System of Arrangement

Records that are responsive to this FOIA request were found in these collection areas — Clinton Presidential Records: White House Staff and Office Files, Clinton Presidential Records: ARMS Emails. White House Staff and Office Files were maintained at the folder level by staff members within their individual offices and documents all levels of administrative activity. Staff and Office Files are processed

at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. The Automated Records Management System (ARMS) is a database that contains email records of the Executive Office of the President. This system maintained unclassified Presidential Records email. The ARMS dataset is comprised of 6 sub-series of email records called “Buckets.” The buckets include NPR, OPD, POTUS, WHO, CEA, and Default. ARMS emails are arranged chronologically by creation date.
