System of Arrangement

Records that were responsive to this FOIA request were found in the Clinton Presidential Records: White House Staff and Office Files and Clinton Presidential Records: NSC Cables, Emails and Records Management System (RMS). Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity. Staff and Office files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Access

Collection is open to all researchers. Access to Clinton Presidential Records is governed by the Presidential Records Act (PRA) (44 U.S.C.
