### **System of Arrangement**

Records that were responsive to this FOIA request were found in two collection areas and two series—Clinton Presidential Records: Photographs of the White House Photograph Office and the series therein—Photographs Relating to the Clinton Administration, and Video Recordings of the White House Photograph Office and the series therein—Video Recordings Relating to the Clinton Administration. Processing is done at the Folder/Contact sheet level and individual recorded tape level. While this method maintains folder/contact sheet integrity and tape run time, it frequently results in the processing of photographs and video recordings that are not wholly responsive to the subject area.
