is comprised of 6 sub-series of email records called “Buckets.” The buckets include NPR, OPD, POTUS, WHO, CEA, and Default. ARMS emails are arranged chronologically by creation date.

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 22) and the Freedom of Information Act (FOIA) (5 USC 552 as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of William Jefferson Clinton’s presidency are housed at the Clinton Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Subject Headings

Radio Martí Program (U.S.)
Cuba
Cubans

Processed by

Staff Archivist, 2008. Previously restricted materials are added as they are released.
